Importance: High

Both,

Can I ask politely ask what is taking so long with this application ?

We have confirmed answers to all of the questions that the EA have posed. It is unequivocally clear that the last hearing and the EA accept that there is an obligation to complete these works.

I cannot see what the hold up is. Matt, I appreciate that you are having to glean advice from a senior member of the team as detailed in your previous emails who poses all of these questions which we have answered many times over and in various different ways, all of which come back to the same thing. The last email detailed 2 key issues both of which have been addressed fully.

I appreciate that we are all busy with over bearing workloads but I would be very grateful if this could be prioritised to enable us to get on with the works. The credit crisis is coming quickly and we are at risk of further enforcement action so please please please can you approve this application to enable us to complete these works.

Kind regards,

Simon Nelson
