Foreword

On behalf of the South Wales Local Resilience Forum, may we take this opportunity to introduce you the latest version of the Community Risk Register.

The need for the register came about after the introduction of the Civil Contingencies Act in 2004. This said that emergency responders must assess the risk of emergencies happening, to use those assessments to help plan for those emergencies and to prepare business continuity plans, so that they can continue to provide a response.

The register, compiled by Resilience Forum partners, provides a list of potential risks (non-malicious), the likelihood of them occurring in a one-year timeframe (but valid for two years) and their overall rating. The fact that we have included a particular risk does not mean that we believe that this risk will definitely happen, or if it did, it would be at that scale.

The register only covers natural or accidental events (non-malicious) rather than the deliberate acts (malicious). This does not mean we do not consider malicious risks within our risk assessment work, but as the information supporting them could be sensitive, specific details are not made available.

You can be assured, however, that we are focussed on preparing for the consequences of any emergency regardless of cause. Plans attempt to set out generic capabilities that can be used in any emergency situation; and we are actively engaged in a continued programme of planning, training and exercising to mitigate the common and unique consequences of malicious and non-malicious risks.

The South Wales Local Resilience Forum will ensure that the register is reviewed regularly and updated. Efforts will continue to ensure that any multi-agency response is as coordinated and timely as possible, and that the primary objectives of saving life and reducing harm can be achieved.

For any questions you may have on the content of the Community Risk Register, please get in touch via our website at www.southwaleslrf.co.uk; by emailing swlrf@valeofglamorgan.gov.uk or by telephoning (02920) 673032.

Chair of South Wales Local Resilience Forum

1.0 Record of Changes

Version	Issue Date	Purpose / Changes
1.0	01/04/2005	Community Risk Register completed by the SWLRF Risk Group.
2.0	01/04/2006	Community Risk Register completed by the SWLRF Risk Group.
3.0	01/04/2007	Community Risk Register completed by the SWLRF Risk Group.
4.0	01/01/2008	Updated contact details completed by the SWLRF Risk Group.
4.1	01/04/2008	Updated relevant risk assessments completed by the SWLRF Risk Group.
5.0	01/04/2010	Review of all the assessments and register completed by the SWLRF Risk Group.
5.1	01/06/2010	Known specific sites added completed by the SWLRF Risk Group.
5.2	01/07/2010	Review assessments & lead organisations completed by the SWLRF Risk Group.
6.0	01/06/2012	Community Risk Register completed by the SWLRF Risk Group.
7.0	01/04/2014	Community Risk Register completed by the SWLRF Risk Group.
8.0	01/09/2015	Community Risk Register completed by the SWLRF Risk Group.
9.0	22/09/2017	Community Risk Register completed by the SWLRF Risk Group.
10.0	20/04/2018	Community Risk Register completed by the SWLRF Risk Group.
11.0	04/03/2019	Community Risk Register completed by the SWLRF Risk Group.
12.0	10/02/2020	Executive agreement reached to extend use of 2019/20 Community Risk Register until the new National Security Risk Assessment can be fully reviewed and adopted across Wales by all Local Resilience Fora.
13.0	2021/2022	Executive agreement reached to extend use of 2019/20 Community Risk Register until the new National Security Risk Assessment can be fully reviewed and adopted across Wales by all Local Resilience Fora.
14.0	04/04/2022	Community Risk Register completed by the SWLRF Risk Group.

2.0 Introduction

Civil Contingencies Act 2004

2.1 The Civil Contingencies Act 2004 (CCA)¹ places a legal duty on Category 1 responders to produce a Community Risk Register (CRR). Section 2, sub-section 1 of the Act requires Category 1 responders.

‘... from time to time assess the risk of an emergency occurring ...’ and ‘... from time to time assess the risk of an emergency making it necessary or expedient for the person or body to perform any of its functions’.

2.2 This should be linked to individual Category 1 responders’ processes of adding to (or modifying) their own individual plans.

2.3 In the event of an emergency, the Act requires Category 1 responders to activate an emergency plan. Before the activation of such a plan is necessary, two tests should be carried out:-

- Where the emergency would be likely to seriously obstruct its ability to perform its functions.

And;

- Where the Category 1 responder considers it necessary or desirable to act to prevent, reduce, control, or mitigate the emergency’s effects, or otherwise take action and would be unable to act without changing the deployment of its resources or acquiring additional resources.

