Matt

Please find attached a new NTS with the names changed to only feature Christopher Hall and secondly an email re Christopher Hall's technical competence certification. Please let me know if this is sufficient for your needs. As you can see Christopher was aware it needs updating over a month ago but Pearsons seem to be overbooked!

Regards

Michael Jones BSc, FGS, AMIEMA, MIAEG

Subject: Whitehouse Field - Application - Request for information.

Morning Michael,

I've completed my initial duly making checks for the application. Most of the application is suitable for duly making, but I notice that the Continuing Competency for Christopher Hall is going to be out of date this week. Given it is nearly expired, it is not likely he would have certification in place at time of issue (unless currently booked). In the Non-Technical Summary, there is mention of Simon Charman and Simon Nelson being the TCMs for the site. Please clarify who is intending to be the TCM and provide the relevant documents which are in date. If you prefer to use Christopher, there is an option to use the 12 month grace period available, as long as you meet the minimum requirements set out by WAMITAB. You can see further detail in the guidance note for from B1 (available [here](#)). If you would like to take advantage of this, please provide an updated Form B1 with relevant information and supporting documents.

Please provide clarification and all relevant documents within 10 working days (close-of-play 30th August). If this is not available by that time, we will have to return the application with a partial refund.
