NOTES FOR THE GUIDANCE OF THE OFFICIAL VETERINARIAN AND EXPORTER

1 **IMPORTANT**

These notes provide guidance to Official Veterinarians (OV) and Exporters. The notes do not necessarily cover all the requirements Listed in the health certificate and therefore should have been issued to you together with export certificate 6478EHC. The NFG should not be read as a standalone document but in conjunction with certificate 6478EHC. We strongly suggest that exporters obtain full details of the importing country's requirements from the veterinary authorities in the country concerned, or their representatives in the UK, in advance of each consignment

2. **SCOPE OF THE CERTIFICATE**

Export health certificate 6478EHC may be used for the export of Mammals Excluding Lagomorphs, Artiodactyls, Perissodactyls (Equidae or Horses) and certain Marine Mammals, Dogs, Cats, Racoons, Foxes, Skunks and Primates from Great Britain to Japan.

3. **CERTIFICATION BY AN OFFICIAL VETERINARIAN (OV)**

This certificate may be signed by an OV appointed by the Department for Environment, Food and Rural Affairs, the Scottish Government, Welsh Government or the Department of Agriculture, Environment and Rural Affairs (DAERA) Northern Ireland, who is on the appropriate panel for export purposes or who holds the appropriate Official Controls Qualification (Veterinary) (OCQ(V)) authorisation.

OVs must sign and stamp the health certificate with the OV stamp in any ink colour **OTHER THAN BLACK**.

Certified Copy Requirements - England, Wales and Scotland

Guidance concerning return of certified copies of EHCs has changed and only specific certified copies are required to be returned to the APHA. Certifying OVs must return a certified copy of EHCs only for the following EHC types:

- if the exported commodity is cattle, pigs, sheep, goats or camelids;
- if the certificate was applied for manually and the application documents have been emailed to APHA and not applied for via the Exports Health Certificates Online (EHCO) system.

Certified copies should be emailed on the day of signature to the Centre for International Trade Carlisle (CITC) at the following address: certifiedcopies@apha.gov.uk.

For certificates that have been issued to the Certifying OV via the EHCO system, the Certifying OV must complete the certifier portal with the status of the certificate and the date of signature.

A copy of all EHCs and supporting documentation certified must be retained for two years.

Certifying OVs are not required to return certified copies of other EHCs issued, however CITC may request certified copies of EHCs and supporting documentation in order to complete Quality Assurance checks or if an issue arises with the consignment after certification.

DAERA Export Health Certificates: Provision of certified copies

aPVPs certifying DECOL produced Export Health Certificates must return a legible, scanned copy of the final EHC to the relevant DAERA Processing Office within 1 working day of signing.

Good quality photographic copies will be accepted by the department, where obtaining a scanned copy is not feasible - for example, where 'on site' certification is undertaken and scanning facilities are not available.

For record purposes, a copy of the final Export Health Certificate and associated Support documents should be retained by the aPVP for a period of 2 years from the date of certification.

The Department will carry out periodic audits of all aspects of export certification to ensure that a high standard of certification is being maintained.

4. NOTIFIABLE DISEASE CLEARANCE

OV's may certify paragraph IV(b) on behalf of the Department provided written authority to do so has been obtained on form 618NDC from the APHA Centre of International Trade in Carlisle or from the issuing office of DAERA in Northern Ireland.

5. RESIDENCE DECLARATION

Paragraph IV(b) refers. OVs should obtain a written declaration from the owner/exporter stating that the said animal has been resident in the United Kingdom for the last 6 months, or since birth. The declaration should not be attached to the certificate, but should be retained by the OV for record purposes.

6. DISCLAIMER

This certificate is provided on the basis of information available at the time, and may not necessarily comply fully with the requirements of the importing country. It is the exporter's responsibility to check the certificate against any relevant import permit or any advice provided by the competent authority in the importing country. If these do not match, the exporter should contact the APHA Centre for International Trade, Carlisle or DAERA, via the link or e-mail address below:

DAERA - Email: vs.implementation@daera-ni.gov.uk

7. **NOTIFICATION SYSTEM**

Upon arrival into Japan a written notification showing details of the animals such as their species, name and quantity, should be submitted to the destination quarantine station of the Ministry of Health, Labour and Welfare. The notification form should be accompanied by health certificate 6478EHC issued by Defra. A blank copy of a notification form and further information can be found at the following website:
<http://www.mhlw.go.jp/english/topics/importanimal/>

The quarantine station will issue a notification receipt to the consignee after a satisfactory inspection of all documents presented.

On completion of the inspection at the customs, concerning compliance with other regulations, the animals are authorised to enter Japan.

8. **WELFARE**

Exporters and transporters must comply with all the legislation for the welfare of live animals during transport. The welfare conditions required during transport, are set out in Council Regulation EC No 1/2005 (as retained), implemented in England by The Welfare of Animals (Transport) (England) Order 2006, with parallel legislation in Scotland and Wales.

If transported by air, animals should also be transported in accordance with International Air Transport Association (IATA) standards.

Information about welfare during transport in Great Britain and the necessary requirements can be obtained from the Animal and Plant Health Agency: Welfare in Transport Team