2.4 This clearly implies that only serious emergencies (See Annex D) need form part of the risk assessment process. The risk assessment process required need not cover large pre-planned events, as a risk assessment should form part of the planning stage.

2.5 Detailed guidance on the risk assessment process can be found within Chapter 4 (and its annexes) of the *Emergency Preparedness*² guidance document which has been published by HM Government.

2.6 The guidance states that the risk assessment process is the first step in the emergency planning procedure in order to identify the risks applicable to the Local Resilience Forum area and then plan according to the priorities identified.

South Wales Local Resilience Forum

2.7 The South Wales Local Resilience Forum (SWLRF) includes representatives of Category 1 and Category 2 responders³ within the SWLRF area (see Annexes E & F). It also includes representatives from agencies that are not included in the Civil Contingencies Act 2004 but are considered essential local planning partners.

¹ http://www.opsi.gov.uk/acts/acts2004/en/ukpgaen_20040036_en_1

² <https://www.gov.uk/government/publications/emergency-preparedness>

³ As defined by Schedule 1 of the Civil Contingencies Act 2004

Risk Group

- 2.8 The SWLRF formed a Risk Group to develop and maintain this CRR and the Group's first meeting was held in May 2005 (See Annex G).
- 2.9 On publication (by the Civil Contingencies Secretariat of the Cabinet Office) of the 2005 Local Risk Assessment Guidance - now known as the Local Risk Management Guidance (LRMG), the Risk Assessment Working Group considered the identified risks within the guidance and made a judgement of their credibility for the SWLRF area.
- 2.10 The Group also identified further risks pertinent to the SWLRF area and included them in the risk assessment process. As subsequent publications of the LRMG are circulated, the risks are assessed at the SWLRF area and this risk register reviewed accordingly.

Risk Assessment

- 2.11 In relation to Section 03 of this CRR, the inclusion of the risk or the particular scenario (i.e. the outcome description) does not mean that the SWLRF believes the risk will materialise, or that if it were to do so that it would be at that scale. The risk scenarios are rather reasonable worst-case assumptions upon which the risk assessments are based.
- 2.12 The likelihood assessments relate to the risk occurring in a one-year timeframe (but valid for two years) at the magnitude reflected within the outcome description. This rating has been directly extracted from the national risk assessment of reasonable worst-case scenario⁴.
- 2.13 As part of the risk assessment process, the SWLRF has been considering the impact of a range of risks occurring. This work, a statutory duty under the CCA, is an ongoing process and examples are used to illustrate this on the assessments.
- 2.14 The impact rating relating to each risk has been carefully considered by the risk group. The rating assigned is a combination of scores directly extracted from the dimensions and their constituent indicators in the national security risk assessment; and locally determined indicators⁵ to provide local context for the economic and human welfare dimensions.
- 2.15 All impact dimensions and constituent indicators are presented using a zero to five scale, where zero is applied if there is no impact or it is not applicable. Impact scores also carry a weighting which is applied during the main assessment in order to calculate the overall impact score
- 2.16 The LRFs across Wales have agreed to follow the same scoring format for the Community Risk Registers to provide an opportunity for risk comparison.

⁴ Central Government has advised that there should be no attempt to assess the likelihood of malicious risks. Instead, the likelihood set out in the most recent National Security Risk Assessment should be adopted.

⁵ Localised 'Welsh' impact scales for Fatalities, Casualties, Evacuation & Shelter and the Economy.

