

## EXPORT OF LIVE SHEEP TO THE ISLAND OF TRISTAN DA CUNHA

### NOTES FOR GUIDANCE FOR OFFICIAL VETERINARIANS AND EXPORTERS

#### IMPORTANT

These notes provide guidance to Official Veterinarians (OV's) and exporters and should have been issued to you together with export certificate 8040EHC. These Notes for Guidance (NFG) are not intended to operate as a standalone document but in conjunction with certificate 8040EHC.

Exporters are strongly advised to verify the requirements of the importing country by contacting the veterinary authorities, or their representatives in the UK, in advance of each consignment.

#### 1. Scope of the Certificate

Export health certificate 8040EHC may be used for the export of live sheep from the United Kingdom to Tristan da Cunha

#### 2. Certification by an Official Veterinarian (OV)

This certificate may be signed by an OV appointed by the Department for Environment, Food and Rural Affairs, the Scottish Government, Welsh Government or the Department of Agriculture, Environment and Rural Affairs (DAERA) Northern Ireland, who is on the appropriate panel for export purposes or who holds the appropriate Official Controls Qualification (Veterinary) (OCQ(V)) authorisation.

OVs must sign and stamp the health certificate with the OV stamp in any ink colour **OTHER THAN BLACK**.

#### **Certified Copy Requirements – England, Wales and Scotland**

Guidance concerning return of certified copies of EHCs has changed and only specific certified copies are required to be returned to the APHA. Certifying OVs must return a certified copy of EHCs only for the following EHC types:

- if the exported commodity is cattle, pigs, sheep, goats or camelids;
- if the certificate was applied for manually and the application documents have been emailed to APHA and not applied for via the Exports Health Certificates Online (EHCO) system.

Certified copies should be emailed on the day of signature to the Centre for International Trade Carlisle (CITC) at the following address: [certifiedcopies@apha.gov.uk](mailto:certifiedcopies@apha.gov.uk).

For certificates that have been issued to the Certifying OV via the EHCO system, the Certifying OV must complete the certifier portal with the status of the certificate and the date of signature.

A copy of all EHCs and supporting documentation certified must be retained for two years.

Certifying OVs are not required to return certified copies of other EHCs issued, however CITC may request certified copies

of EHCs and supporting documentation in order to complete Quality Assurance checks or if an issue arises with the consignment after certification.

**DAERA Export Health Certificates: Provision of certified copies**

aPVPs certifying DECOL produced Export Health Certificates must return a legible, scanned copy of the final EHC to the relevant DAERA Processing Office within 1 working day of signing.

Good quality photographic copies will be accepted by the department, where obtaining a scanned copy is not feasible - for example, where 'on site' certification is undertaken and scanning facilities are not available.

For record purposes, a copy of the final Export Health Certificate and associated Support documents should be retained by the aPVP for a period of 2 years from the date of certification.

**3. Obtaining an import permit**

The exporter/agent should be aware of the requirements of the importing country particularly with respect to the requirement for an import permit. The import permit number should be given in the health certificate at paragraph III c).

**4. Notifiable disease clearance (form 618NDC)**

Paragraphs IV c) and d) refer: OVs may certify paragraphs IV c) and (d) on behalf of the Department provided written authority to do so has been obtained on form 618NDC from the APHA Centre for International Trade, Carlisle or the issuing office of DAERA in Northern Ireland.

**5. Scrapie.**

Paragraph IV e) (x) refers. If necessary, details of the holdings of residence and origin of the sheep to be exported must be submitted to the local APHA office so that it can arrange for the Scrapie Database to be checked to confirm the position.

**6. Additional Support Assurances required to enable certain paragraphs to be signed by the Official Veterinarian.**

Paragraph IV e), f), g), h), j) and k) refer. OVs may certify these paragraphs based on personal knowledge of the holding, or supporting documentation from the owner of the holding / owner exporter of the animals, including a signed declaration. If further guidance is required, CIT / DAERA should be contacted.

**7. Laboratory tests**

The OV must ensure that any laboratory carrying out pre-export testing is officially approved for this purpose by Defra or DAERA.

In Great Britain (England, Wales and Scotland), the majority of pre-export testing is carried out at the APHA Laboratory, New Haw, Weybridge, Addlestone, Surrey, KT15 3NB, (Tel: 01932

341111). Some tests are carried out at APHA Lasswade, Pentlands Science Park, Bush Loan, Penicuik, Midlothian, EH26 0PZ, (Tel: 0131 445 6169). Certain specialist tests are carried out at regional APHA laboratories.

In Northern Ireland, the majority of pre-export testing is carried out at the Veterinary Sciences Division (VSD) Laboratory, Stormont, Belfast, BT4 3SD (tel: 028 9052 0011).

For operational reasons however, the laboratories involved may change periodically. Accordingly, the OV is advised to check with the APHA or VSD to determine to which laboratories samples should be sent for testing. Samples should always be sent to the laboratory concerned sufficiently in advance of the export date to enable the tests to be carried out and reported. If in doubt as to the procedures for collection, the requirement for transport medium if any, dispatch of samples and the length of time a test is likely to take, the OV should seek the advice of the relevant laboratory.

**Para IV n) refers. The original laboratory reports must be attached to the certificate.**

**8. Disclaimer**

This certificate is provided on the basis of information available at the time, and may not necessarily comply fully with the requirements of the importing country. It is the exporter's responsibility to check the certificate against any relevant import permit or any advice provided by the competent authority in the importing country. If these do not match, the exporter should contact the APHA Centre for International Trade, Carlisle or DAERA, via the link or e-mail address below:
