

CIVIL / STRUCTURAL DESIGN RISK MANAGEMENT

Abnormal or unusual residual risks associated with the design outcomes shown on this drawing are:-

RSK LDE LTD has followed its Design Risk Management process for Hazard Elimination and Risk reduction in developing the design shown on this drawing. Abnormal or unusual residual risks may be shown above where it is considered that such risk may not normally be expected by competent persons engaged on work of this nature or type.

- Notes:**
- This drawing is to be read in conjunction with all relevant Architects and Engineers drawings and specifications.
 - All levels quoted are in metres A.O.D.
 - All Finished Floor Levels stated are indicative and will be subject to detailed review as part of the audit for Building Regulation Part M compliance. In this respect the levels shown may deviate by +/- 200mm.
 - For the Site Drainage Layout refer to Drawing No 0022 - 0024
 - All road gullies shall be located away from proposed entrances to houses.
 - Kerb upstands to footway adjacent to road pavements to be typically 125mm.