- 2.17 Risk assessment is not a static process and is subject to constant review. This process will involve a formal review on an annual basis and updates as and when appropriate. The information contained in this CRR will, as a result, be regularly updated.
- 2.18 This CRR is collectively owned by the Category 1 Responders, as defined in schedule 1 to the CCA, within the SWLRF area and is maintained in accordance with Regulation 15(1) of the Civil Contingencies Act 2004 (Contingency Planning) Regulations 2005.
- 2.19 In 2019, on behalf of Central Government, the Civil Contingencies Secretariat (CCS) updated the process for risk management bringing together two previously separate strategic risk assessments – the National Risk Assessment (NRA) for non-malicious risks, and the original National Security Risk Assessment (NSRA) for malicious risks.
- 2.20 Whilst both employed a common framework used to identify, assess and prioritise malicious and non-malicious risks on the basis of likelihood and impact; they utilised different methodological and presentational approaches developed to suit different audiences.
- 2.21 To reduce duplication and improve the government's ability to compare, prioritise and manage different risks, CCS developed a common process and methodology for assessing NRA and NSRA reasonable worst-case risk scenarios with a view to providing a robust, consistent and holistic picture of the risk environment.
- 2.22 The output of this work is a new National Security Risk Assessment (NSRA) for malicious and non-malicious risks.
- 2.23 This version of the CRR is based on the latest edition of the NSRA, and includes non-malicious risks. From 2017, the SWLRF has maintained a separate 'Official Sensitive' annex containing the malicious risks. Given the sensitivity of the supporting information and its potential use by adversaries, details will not be made available in the CRR.
- 2.24 Consequently, the following detail has been added to support further understanding:-
- The UK faces a serious and sustained threat from international and Northern Ireland related terrorism. MI5 is responsible for setting the threat levels from Northern Ireland related terrorism both in Northern Ireland and in Great Britain; and the threat level from international terrorism is set by the [Joint Terrorism Analysis Centre](#) (JTAC).
 - For the latest detail on the current national threat from international and Northern Ireland related terrorism, please refer to the [MI5 website](#).
 - The threat from international terrorism has been driven by developments in Syria and Iraq. Terrorist groups, including the Islamic State of Iraq and the Levant (ISIL) and Al-Qaida-linked groups plan terrorist attacks against the west. Many of the networks and individuals who have been judged to pose a terrorist threat continue to share an ambition to cause large numbers of casualties without warning.
 - Extremist groups make full use of social media and modern communication methods to glamorise their horrific acts and inspire others.
 - Historically, individuals from Wales (and others from the United Kingdom (UK) and Europe) are known to have travelled to 'theatres of war' to 'fight'. Whilst the majority

of returners will not mount attacks in the UK, the large numbers involved mean there is a risk that at least some of them will attempt to do so.

- Aside from International and Northern Ireland related terrorism, the SWLRF are also cognisant of the fact that UK domestic extremists may also seek to carry out acts of violence in pursuit of a larger agenda.
- Malicious attacks can be grouped by theme:-
 - Attacks on publicly accessible locations.
 - Attacks on infrastructure.
 - Attacks on transport systems.
 - Chemical, biological, radiological and nuclear (CBRN) attacks.
 - Cyber security.
 - Disinformation.
- **Attacks on publicly accessible locations:** While there have been attacks against well-protected targets around the world, publicly accessible locations remain an attractive target for a terrorist attack. Publicly accessible locations by their nature are easily accessible and offer the prospect for an impact beyond the loss of life alone.
- Attacks may be unsophisticated and/or opportunistic – using a single vehicle or a knife; but the effects are equally felt. The consequences of such an attack may include casualties and fatalities, damage to property and infrastructure within the affected area, a need for evacuation or temporary housing and the potential for wider economic damage.
- **Attacks on infrastructure:** National infrastructure comprises those facilities, systems, sites, networks and essential workers necessary for the functioning of the country and the delivery of the essential services upon which daily life in the UK depends. These fundamental services, such as electricity and water supply, ensure that the country continues to function socially and economically.
- The consequences of such an attack may include casualties and fatalities, damage to property and infrastructure within the affected area, the loss/interruption to supply of essential goods and services and disruption to transport networks and the potential for contamination and environmental damage.
- **Attacks on transport systems:** These can take different forms, and have different levels of impact. However, conventional terrorist attacks on land and air-based transport systems are judged to be some of the more likely to occur, although the likelihood of them affecting any one individual is still extremely low. The risk to maritime transport systems is judged to be low.
- The consequences of such an attack may include casualties and fatalities, damage to property and infrastructure within the affected area, and the loss/interruption to supply of essential goods and services and disruption to transport networks.
- **CBRN attacks:** The plausibility of terrorists successfully undertaking an attack involving chemical, biological, radiological or nuclear (CBRN) material remains low

but not negligible. However, if an attack were successful, the consequences would be severe and significantly greater than a conventional attack.

- The consequences of such an attack may include contaminated casualties and fatalities, damage to property and infrastructure within the affected area, and depending on the nature of the incident, contamination buildings, infrastructure, food and the environment which may be difficult to clean up.
- **Cyber security:** Increasing reliance on cyber space brings new opportunities but also new threats. It fosters open markets and societies, but the openness can also render society more vulnerable to criminals to compromise or damage critical data and systems.
- The consequences of such an attack may include the loss or compromise of personal or corporate information, damage to business, the economy and reputation. It may also include the loss of or interruption to supply of essential goods and services and communications network.
- **Disinformation:** Disinformation is the concerted effort to create and deliberately spread false or manipulated information to deceive and mislead for political, personal or financial gain. It often targets a specific topic or groups of people and can involve the creation and dissemination of false content. It often targets and exploits social media platforms, for example by creating multiple fake accounts and using them to spread false information.

