Subject: RE: Whitehouse Field - Additional Information Required

Importance: High

Matt,

Without sounding like a pendant.

I/we would really appreciate a response no later than the date Michael Jones of tetrattech has specified of 9th December, this matter is very straight forward now and there can be no more delays. The questions that you have posed within your schedule 5 notice have already been fully answered numerous times and confirmed and substantiated by various appeals, information and inspectorates decisions.

We cannot allow this process to continue infinitum & our next step is obviously to trigger the appeal process once again which we are keen to avoid.

When you were first assigned this application we were of the understanding that this was to streamline our application due to previous EA short comings within their procedural requirements, I am conscious that we have somewhat slowed down again and appear to be going over old ground.

Please confirm that the deadline of the 9th December can be met by yourselves, in order that we can finally complete the scheme and satisfy the planning conditions and local authority.

Kind regards,

Simon Nelson
