## Part II. Certification

### Animal Health

I, the undersigned official veterinarian, hereby certify, that the meat product, treated stomachs, bladders and intestines described in Part I of this certificate:

#### AH/P100 Product requirements

- (\*) **EITHER** [consists of meat and/or meat products derived from a single species and has undergone the treatment satisfying the relevant conditions;]
- (\*) **AND/OR** [consists of meat of more than one species and, after such meat has been mixed, the entire product has subsequently undergone a treatment at least as severe as that required for the meat components of the meat product;]
- (\*) **AND/OR** [has been prepared from meat of more than one species and each meat component has previously undergone a treatment prior to mixing which meets the relevant treatment requirements for meat of that species;]

II.a. Certificate reference no.	II.b.
---------------------------------	-------

### AH/P301 Product requirements

contains the following meat constituents and meets the criteria indicated below:

Species (A)	Treatment (B)	Origin (C)

#### (\*)**AH/P400 Product requirements**

has been prepared from fresh meat from domestic bovine animals; domestic sheep and goats; domestic equine animals; domestic porcine animals; farmed non-domestic animals other than suidae and solipeds; wild non-domestic animals other than suidae and solipeds; wild non-domestic suidae; wild non-domestic solipeds and the fresh meat used in the production of the meat products:

(\*) **EITHER** [has undergone a non-specific treatment and:

(\*) **EITHER** [satisfies the relevant GB animal and public health requirements and originates in a third country, or part thereof in the case of regionalisation under retained EU law;]

(\*) **AND/OR** [originates in Great Britain;]

(\*) **AND/OR** [has undergone the required specific treatment for the species concerned, is derived from animals coming from a holding not subject to restrictions for the specific diseases mentioned in the appropriate health certificate(s) and within a 10 km radius of which no outbreaks of such diseases have occurred in the last 30 days;]

#### (\*)**AH/P420 Product requirements (domestic poultry)**

contains fresh meat of domestic poultry, including farmed or wild game birds, that:

(\*) **EITHER** [has undergone a non-specific treatment and:

(\*) **EITHER** [satisfies the animal health requirements laid down in the health certificate for the import of fresh meat of domestic poultry into GB (GBHC330);]

(\*) **AND/OR** [originates in Great Britain satisfying the requirements of Article 3 of Directive 2002/99/EC;]

(\*) **AND/OR** [originates in a listed third country for 'poultry and poultry products', comes from holdings or in the case of wild game-birds killed in territories where within a 10 km radius, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of highly pathogenic avian influenza or Newcastle disease for at least the previous 30 days and has undergone the specific treatment laid down for the third country of origin or part thereof for the meat of the species concerned set out in Tables 2 or 3, as appropriate, in a document relating to 'meat products' as published on GOV.UK, in accordance with Decision 2007/777/EC;]

(\*) **AND/OR** [originates in a listed third country for 'poultry and poultry products', comes from holdings or in the case of wild game-birds killed in territories where within a 10 km radius, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of highly pathogenic avian influenza or Newcastle disease for at least the previous 30 days and has undergone the specific treatment referred to in points B, C or D in a document relating to 'meat products' as published on GOV.UK, in accordance with Decision 2007/777/EC provided that such treatment is more severe than that indicated in Tables 2 and 3 of that document;]

(\*) **AND/OR** [has undergone the specific treatment referred to in points B, C or D in a document relating to 'meat products' published on GOV.UK, laid down for the third country of origin or part thereof for the meat of the species concerned in Tables 2 or 3, as appropriate, of that document and:

<b>II.a. Certificate reference no.</b>	<b>II.b.</b>
--	--------------

(\*) **EITHER** [originates in Great Britain satisfying the requirements of Article 3 of Directive 2002/99/EC;]

(\*) **AND/OR** [[originates in a third country listed in a document relating to 'poultry and poultry products' published on GOV.UK for the import into Great Britain of meat of poultry and comes from holdings or in the case of wild game-birds killed in territories, where within a 10km radius, including where appropriate the territory of a neighbouring country, there has been no outbreak of highly pathogenic avian influenza or Newcastle disease for at least the previous 30 days;]]

