EXPORT OF HATCHING CHICKEN EGGS FROM INDIVIDUAL ESTABLISHMENT/S IN PREVIOUSLY
APPROVED HPAI-FREE COMPARTMENT TO SOUTH AFRICA

SUPPORT HEALTH CERTIFICATE

I. Name and address of Official Veterinarian to whom this certificate
must be returned as soon as possible:

II. Name and address of exporter:

III. Address of flock of origin:

IV. Date of Export:

V. Health Information

I, the undersigned, certify that the birds comprising the flock of
origin meet the following requirements:

- a) the flocks of origin have been free from clinical signs of infectious
or contagious diseases during the past 12 months;
- b) The flock(s) of origin at paragraph III have been subject to monthly
testing of a minimum of 29 birds per epidemiological unit for highly
pathogenic avian influenza and all avian influenza of H5 and H7
subtypes with negative results in each case. Testing has been
completed within 21 days of export;
- c) the flock(s) of origin have not been vaccinated against **avian
influenza**;
- d) **Marek's** disease has not caused a mortality rate higher than 2% in the
flock(s) of origin during the past 12 months;

e) the flock(s) of origin have been vaccinated for **Marek's** disease as follows:

Date	Vaccine (Name)	Manufacturer

- f) there has been no evidence, based on clinical and pathological observations, laboratory investigations and other examinations, of the following diseases in the flock(s) of origin during the past 12 months: **infectious laryngotracheitis, egg drop syndrome, fowl cholera, avian vibriotic hepatitis, avian lymphoid leucosis;**
- g) the flock(s) of origin are subject to regular microbiological sampling for **Salmonella pullorum, S.gallinarum and S.enteritidis**, the samples being taken at intervals not greater than 28 days from the flocks' environment and cultured in a government approved laboratory, with negative results in each case during the past 6 months;
- h) on _____ (date), being no later than 4 weeks prior to the onset of egg production, the flock(s) of origin were vaccinated for **avian encephalomyelitis** using the following vaccine approved by the veterinary competent authority of the country of origin and according to the manufacturer's instructions:
 name of vaccine:
 name of manufacturer:
- j) the flock(s) of origin are members of a Government supervised Poultry Health Scheme, and are considered free of **Mycoplasma gallisepticum** on the basis of regular routine serological testing carried out as a condition of the Scheme, with negative results in each case;
- k) the flock(s) of origin are subject to regular serological testing for **Mycoplasma synoviae**, in which a random sample of the flock is tested at intervals of not more than 6 weeks, the latest test being within 4 weeks of the intended date of export, with a negative result for each flock of origin in each case during the past 6 months;
- l) there has been no evidence of **infectious bronchitis** in the flock(s) of origin since 3 weeks prior to the collection of the eggs;
- m) there has been no evidence of **infectious bursal disease** in the flock(s) of origin since 3 weeks prior to the collection of the eggs.

V. This certificate is valid for 10 days.
