1.	that	declaration has been received from the exporter of the	
	consi	ment described on the attached certificate NO:	
	stati		
	a)	hat the products may lawfully be sold in the United Kingdom;	
	<b>*</b> b)	that the products are fit for human consumption.	

2. the United Kingdom has a comprehensive programme in place to monitor radioactivity in food and the environment. The results demonstrates that even the most exposed members of the UK public received radiation doses from consumption of local food and exposure to environmental radioactivity (due to discharges and direct radiation) that were below the statutory EU annual dose limit to members of the public of 1 millisievert per year from artificially-produced

	radionuclides as set	in the	Council	Directive 96/29/Euratom of 13 May
	1996.