(\*) **[AH/P440 Product requirements (lagomorphs and other land mammals)**

is derived from fresh meat from lagomorphs and other land mammals that satisfies the relevant GB animal health and public health requirements and has come from a holding not subject to restrictions for animal diseases affecting the animals concerned within a 10 km radius of which no outbreaks of such diseases have occurred in the last 30 days;]

**AH/P604 Product requirements**

has been handled such that after treatment all precautions to avoid contamination have been taken;

(\*) **[AH/P605 Product requirements**

contains only poultry meat that was derived from poultry which had not been vaccinated with a live vaccine against Newcastle disease within 30 days prior to slaughter;]

**Public Health**

I, the undersigned, declare that I am aware of the relevant requirements of the GB Regulations, and certify that the meat products, treated stomachs, bladders and intestines described in Part I of this certificate were produced in accordance with those provisions, in particular that:

**PH/E100A Establishment requirements**

the establishment(s) where the product(s) come(s) from operate(s) under the HACCP principles in accordance with GB regulations;

(\*) **[PH/P121 Production requirements (treated intestines)**

the treated stomachs, bladders and intestines have been produced in accordance with GB regulations;]

**PH/MK006 Marking requirements**

the products described in Part 1 have been marked in compliance with the GB regulations;

**PH/MB001A Microbiological criteria**

the product(s) described in Part I of this certificate satisfies (satisfy) the relevant microbiological criteria set in GB regulations;

**PH/RP001 Residue plans**

the guarantees provided by the residue monitoring plans submitted to GB by the country of origin are fulfilled, in accordance with GB regulations;

**PH/S001 Storage and transportation requirements**

the meat products have been loaded and transported in accordance with the relevant GB regulations;

**PH/MS003 Raw materials requirements**

the products described in Part 1 have been produced from raw material in accordance with GB regulations;

**PH/MS301 Labelling requirements**

the products described in Part 1 have a mark on the label denoting that they are made only from fresh meat from animals slaughtered in slaughterhouses approved for exporting to Great Britain or in slaughterhouses specially for delivery of meat for required treatment in compliance with GB regulations;

II.a. Certificate reference no.	II.b.
---------------------------------	-------

### PH/D003 Bovine spongiform encephalopathy (BSE)

(\*)[if containing material from bovine, ovine or caprine animals the following conditions must be met:

- (\*) **EITHER** (1) [the country or region is classified with a negligible BSE risk and;
- (a) the animals from which the products were derived passed ante and post-mortem inspections;
  - (b) the animals have been slaughtered in compliance with GB regulations in regards laceration of certain tissues after stunning;
  - (c) the product does not contain and is not derived from specified risk material in compliance with GB regulations;
  - (d) the product (\*)[does not contain and is not derived] or (\*)[is derived] from bovine, ovine or caprine mechanically separated meat and complies with GB regulations; and
- (\*)[(e) if the animals originate from a country or region classified with an undetermined BSE risk and:
- (i) they have not been fed with meat-and-bone meal or greaves, and
  - (ii) the product was produced and handled in compliance with GB regulations with regard to contamination with nervous and lymphatic tissues;]]

(\*) **AND/OR** (2) [the country or region is classified with a controlled BSE risk and;

    - (a) the animals from which the products were derived passed ante and post-mortem inspections;
    - (b) the animals have been slaughtered in compliance with GB regulations in regards laceration of certain tissues after stunning;
    - (c) the product does not contain and is not derived from specified risk material or mechanically separated meat in compliance with GB regulations; and

(\*)[(d) the intestines were sourced from a country or region with negligible BSE risk, and are derived from animals that were born, continuously reared and slaughtered in a country with negligible BSE risk and that passed ante and post-mortem inspections; and

    - (\*) **EITHER** (\*)[(i) if the intestines were sourced from a country where there have been BSE indigenous cases, the animals were born after the date from which the ban on the feeding of ruminants with meat-and-bone meal and greaves derived from ruminants has been enforced;]
    - (\*) **OR** (\*)[(ii) if the intestines were sourced from a country where there have been BSE indigenous cases, the meat products do not contain and are not derived from specified risk material in accordance with GB regulations;]]