NB. In contrast, misinformation is the unintentional sharing of false information. While it may not be deliberate, it can still have similar harmful effects.

- The consequences of successful disinformation campaigns may include reduced trust in institutions, experts, sources of accurate information or democracy itself. The failure to follow advice that keeps the individual and others safe, and actions that are dangerous to individuals and others. This may include attacks on minority groups or elected representatives, refusal to follow essential safeguarding instructions, and disorder or violence against people or infrastructure
 - Further information is contained in the publicly available [National Risk Register](#).
- 2.25 Many Category 1 and Category 2 responders from SWLRF are actively engaged with the UK Government's counter-terrorism strategy, known as CONTEST.
- 2.26 The aim of CONTEST is to reduce the risk to the UK and its interests overseas from terrorism, so that people can go about their lives freely and with confidence. It is organised around four work streams:-
- Pursue: Stopping terrorist attacks.
 - Prevent: Stopping people becoming terrorists or supporting terrorism.
 - Protect: Strengthening our protection against a terrorist attack.
 - Prepare: Where an attack cannot be stopped, mitigating its impact.
- 2.27 Efforts continue to ensure that multi-agency responders from the SWLRF area train to deal with terrorist attacks, so that any response is as coordinated and timely as

possible, and that the primary objectives of saving life and reducing harm can be achieved.

- 2.28 The SWLRF is focussed on preparing for the consequences of any emergency regardless of cause. Plans attempt to set out generic capabilities that can be used in any emergency situation. It is actively engaged in a continued programme of planning, training and exercising to mitigate the common and unique consequences of malicious and non-malicious risks.

3.0 Community Risk Register

- 3.1 The SWLRF risk reference signifies that the information has been reviewed and amended to reflect the SWLRF area; the national risk references have been taken from the '2019 National Security Risk Assessment' issued by the Civil Contingencies Secretariat, and demonstrates that the risk links directly back.
- 3.2 For further detail on the likelihood, impact and overall risk ratings, please refer to Annexes A, B & C respectively.

Risk Reference Map

The map below visually plots the non-malicious risk assessments according to their overall rating:-

Impact	Catastrophic (5)			SWLRF020		
	Significant (4)	SWLRF003, SWLRF012, SWLRF031		SWLRF018, SWLRF019, SWLRF021, SWLRF030, SWLRF038, SWLRF056		
	Moderate (3)	SWLRF001, SWLRF002, SWLRF004, SWLRF005, SWLRF006, SWLRF014, SWLRF015	SWLRF008, SWLRF022, SWLRF035, SWLRF042, SWLRF118, SWLRF121, SWLRF123, SWLRF124	SWLRF013, SWLRF032, SWLRF039, SWLRF051, SWLRF106, SWLRF116, SWLRF126	SWLRF016, SWLRF017, SWLRF034, SWLRF036, SWLRF046, SWLRF100, SWLRF111, SWLRF117, SWLRF122, SWLRF129	SWLRF110
	Minor (2)	SWLRF011, SWLRF048, SWLRF052	SWLRF027, SWLRF028, SWLRF029, SWLRF040, SWLRF059, SWLRF120, SWLRF128	SWLRF024, SWLRF112, SWLRF115, SWLRF125	SWLRF025, SWLRF026, SWLRF033, SWLRF041, SWLRF113, SWLRF114	SWLRF096, SWLRF130
	Limited (1)	SWLRF060, SWLRF080	SWLRF010		SWLRF050, SWLRF071, SWLRF072	
		Low (1)	Medium Low (2)	Medium (3)	Medium High (4)	High (5)
		Likelihood				

Risk Assessment Summary Table

The table below lists the non-malicious risk assessments according to their overall rating:-

