

EXPORT OF CATS FROM UNITED KINGDOM TO PANAMA

NOTES FOR THE GUIDANCE OF THE OFFICIAL VETERINARIAN AND EXPORTER

1. Scope

This certificate may be used to accompany pet cats exported to Panama.

2. Identification

Paragraph **I.** refers. The identification schedule should be fully completed. Cats should be identified either by tattoo or microchip number or by a full description including coat colour and type, markings, weight, breed, sex and declared age.

3. Clinical examination

Paragraph **III. (a)** of the certificate refers. Examinations should be carried out within 48 hours prior to export.

4. Rabies vaccination

Paragraph **III. (b)** refers. The rabies vaccination should be carried out not less than 30 days and not more than 12 months prior to export.

In all cases, a copy of the vaccination certificate should be attached to 6502EHC.

5. Legalisation

Once the certificate is signed and stamped by the Official Veterinarian it must be legalised by The Legalisation Office.

For details on how to legalise your certificate, visit the link below:

<https://www.gov.uk/get-document-legalised>

6. Certified Copy Requirements - England, Wales and Scotland

Guidance concerning return of certified copies of EHCs has changed and only specific certified copies are required to be returned to the APHA. Certifying OVs must return a certified copy of EHCs only for the following EHC types:

- if the exported commodity is cattle, pigs, sheep, goats or camelids;
- if the certificate was applied for manually and the application documents have been emailed to APHA and not applied for via the Exports Health Certificates Online (EHCO) system.

Certified copies should be emailed on the day of signature to the Centre for International Trade Carlisle (CITC) at the following address: certifiedcopies@apha.gov.uk.

For certificates that have been issued to the Certifying OV via the EHCO system, the Certifying OV must complete the certifier portal with the status of the certificate and the date of signature.

A copy of all EHCs and supporting documentation certified must be

retained for two years.

Certifying OVs are not required to return certified copies of other EHCs issued, however CITC may request certified copies of EHCs and supporting documentation in order to complete Quality Assurance checks or if an issue arises with the consignment after certification.

DAERA Export Health Certificates: Provision of certified copies

aPVPs certifying DECOL produced Export Health Certificates must return a legible, scanned copy of the final EHC to the relevant DAERA Processing Office within 1 working day of signing.

Good quality photographic copies will be accepted by the department, where obtaining a scanned copy is not feasible - for example, where 'on site' certification is undertaken and scanning facilities are not available.

For record purposes, a copy of the final Export Health Certificate and associated Support documents should be retained by the aPVP for a period of 2 years from the date of certification.

The Department will carry out periodic audits of all aspects of export certification to ensure that a high standard of certification is being maintained.