(\*) **AND/OR** (3) [the country or region is classified with an undetermined BSE risk and;

    - (a) the animals from which the products were derived passed ante and post-mortem inspections;
    - (b) the animals were not fed meat-and-bone meal or greaves derived from ruminants;
    - (c) the animals have been slaughtered in compliance with GB regulations in regards laceration of certain tissues after stunning;
    - (d) the product does not contain and is not derived from specified risk material, nervous and lymphatic tissues exposed during the deboning process; or mechanically separated meat in compliance with GB regulations; and

II.a. Certificate reference no.	II.b.
---------------------------------	-------

(\*)[(e) the intestines were sourced from a country or region with negligible BSE risk, and are derived from animals that were born, continuously reared and slaughtered in a country with negligible BSE risk and that passed ante and post-mortem inspections, and

(\*) **EITHER** (\*)[(i) if the intestines were sourced from a country where there have been BSE indigenous cases, the animals were born after the date from which the ban on the feeding of ruminants with meat-and-bone meal and greaves derived from ruminants has been enforced;]

(\*) **OR** (\*)[(ii) if the intestines were sourced from a country where there have been BSE indigenous cases, the meat products do not contain and are not derived from specified risk material in accordance with GB regulations;]]

(\*)[if the product contains material from domestic solipeds, the following must be met:

(\*) **EITHER** [the meat was obtained from domestic solipeds slaughtered in a third country in compliance with GB regulations regarding:

- period of residence in the third country before slaughter;
- administration of certain substances; and
- monitoring of certain residues and substances;]

(\*) **AND/OR** [the meat of domestic solipeds used in the products was imported from Great Britain;]]

(\*) **[PH/D103 Trichinella requirements**

the meat products have been obtained from meat from domestic porcine animals which:

(\*) **EITHER** [has been subjected to examination by a digestion method with negative results]

(\*) **AND/OR** [has been subject to a freezing treatment];

(\*) **AND/OR** [is derived from domestic porcine animals either coming from a holding officially recognised as applying controlled housing conditions in accordance with GB regulations or not weaned and less than 5 weeks old;]]

(\*) **[PH/D104 Trichinella requirements**

the meat products have been obtained from horse meat or wild boar meat which meets the GB regulations in regards trichinella controls;]

(\*) Keep as appropriate.

**Official Veterinarian**

By signing this certificate, I certify that the requirements laid out above and in the accompanying notes for completion have been met.

### **Part III. Notes for completion**

These notes for completion must be read and understood by the certifying officer before signing the certificate. Notes are set out in sections that correspond to the sections in the certificate. By signing this certificate, certifiers are verifying that the consignment meets the requirements set out in the certificate and any relevant corresponding notes for completion.

These notes do not need to be printed as part of a paper certificate that accompanies the consignment or in any electronic copy of the certificate.

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018) and can be viewed on the UK legislation website (legislation.gov.uk).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

References to GB requirements refer to the requirement(s) of Great Britain as set out in the accompanying notes for completion.

### **Part I**

- Box reference I.8: Region (if appropriate) referred to in a document relating to 'meat products' as published on gov.uk, in accordance with Decision 2007/777/EC .<sup>(†)</sup>
- Box reference I.11: Place of origin: name and address of the dispatch establishment.
- Box reference I.15: Registration number (railway wagons or container and road vehicle), flight number (aircraft) or name (ship). Separate information is to be provided in the event of unloading and reloading.
- Box reference I.19: Use the appropriate Harmonised System (HS) code under the following headings: 02.10, 16.01, 16.02 and 05.04.
- Box reference I.23: Identification of container/Seal number: only where applicable.
- Box reference I.28: *Species*: select among species described in AH/P301(A);  
*Nature of commodity*: choose among the following: meat product, treated stomachs, bladders and intestines;  
*Abattoir*: approval number of any abattoir or game-handling establishment;  
*Cold store*: any storage facility;  
*Manufacturing plant*: approval number.