SWLRF Risk Reference	National Risk Ref	Risk Title	Risk Rating (Local)
SWLRF018	R081-DEFRA	Coastal flooding	Very High
SWLRF019	R082-DEFRA	Fluvial flooding	Very High
SWLRF020	R095-DHSC	Influenza-type disease Pandemic	Very High
SWLRF021	R097-DHSC	Emerging infectious disease	Very High
SWLRF030	R076-BEIS	Failure of the national electricity transmission system	Very High
SWLRF038	R092-MO	Severe space weather	Very High
SWLRF056	R083-DEFRA	Surface water flooding	Very High
SWLRF013	R069-FSA	Food supply contamination	High
SWLRF016	R093-MO	Storms	High
SWLRF017	R091-MO	Low temperatures and heavy snow	High
SWLRF032	R076A-BEIS	Regional failure of the electricity network	High
SWLRF034	R090-MO	Heat wave	High
SWLRF036	R087-DFT	Volcanic eruption	High
SWLRF039	R104-HO	Large scale public disorder in site(s) in a single city, or in multiple cities, occurring concurrently over several days	High
SWLRF046	xxxx	Major pollution of surface waters and groundwater (Previously HL04)	High
SWLRF051	xxxx	Railway accident. (Previously HL11)	High
SWLRF106	R085-DEFRA	Poor air quality	High
SWLRF110	R032-HO	Significant increase in identified cases of child sexual abuse and exploitation	High
SWLRF111	R033-HO	Significant increase in the availability and use of Class A drugs (heroin, morphine, crack cocaine and fentanyl) within the UK	High
SWLRF116	R038-HO	Significant increase in the laundering of criminal proceeds (including the proceeds of grand corruption) into or through the UK and overseas territories, or using UK-based enablers	High
SWLRF117	R039-HO	Significant increase in the non-fiscal fraud and market abuse against the UK	High
SWLRF122	R072-CO	Collapse of a major contractor integral to the provision of key public services and construction of critical UK infrastructure	High

Community Risk Register

2022/23

SWLRF Risk Reference	National Risk Ref	Risk Title	Risk Rating (Local)
SWLRF126	R096-DHSC	The growth and spread of Antimicrobial Resistance (AMR)	High
SWLRF129	R073-DHSC	Major social care provider business collapse	High
SWLRF001	R056-HSE	Fire or explosion at a gas terminal or stage site	Medium
SWLRF002	R060-HSE	Fire or explosion at an onshore gas pipeline	Medium
SWLRF003	R058-HSE	Fire or explosion at an onshore oil refinery	Medium
SWLRF004	R055-HSE	Fire or explosion at fuel distribution site	Medium
SWLRF005	R061-HSE	Fire or explosion at an onshore fuel pipeline	Medium
SWLRF006	R057-HSE	Explosion at a high-pressure gas pipeline	Medium
SWLRF008	R064-HSE	Large toxic chemical release	Medium
SWLRF012	R066-BEIS	Radiation release from overseas nuclear accident	Medium
SWLRF014	R067-DFT	Maritime pollution	Medium
SWLRF015	R071-DFT	Collision of a large commercial airline and business jet	Medium
SWLRF022	R098-DEFRA	Outbreak of Exotic Notifiable Disease in Animals (Inc. birds)	Medium
SWLRF024	R102-BEIS	Actual or threatened significant disruption to the distribution of fuel by road, including as a result of industrial action by fuel tanker drivers	Medium
SWLRF025	R100-MOJ	Industrial action by the Prison Officers Association (POA)	Medium
SWLRF026	R105-MHCLG	Influx of British nationals	Medium
SWLRF027	xxxx	Technical failure of a critical upstream oil/gas facility, gas import pipeline terminal, or Liquefied Natural Gas (LNG) import reception facility leading to a disruption in gas supplies. (Previously H38)	Medium
SWLRF028	R075-DEFRA	Failure of water infrastructure or loss of drinking water	Medium
SWLRF029	R078-DCMS	Disruption or loss of telecommunication systems	Medium
SWLRF031	R074-DEFRA	Reservoir/Dam collapse	Medium
SWLRF033	R063-HSE	Accidental release of biological substance	Medium
SWLRF035	R084-DEFRA	Drought	Medium
SWLRF040	R054A-HO	Wildfire (variation of major fire)	Medium
SWLRF041	R079-HMT	Financial services - a technical failure at a critical national infrastructure retail bank	Medium
SWLRF042	R068-DFT	Accident involving high consequence dangerous goods	Medium
SWLRF059	xxxx	Land movement (i.e. caused by tremors, landslides, spoil tips, sink holes etc). (Previously HL21)	Medium
SWLRF112	R034-HO	Corruption at the UK border facilitating illegal firearms importation	Medium

