Afternoon Michael and Simon,

As requested, I am updating you on our progress today. This morning we have met with the Policy team who are in agreement that we cannot agree recovery at the moment. We do not intend to stop determination at this stage, and hope to resolve this with you.

To focus our assessment, I will be drafting a schedule 5 with specifics we need addressing. This will get reviewed by the Policy team before sending over to you. I will start immediately, but it may take some time to get approval from the Policy Team. I will keep you informed, and can only apologise for any delays.

Kind regards

Thanks Matt

Please let us know if there is anything else we can provide you for your deliberations.

As you can see we have been working on this for a number of years and after agreeing the volumes / final surface plan with the local authority and the EA agreeing with the Inspector in the second hearing that there was an obligation to complete the site, we thought that the WRP process would be a lot less drawn out.