### **Part II**

#### **Animal Health**

##### **AH/P100 Product requirements**

Treatment is specified in a document relating to 'meat products' published on GOV.UK, in accordance with Decision 2007/777/EC.<sup>(†)</sup>

##### **AH/P301 Product requirements**

Meat products must be as laid down in point 7.1 of Annex 1 to Regulation (EC) No 853/2004 and treated stomachs, bladders and intestines that have undergone one of the treatments referred to in a document relating to 'meat products', 'poultry and poultry products' and 'fresh meat of ungulates' for EU countries and EFTA states in accordance with Decision 2007/777/EC.<sup>(†)</sup>

##### **For completion of the table:**

- (A)** Insert the code for the relevant species of meat product, treated stomachs, bladders and intestines where:
- BOV = domestic bovine animals (*Bos Taurus*, *Bison*, *Bubalus bubalis* and their crossbreds)

**Meat products for human consumption (MP-PROD)**  
**GBHC352**

- OVI = domestic sheep (*Ovis aries*) and goats (*Capra hircus*)
- EQI = domestic equine animals (*Equus caballus*, *Equus asinus* and their cross-breeds)
- POR = domestic porcine animals (*Sus scrofa*)
- RAB = domestic rabbits
- PFG = domestic poultry and farmed feathered game
- RUF = farmed non-domestic animals other than *suidae* and solipeds
- RUW = wild non-domestic animals other than *suidae* and solipeds
- SUW = wild non-domestic *suidae*
- EQW = wild non-domestic solipeds
- WLP = wild lagomorphs
- WGB = wild game birds

**(B)** Insert A, B, C, D, E or F for the required treatment as specified and defined in the document relating to 'meat products' referred to above.<sup>(†)</sup>

**(C)** Insert the ISO code of the country of origin and, in the case of regionalization by retained EU law for the relevant meat constituents, the region as indicated in Table 1 of the document relating to 'meat products' referred to above.<sup>(†)</sup>

#### **AH/P400 Product requirements**

The meat product, treated stomachs, bladders and intestines described must be prepared from fresh meat from domestic bovine animals (*Bos Taurus*, *Bison bison*, *Bubalus bubalis* and their crossbreeds); domestic sheep (*Ovis aries*) and goats (*Capra hircus*); domestic equine animals (*Equus caballus*, *Equus asinus* and their crossbreeds), domestic porcine animals (*Sus scrofa*); farmed non-domestic animals other than *suidae* and solipeds; wild non-domestic animals other than *suidae* and solipeds; wild non-domestic *suidae*; wild non-domestic solipeds.

List of third countries or part thereof in the case of regionalisation and reference to treatment needed can be found in the document related to "meat products" as published on GOV.UK, in accordance with Decision 2007/777/EC.<sup>(†)</sup>

A **non-specific** treatment is as specified and defined under point A in the document related to "meat products" as published on GOV.UK, in accordance with Decision 2007/777/EC.<sup>(†)</sup>

Relevant GB animal and public health requirements are laid down in the appropriate health certificate(s) in the form published by the appropriate authority from time to time and referred to in Regulation (EU) No 206/2010.

To certify the **specific treatment** requirement the product must meet any requirements agreed under Directive 2002/99/EC.

The required specific treatment is as laid down for the third country of origin or part thereof for the meat of the species concerned in the document related to "meat products" as published on GOV.UK, in accordance with Decision 2007/777/EC.<sup>(†)</sup>

The appropriate health certificate(s) are in the form published by the appropriate authority from time to time and referred to in Regulation (EU) No 206/2010.

#### **AH/P420 Product requirements (domestic poultry)**

List of third countries or part thereof in the case of regionalisation and reference to treatment needed can be found in the document related to "meat products" and 'poultry and poultry products' as published on GOV.UK, in accordance with Decision 2007/777/EC and Regulation (EC) No 798/2008.<sup>(†)</sup>

A non-specific treatment is as specified and defined under point A in this document.

Specific treatments are listed in descending order of severity in the document related to "meat products" as published on GOV.UK, in accordance with Decision 2007/777/EC.<sup>(†)</sup>

**Meat products for human consumption (MP-PROD)**  
**GBHC352**

**AH/P440 Product requirements (lagomorphs and other land mammals)**

Animal health and public health requirements laid down in Regulation (EC) No 119/2009.

