

We have not served an enforcement notice yet but will be very shortly. What are your timescales and I can move to serve a notice accordingly?

Paul

Hi Paul

As you know Nelson has applied for an environmental permit for the site. It would be useful to us in helping to secure a refusal to have sight of the survey conducted. Are you able to please share that?

Also a lawyer in our Permitting Team has asked if you have taken any enforcement action against them. Were notices served?

For all the reasons discussed before I don't want Nelson to be successful, as I am convinced the application is bogus and if granted it would be abused. Your support in making a strong case for a refusal would be very useful.

Many thanks

Paul

The telecom on Friday is to discuss all aspects of the application in order to have a strong case for the refusal with regard to a likely challenge. Our time limit is 13 weeks from the date the application was duly made and we have two weeks left. Hence my requesting that information ahead of our information meeting.

When are you looking to determine/issue the permit?

Thanks Paul

I have a telecom with the Permitting Team and the lawyer on Friday.

Morning

I had put this to our lawyers a couple of weeks ago so I will chase today.