VERSION 14: 04/04/2022

Nationally Maintained Risk Originally A National Risk; Now Locally Maintained

Community Risk Register

2022/23

SWLRF Risk Reference	National Risk Ref	Risk Title	Risk Rating (Local)
SWLRF113	R035-HO	High-profile cyber-crime incident affecting a UK institution or institutions	Medium
SWLRF114	R036-HO	Significant increase in the availability and use of illegal firearms and ammunition within the UK	Medium
SWLRF115	R037-HO	Increase in modern slavery and human trafficking, originating both domestically and internationally, affecting the UK	Medium
SWLRF120	NR000-MOJ	Widespread prison rioting	Medium
SWLRF121	R054-HO	Major Fire	Medium
SWLRF123	R077-BEIS	Failure of the gas supply infrastructure	Medium
SWLRF124	R080-HMT	Systemic financial crisis - institutional and market failure	Medium
SWLRF125	R089-FCO	Natural catastrophe resulting in mass casualty event	Medium
SWLRF128	NR000-BEIS	Industrial action by schools	Medium
SWLRF130	R101-DFT	Widespread industrial action (public transport)	Medium
SWLRF010	R070-BEIS	Radiation exposure from stolen goods	Low
SWLRF011	R062-HSE	Accidental release of biological pathogen	Low
SWLRF048	xxxx	Fire, flooding, stranding or collision involving a passenger vessel in or close to UK waters (at sea) or on inland waterways, leading to the ship's evacuation. (Previously HL08)	Low
SWLRF050	xxxx	Local accident on motorways and major trunk roads. (Previously HL10)	Low
SWLRF052	xxxx	Maritime accident or deliberate blockade resulting in blockage or access to key port, estuary, maritime route for more than one month. (Previously HL13)	Low
SWLRF060	xxxx	Building collapse. (Previously HL22)	Low
SWLRF071	xxxx	Loss of cover due to industrial action by workers providing a service critical to the preservation of life (such as emergency service workers). (Previously HL42)	Low
SWLRF072	xxxx	Outbreak of plant disease. (Previously HL43)	Low

Risk Assessment Summary Table

The table below lists the non-malicious risk assessments according to risk category and overall rating:-

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Risk Rating (Local)
SWLRF030	R076-BEIS	Non-Malicious	Accidents & Systems Failures	Failure of the national electricity transmission system	Very High
SWLRF013	R069-FSA	Non-Malicious	Accidents & Systems Failures	Food supply contamination	High
SWLRF032	R076A-BEIS	Non-Malicious	Accidents & Systems Failures	Regional failure of the electricity network	High
SWLRF046	xxxx	Non-Malicious	Accidents & Systems Failures	Major pollution of surface waters and groundwater (Previously HL04)	High
SWLRF051	xxxx	Non-Malicious	Accidents & Systems Failures	Railway accident. (Previously HL11)	High
SWLRF122	R072-CO	Non-Malicious	Accidents & Systems Failures	Collapse of a major contractor integral to the provision of key public services and construction of critical UK infrastructure	High
SWLRF129	R073-DHSC	Non-Malicious	Accidents & Systems Failures	Major social care provider business collapse	High
SWLRF001	R056-HSE	Non-Malicious	Accidents & Systems Failures	Fire or explosion at a gas terminal or stage site	Medium
SWLRF002	R060-HSE	Non-Malicious	Accidents & Systems Failures	Fire or explosion at an onshore gas pipeline	Medium
SWLRF003	R058-HSE	Non-Malicious	Accidents & Systems Failures	Fire or explosion at an onshore oil refinery	Medium
SWLRF004	R055-HSE	Non-Malicious	Accidents & Systems Failures	Fire or explosion at fuel distribution site	Medium
SWLRF005	R061-HSE	Non-Malicious	Accidents & Systems Failures	Fire or explosion at an onshore fuel pipeline	Medium
SWLRF006	R057-HSE	Non-Malicious	Accidents & Systems Failures	Explosion at a high-pressure gas pipeline	Medium

