

No:

**EXPORT TO GIBRALTAR OF FRESH MEAT AND MEAT PREPARATIONS, INCLUDING FRESH
POULTRY MEAT AND POULTRY MEAT PREPARATIONS**

NOTES FOR THE GUIDANCE OF THE OFFICIAL VETERINARIAN AND EXPORTER

Associated Documents: 1869EHC

IMPORTANT

These notes provide guidance to Official Veterinarians (OV) and exporters. The NFG should have been issued to you together with export certificate 1869EHC. The NFG should not be read as a standalone document but in conjunction with certificate 1869EHC. We strongly suggest that exporters obtain full details of the importing country's requirements from the veterinary authorities in the country concerned, or their representatives in the UK, in advance of each consignment.

1. SCOPE OF THE CERTIFICATE

Export health certificate **1869EHC** may be **used for** the export of *fresh meat and meat preparations*, including of poultry origin, from the United Kingdom to Gibraltar.

Meat **products**, including of poultry origin, **do not** require an export health certificate, even if the meat used to manufacture the product is imported into the UK from another EU Member State or a Third Country.

Fresh meat, meat preparations and meat products, including of poultry origin, which are directly destined to the consumer in Gibraltar and not for re-sale require no export health certification.

2. CERTIFICATION BY AN OFFICIAL VETERINARIAN (OV)

This certificate may be signed by an OV appointed by the Department for Environment, Food and Rural Affairs, the Scottish Government, Welsh Government or the Department of Agriculture, Environment and Rural Affairs (DAERA) Northern Ireland, who is on the appropriate panel for export purposes or who holds the appropriate Official Controls Qualification (Veterinary) (OCQ(V)) authorisation.

OVs must sign and stamp the health certificate with the OV stamp in any ink colour **OTHER THAN BLACK**.

Certified Copy Requirements - England, Wales and Scotland

Guidance concerning return of certified copies of EHCs has changed and only specific certified copies are required to be returned to the APHA. Certifying OVs must return a certified copy of EHCs only for the following EHC types:

- if the exported commodity is cattle, pigs, sheep, goats or camelids;
- if the certificate was applied for manually and the application documents have been emailed to APHA and not applied for via the Exports Health Certificates Online (EHCO) system.

Certified copies should be emailed on the day of signature to the Centre for International Trade Carlisle (CITC) at the following address: certifiedcopies@apha.gov.uk.

For certificates that have been issued to the Certifying OV via the 1869NFG (Cleared 22/05/2008) (Revised 30/10/2023)

EHCO system, the Certifying OV must complete the certifier portal with the status of the certificate and the date of signature.

A copy of all EHCs and supporting documentation certified must be retained for two years.

Certifying OVs are not required to return certified copies of other EHCs issued, however CITC may request certified copies of EHCs and supporting documentation in order to complete Quality Assurance checks or if an issue arises with the consignment after certification.

DAERA Export Health Certificates: Provision of certified copies

aPVPs certifying DECOL produced Export Health Certificates must return a legible, scanned copy of the final EHC to the relevant DAERA Processing Office within 1 working day of signing.

Good quality photographic copies will be accepted by the department, where obtaining a scanned copy is not feasible - for example, where 'on site' certification is undertaken and scanning facilities are not available.

For record purposes, a copy of the final Export Health Certificate and associated Support documents should be retained by the aPVP for a period of 2 years from the date of certification.

The Department will carry out periodic audits of all aspects of export certification to ensure that a high standard of certification is being maintained.

3. At II (b), details should reflect the establishment responsible for the final packaging of the products being certified for export.

General guidance only:

For meat preparations, this would normally be the processing plant at which the oval mark appearing on the packaging is/was applied, or it would be the cutting plant for fresh meat.

4. Paragraph IV can be certified on the basis of oval marks which demonstrate compliance with EU Regulations (EC) 853/2004 and 854/2004, and Transitional Arrangements under which stocks produced in accordance with Council Directives 64/433/EEC, 71/118/EEC, 77/99/EEC, and 94/65/EEC as applicable can be traded until 31/12/2009.

5. DISCLAIMER

This certificate is provided on the basis of information available at the time, and may not necessarily comply fully with the requirements of the importing country. It is the exporter's responsibility to check the certificate against any relevant import permit or any advice provided by the competent authority in the importing country. If these do not match, the exporter should contact the APHA Centre for International Trade, Carlisle or DAERA, via the link or e-mail address below:
