

Defence Equipment and Support Secretariat #2043 Maple 0a Ministry of Defence Abbey Wood Bristol BS34 8JH

Email: DES SEC-PolSec LE-JSC-WPNS@mod.uk

Our Reference: FOI2023/10361 Date: 30 August 2023

Dear

I am writing about your email of 26 August 2023, requesting the following information:

I purchased an ex-military Land Rover TUM HS 4x4 FFR (ERM – MX-92-AA) a couple of years ago and to get some history on the vehicle I recently requested a search of the MERLIN database by the RLC Archive who provided the following MERLIN excerpt:

The RLC Archive said that most of the information in MERLIN, however, has been redacted by the MoD and there also appears to be an anomaly with the vehicle's chassis number. The chassis number in the MERLIN system is SALLDBA67WA145419; but, the chassis plate on the vehicle is SALLDBA68WA145419. The NSN is also different – 2320998939966, see photo of chassis plate below:

I am therefore submitting this Freedom of Information (FoI) Request to hopefully clarify the chassis plate anomalies and provide available information on the vehicle's military:

- 1. Service/Deployment History
- 2. Maintenance History/Records

I am treating your correspondence as a request for information under the Freedom of Information Act 2000 (FOI Act).

A search for the information has now been completed within the Ministry of Defence (MOD), and I can confirm that information in scope of your request is held. The information identified relating to this vehicle is attached, as follows:

- Annex A Owner History
- Annex B Fault History (redacted)
- Annex C Inspection History
- Annex D Modification History (redacted)
- Annex E Servicing History

It has proved necessary to withhold some information in accordance with qualified exemptions of the FOI Act. Some of the commercially sensitive information in the Fault and Modification Histories (Annexes B and D) relates to contractor repair times, which have been withheld under qualified exemption Section 43(2) (Commercial Interests). Section 43 Defence Equipment & Support

concerns information which if disclosed would or would likely prejudice the commercial interests of any person (including defence contractors and the public authority holding it).

As the exemption is qualified, it was necessary to undertake a Public Interest Test to determine whether the balance for withholding the information outweighs that for disclosure. General arguments in favour of release were that full disclosure would demonstrate the MOD's commitment to openness and transparency; and make the UK Government more accountable to the electorate. The FOI Act also contains a presumption for release. However, reporting the time taken by MOD contractors to rectify fault reports could be used, along with already published contractor information, to reveal market sensitive information, such as hourly labour rates, that would likely allow the company's competitors to exploit when bidding for similar work.

Given the arguments described above, on balance, it was determined that the information should be withheld under Section 43(2) (Commercial Interests). The level of prejudice against release of this exempted information has been set at the higher level of "would" rather than "would be likely to".

You may wish to note that when the Management of Equipment, Resources, and Liabilities Information Network (MERLIN) database was archived into its current format some data may have been lost or corrupted. You should therefore be cautious that some of the owner history data may be inaccurate.

I can advise that no other information on this vehicle is held.

Under Section 16 (Advice and Assistance) I can confirm that the information on MX92AA that was released as part of the response to FOI2018/08332 did not include the unit owner history as the vehicle was still in service with the MOD at that point in time. You can view the published response to FOI2018/08332 here:

https://www.gov.uk/government/publications/foi-responses-published-by-mod-week-commencing-09-july-2018. The information on MX92AA can be found at row 206965 in the spreadsheet named Merlin 2.0 attachment 1.

I can also confirm that the chassis number for MX92AA recorded on MERLIN appears to be in error. The 9th character of the chassis number corresponds to the type of gearbox fitted to the vehicle; a 7 corresponds to a 5-speed manual right hand drive gearbox, while an 8 corresponds to a 5-speed manual left hand drive gearbox.

The NATO Stock Number (NSN) for the vehicle recorded on the chassis plate for which you have provided a photograph, 2320-99-893-9966, corresponds to the original build standard of the vehicle, which had the associated asset code description TRUCK UTY MED (TUM HS) 4X4 GS SOFT TOP LHD LANDROVER 2.5LTR TURBO DSL (WITH EEGR). The NSN recorded on MERLIN for MX92AA, 2320-99-908-6916, has an asset code description of TRUCK UTY MED (HS) 4X4 FFR HARD TOP LHD LAND ROVER 2.5LTR TURBO DSL W/EEGR BOWMAN BF LAS. This reflects the vehicle having been modified to accept a BOWMAN communications fit at some point after entering service with the MOD.

If you have any queries regarding the content of this letter, please contact this office in the first instance. If you wish to complain about the handling of your request, or the content of this response, you can request an independent internal review by contacting the Information Rights Compliance team, Ground Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.gov.uk). Please note that any request for an internal review should be made within 40 working days of the date of this response.

If you remain dissatisfied following an internal review, you may raise your complaint directly to the Information Commissioner under the provisions of Section 50 of the Freedom of Defence Equipment & Support

Information Act. Please note that the Information Commissioner will not normally investigate your case until the MOD internal review process has been completed. The Information Commissioner can be contacted at: Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website at https://ico.org.uk/.

Yours sincerely,

DE&S Policy Secretariat