Community Risk Register

2022/23

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Risk Rating (Local)
SWLRF008	R064-HSE	Non-Malicious	Accidents & Systems Failures	Large toxic chemical release	Medium
SWLRF012	R066-BEIS	Non-Malicious	Accidents & Systems Failures	Radiation release from overseas nuclear accident	Medium
SWLRF014	R067-DFT	Non-Malicious	Accidents & Systems Failures	Maritime pollution	Medium
SWLRF015	R071-DFT	Non-Malicious	Accidents & Systems Failures	Collision of a large commercial airline and business jet	Medium
SWLRF027	xxxx	Non-Malicious	Accidents & Systems Failures	Technical failure of a critical upstream oil/gas facility, gas import pipeline terminal, or Liquefied Natural Gas (LNG) import reception facility leading to a disruption in gas supplies. (Previously H38)	Medium
SWLRF028	R075-DEFRA	Non-Malicious	Accidents & Systems Failures	Failure of water infrastructure or loss of drinking water	Medium
SWLRF029	R078-DCMS	Non-Malicious	Accidents & Systems Failures	Disruption or loss of telecommunication systems	Medium
SWLRF031	R074-DEFRA	Non-Malicious	Accidents & Systems Failures	Reservoir/Dam collapse	Medium
SWLRF033	R063-HSE	Non-Malicious	Accidents & Systems Failures	Accidental release of biological substance	Medium
SWLRF040	R054A-HO	Non-Malicious	Accidents & Systems Failures	Wildfire (variation of major fire)	Medium
SWLRF041	R079-HMT	Non-Malicious	Accidents & Systems Failures	Financial services - a technical failure at a critical national infrastructure retail bank	Medium
SWLRF042	R068-DFT	Non-Malicious	Accidents & Systems Failures	Accident involving high consequence dangerous goods	Medium
SWLRF121	R054-HO	Non-Malicious	Accidents & Systems Failures	Major Fire	Medium
SWLRF123	R077-BEIS	Non-Malicious	Accidents & Systems Failures	Failure of the gas supply infrastructure	Medium

Community Risk Register

2022/23

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Risk Rating (Local)
SWLRF071	xxxx	Non-Malicious	Societal	Loss of cover due to industrial action by workers providing a service critical to the preservation of life (such as emergency service workers). (Previously HL42)	Low

Community Risk Register

The table below lists the non-malicious risk assessments according to their SWLRF Risk Reference:-

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Likelihood (National)	Impact	Risk Rating
SWLRF001	R056-HSE	Non-Malicious	Accidents & Systems Failures	Fire or explosion at a gas terminal or stage site	1	3	Medium
SWLRF002	R060-HSE	Non-Malicious	Accidents & Systems Failures	Fire or explosion at an onshore gas pipeline	1	3	Medium
SWLRF003	R058-HSE	Non-Malicious	Accidents & Systems Failures	Fire or explosion at an onshore oil refinery	1	4	Medium
SWLRF004	R055-HSE	Non-Malicious	Accidents & Systems Failures	Fire or explosion at fuel distribution site	1	3	Medium
SWLRF005	R061-HSE	Non-Malicious	Accidents & Systems Failures	Fire or explosion at an onshore fuel pipeline	1	3	Medium
SWLRF006	R057-HSE	Non-Malicious	Accidents & Systems Failures	Explosion at a high-pressure gas pipeline	1	3	Medium
SWLRF008	R064-HSE	Non-Malicious	Accidents & Systems Failures	Large toxic chemical release	2	3	Medium
SWLRF010	R070-BEIS	Non-Malicious	Accidents & Systems Failures	Radiation exposure from stolen goods	2	1	Low
SWLRF011	R062-HSE	Non-Malicious	Accidents & Systems Failures	Accidental release of biological pathogen	1	2	Low
SWLRF012	R066-BEIS	Non-Malicious	Accidents & Systems Failures	Radiation release from overseas nuclear accident	1	4	Medium
SWLRF013	R069-FSA	Non-Malicious	Accidents & Systems Failures	Food supply contamination	3	3	High
SWLRF014	R067-DFT	Non-Malicious	Accidents & Systems Failures	Maritime pollution	1	3	Medium