**AH/P604 Product requirements**

No further notes for completion.

**AH/P605 Product requirements**

This is an additional guarantee which is required in the case of poultry meat products which have not undergone a specific treatment and are destined for Great Britain or regions thereof, the status of which have been established as Newcastle disease non-vaccinating in accordance with Article 15 of Directive 2009/158/EC.

**Public Health**

By signing this certificate, you, the undersigned, declare that you are aware of the relevant provisions of Regulations (EC) No 999/2001, (EC) No 178/2002, (EC) No 852/2004 and (EC) No 853/2004. and certify that the meat products, treated stomachs, bladders and intestines described in Part I of this certificate were produced in accordance with those requirements.

**PH/E100A Establishment requirements**

The establishment(s) where the product(s) come(s) from must operate under a programme based on the HACCP principles implemented in accordance with Article 5 of Regulation (EC) No 852/2004.

**PH/P121 Production requirements (treated intestines)**

This must be certified if the consignment consists of treated stomachs, bladders and intestines which must have been produced in accordance with Section XIII of Annex III to Regulation (EC) No 853/2004.

**PH/MK006 Marking requirements**

The meat products, treated stomachs, bladders and intestines have been marked with an identification mark in accordance with Section I of Annex II to Regulation (EC) No 853/2004.

**PH/MB001A Microbiological criteria**

The microbiological criteria set out in Regulation (EC) No 2073/2005 have been met.

**PH/RP001 Residue plans**

The country of origin listed in Part 1 must have a residue monitoring plan approved by GB, submitted in accordance with Directive 96/23/EC, providing guarantees on the residue status covering live animals and products thereof, and in particular Article 29.

A list of trading partners with approved residue plans can be found at:

[List of trading partners with approved residue monitoring control plans for products of animal origin](https://s3.eu-west-1.amazonaws.com/data.defra.gov.uk/Food/cert/RoW/Residue+Control+Plans.pdf)

(Available at: [https://s3.eu-west-](https://s3.eu-west-1.amazonaws.com/data.defra.gov.uk/Food/cert/RoW/Residue+Control+Plans.pdf)

[1.amazonaws.com/data.defra.gov.uk/Food/cert/RoW/Residue+Control+Plans.pdf](https://s3.eu-west-1.amazonaws.com/data.defra.gov.uk/Food/cert/RoW/Residue+Control+Plans.pdf))

**PH/S001 Storage and transportation requirements**

The requirements for loading and transport meet the hygiene requirements laid down in respect of export to Great Britain.

**PH/MS003 Raw materials requirements**

They have been produced from raw material which met the requirements of Sections I to VI of Annex III to Regulation (EC) No 853/2004.

**PH/MS301 Labelling requirements**

The label(s) affixed on the packaging of meat products described above bear(s) a mark to the effect that the meat products come wholly from fresh meat from animals slaughtered in slaughterhouses approved for exporting to Great Britain or, from animals slaughtered in a slaughterhouse specially for the delivery of meat for the required treatment as laid down in Tables 2 and 3 of a document relating to 'meat products' as published on GOV.UK, in accordance with Decision 2007/777/EC. <sup>(†)</sup>

**PH/D003 Bovine spongiform encephalopathy (BSE)**

Meat products as laid down in point 7.1 of Annex 1 to Regulation (EC) No 853/2004 and treated stomachs, bladders and intestines that have undergone one of the treatments referred to in a document relating to 'meat products', 'poultry and poultry products' and 'fresh meat of ungulates' for EU countries and EFTA states in accordance with Decision 2007/777/EC and published by the Secretary of State, with the consent of the Scottish and Welsh Ministers. <sup>(†)</sup>

The following must be certified if the meat products and/or the treated intestines contain material from bovine, ovine or caprine animals, depending on the BSE category of the country of origin:

- (1)** This must be certified when the country or region of dispatch is classified as a country or region posing a negligible BSE risk in a document relating to 'BSE risk status' published on GOV.UK, in accordance with Regulation (EC) 999/2001. <sup>(‡)</sup>
- (a)** The animals, from which the fresh meat and/or intestines used in the preparation of the meat products and/or treated intestines of bovine, ovine and caprine origin were derived, have passed ante-mortem and post-mortem inspections.
- (b)** The animals, from which meat and/or intestines to produce the meat products and/or treated intestines were derived were not slaughtered after stunning by means of gas injected into the cranial cavity or killed by the same method or slaughtered by laceration after stunning of central nervous tissue by means of an elongated rod-shaped instrument introduced into the cranial cavity.
- Or if they were slaughtered after stunning by means of gas injected into the cranial cavity or killed by the same method or slaughtered by laceration after stunning of central nervous tissue by means of an elongated rod-shaped instrument introduced into the cranial cavity, they were born, continuously reared and slaughtered in a country or region classified as posing a negligible BSE risk in a document relating to 'BSE risk status' published on GOV.UK, in accordance with Regulation (EC) No 999/2001. <sup>(‡)</sup>
- (c)** The meat products of bovine, ovine and/or caprine origin do not contain and are not derived from specified risk material as defined in point 1 of Annex V to Regulation (EC) No 999/2001.
- (d)** If the meat products contain or are derived from mechanically separated meat (MSM) obtained from bones of bovine, ovine and/or caprine animals, they have been obtained from animals of those species which were born, continuously reared and slaughtered in a country or region classified as posing a negligible BSE risk in a document relating to 'BSE risk status' published on GOV.UK <sup>(‡)</sup>, in accordance with Regulation (EC) No 999/2001, and in which there have been no BSE indigenous cases.
- If the above conditions are not met, then the meat products must not contain or be derived from MSM from those species.
- (e)** This attestation is applicable when condition (i) below in relation to bovine, ovine and/or caprine animals is met. In that case conditions (ii) and (iii) must also be met:
- (i)** the animals, from which the meat products and/or treated intestines is derived, originate from a country or region classified as posing an undetermined BSE risk in a document relating to "BSE risk status" published on GOV.UK <sup>(‡)</sup>, in accordance with Regulation (EC) No 999/2001;
- (ii)** the animals, from which the meat products and/or treated intestines is derived, have not been fed with meat-and-bone meal or greaves, as defined in the Terrestrial Animal Health Code of the World Organisation for Animal Health;
- (iii)** the meat products were produced and handled in a manner which ensures that they do not contain and were not contaminated with nervous and lymphatic tissues exposed during the deboning process.
- (2)** This must be certified when the country or region of dispatch is classified as posing a controlled BSE risk as set out in a document relating to 'BSE risk status' published on GOV.UK, in accordance with Regulation (EC) No 999/2001. <sup>(‡)</sup>

**Meat products for human consumption (MP-PROD)**  
**GBHC352**

- (a) The animals, from which the fresh meat and intestines used in the preparation of the meat products and/or treated intestines of bovine, ovine and caprine origin was derived, have passed ante-mortem and post-mortem inspections.
- (b) The animals from which the meat and intestines used in the preparation of meat products and/or treated intestines of bovine, ovine or caprine origin were derived were not slaughtered after stunning by means of an elongated rod-shaped instrument introduced into the cranial cavity or by means of gas injected into the cranial cavity.
- (c) The meat products of bovine, ovine and/or caprine origin do not contain and are not derived from specified risk material as defined in point 1 of Annex V to Regulation (EC) No 999/2001, or mechanically separated meat obtained from bones of bovine, ovine and caprine animals.
- (d) The following only applies to imports of treated intestines and must be certified when the intestines of bovine, ovine and caprine animal origin used to produce the treated intestines were originally sourced from a country or a region with a negligible BSE risk:
- the animals from which the intestines were derived were born, continuously reared and slaughtered in a country or region with a negligible BSE risk and have passed ante mortem and post mortem inspections; and
  - for intestines sourced from a country or region where there have been BSE indigenous cases:  
**EITHER** the animals were born after the date from which the ban on the feeding of ruminants with meat-and-bone meal and greaves derived from ruminants has been enforced;  
**OR** the meat products do not contain and are not derived from specified risk material as defined in point 1 of Annex V to Regulation (EC) No 999/2001.
- (3) The country or region of dispatch has not been classified, or is classified as a country or region with an undetermined BSE risk, in a document relating to 'BSE risk status' published on GOV.UK, in accordance with Regulation (EC) No 999/2001.<sup>(4)</sup>
- (a) The animals, from which the fresh meat used in the preparation of the meat products and/or treated intestines of bovine, ovine and caprine origin was derived, have passed ante-mortem and post-mortem inspections.
- (b) The animals from which the meat products and/or treated intestines are derived were not fed meat-and-bone meal or greaves derived from ruminants, as defined in the Terrestrial Animal Health Code of the World Organisation for Animal Health.
- (c) The animals, from which the meat products and/or treated intestines were derived were not slaughtered after stunning by means of an elongated rod-shaped instrument introduced into the cranial cavity or by means of gas injected into the cranial cavity.
- (d) The meat products of bovine, ovine and caprine origin do not contain and are not derived from: specified risk material as defined in point 1 of Annex V to Regulation (EC) No 999/2001; nervous and lymphatic tissues exposed during the deboning process; or mechanically separated meat obtained from bones of bovine, ovine and caprine animals.
- (e) The following only applies to imports of treated intestines and must be certified when the intestines of bovine, ovine and caprine animal origin used to produce the treated intestines were originally sourced from a country or a region with a negligible BSE risk:
- the animals from which the intestines were derived were born, continuously reared and slaughtered in a country or region with a negligible BSE risk and have passed ante mortem and post mortem inspections; and
  - for intestines sourced from a country or region where there have been BSE indigenous cases:  
**EITHER** the animals were born after the date from which the ban on the feeding of ruminants with meat-and-bone meal and greaves derived from ruminants has been enforced;

**OR** the meat products do not contain and are not derived from specified risk material as defined in point 1 of Annex V to Regulation (EC) No 999/2001.

### **Meat from domestic solipeds**

This must be certified where the fresh meat, stomachs, bladders or intestines used in the preparation of the meat products and/or treated stomachs, bladders and intestines, is/are derived from domestic solipeds, in which case:

- EITHER** was/were obtained from domestic equine animals which immediately prior to slaughter had been kept for at least six months or since birth if slaughtered at an age of less than six months, or since importation as food producing equidae from Great Britain, if imported less than six months prior to slaughter, in a third country:
- (a)** in which the administration to domestic equine animals:
    - (i)** of thyrostatic substances, stilbenes, stilbene derivatives, their salts and esters, oestradiol 17 $\beta$  and its ester-like derivatives is prohibited;
    - (ii)** of other substances having oestrogenic, androgenic or gestagenic action and of beta-agonists is only allowed for:
      - therapeutic treatment as defined in Article 1(2)(b) of Directive 96/22/EC, where applied in conformity with Article 4(2) of that Directive, or
      - zootechnical treatment as defined in Article 1(2)(c) of Directive 96/22/EC, where applied in conformity with Article 5 of that Directive; and
  - (b)** which has had, at least during the six months prior to slaughter of the animals, a plan for the monitoring of the groups of residues and substances referred to in Annex I to Directive 96/23/EC which covers equidae born in and imported into the third country and was approved in accordance with the fourth subparagraph of Article 29(1) of Directive 96/23/EC;

**AND/OR** was/were imported from Great Britain.

### **PH/D103 Trichinella requirements**

This must be certified if the meat products have been obtained from domestic porcine animals meat which:

- EITHER** the meat has been subject to an examination by a digestion method with negative results;
- AND/OR** has been subject to a cold treatment in accordance with Regulation (EC) 2015/1375;
- AND/OR** in the case of third countries with the entry 'K' in column 'SG' of the document relating to 'fresh meat of ungulates' published on GOV.UK, in accordance with Regulation (EU) No 206/2010, the meat is derived from domestic porcine animals either coming from a holding officially recognised as applying controlled housing conditions in accordance with Article 8 of Regulation (EC) 2015/1375, or not weaned and less than 5 weeks of age.

### **PH/D104 Trichinella requirements**

This must be certified if the meat products have been obtained from horse meat or wild boar meat which has been subject to an examination for trichinosis with negative results in accordance with Regulation (EC) 2015/1375.