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Likelihood (National)	Impact	Risk Rating
SWLRF015	R071-DFT	Non-Malicious	Accidents & Systems Failures	Collision of a large commercial airline and business jet	1	3	Medium
SWLRF016	R093-MO	Non-Malicious	Natural Hazards	Storms	4	3	High
SWLRF017	R091-MO	Non-Malicious	Natural Hazards	Low temperatures and heavy snow	4	3	High
SWLRF018	R081-DEFRA	Non-Malicious	Natural Hazards	Coastal flooding	3	4	Very High
SWLRF019	R082-DEFRA	Non-Malicious	Natural Hazards	Fluvial flooding	3	4	Very High
SWLRF020	R095-DHSC	Non-Malicious	Human & Animal Disease	Influenza-type disease Pandemic	3	5	Very High
SWLRF021	R097-DHSC	Non-Malicious	Human & Animal Disease	Emerging infectious disease	3	4	Very High
SWLRF022	R098-DEFRA	Non-Malicious	Human & Animal Disease	Outbreak of Exotic Notifiable Disease in Animals (Inc. birds)	2	3	Medium
SWLRF024	R102-BEIS	Non-Malicious	Societal	Actual or threatened significant disruption to the distribution of fuel by road, including as a result of industrial action by fuel tanker drivers	3	2	Medium
SWLRF025	R100-MOJ	Non-Malicious	Societal	Industrial action by the Prison Officers Association (POA)	4	2	Medium
SWLRF026	R105-MHCLG	Non-Malicious	Societal	Influx of British nationals	4	2	Medium

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Likelihood (National)	Impact	Risk Rating
SWLRF027	xxxx	Non-Malicious	Accidents & Systems Failures	Technical failure of a critical upstream oil/gas facility, gas import pipeline terminal, or Liquefied Natural Gas (LNG) import reception facility leading to a disruption in gas supplies. (Previously H38)	2	2	Medium
SWLRF028	R075-DEFRA	Non-Malicious	Accidents & Systems Failures	Failure of water infrastructure or loss of drinking water	2	2	Medium
SWLRF029	R078-DCMS	Non-Malicious	Accidents & Systems Failures	Disruption or loss of telecommunication systems	2	2	Medium
SWLRF030	R076-BEIS	Non-Malicious	Accidents & Systems Failures	Failure of the national electricity transmission system	3	4	Very High
SWLRF031	R074-DEFRA	Non-Malicious	Accidents & Systems Failures	Reservoir/Dam collapse	1	4	Medium
SWLRF032	R076A-BEIS	Non-Malicious	Accidents & Systems Failures	Regional failure of the electricity network	3	3	High
SWLRF033	R063-HSE	Non-Malicious	Accidents & Systems Failures	Accidental release of biological substance	4	2	Medium
SWLRF034	R090-MO	Non-Malicious	Natural Hazards	Heat wave	4	3	High
SWLRF035	R084-DEFRA	Non-Malicious	Natural Hazards	Drought	2	3	Medium
SWLRF036	R087-DFT	Non-Malicious	Natural Hazards	Volcanic eruption	4	3	High

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Likelihood (National)	Impact	Risk Rating
SWLRF038	R092-MO	Non-Malicious	Natural Hazards	Severe space weather	3	4	Very High
SWLRF039	R104-HO	Non-Malicious	Societal	Large scale public disorder in site(s) in a single city, or in multiple cities, occurring concurrently over several days	3	3	High
SWLRF040	R054A-HO	Non-Malicious	Accidents & Systems Failures	Wildfire (variation of major fire)	2	2	Medium
SWLRF041	R079-HMT	Non-Malicious	Accidents & Systems Failures	Financial services - a technical failure at a critical national infrastructure retail bank	4	2	Medium
SWLRF042	R068-DFT	Non-Malicious	Accidents & Systems Failures	Accident involving high consequence dangerous goods	2	3	Medium
SWLRF046	xxxx	Non-Malicious	Accidents & Systems Failures	Major pollution of surface waters and groundwater (Previously HL04)	4	3	High
SWLRF048	xxxx	Non-Malicious	Accidents & Systems Failures	Fire, flooding, stranding or collision involving a passenger vessel in or close to UK waters (at sea) or on inland waterways, leading to the ship's evacuation. (Previously HL08)	1	2	Low

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Likelihood (National)	Impact	Risk Rating
SWLRF050	xxxx	Non-Malicious	Accidents & Systems Failures	Local accident on motorways and major trunk roads. (Previously HL10)	4	1	Low
SWLRF051	xxxx	Non-Malicious	Accidents & Systems Failures	Railway accident. (Previously HL11)	3	3	High
SWLRF052	xxxx	Non-Malicious	Accidents & Systems Failures	Maritime accident or deliberate blockade resulting in blockage or access to key port, estuary, maritime route for more than one month. (Previously HL13)	1	2	Low
SWLRF056	R083-DEFRA	Non-Malicious	Natural Hazards	Surface water flooding	3	4	Very High
SWLRF059	xxxx	Non-Malicious	Natural Hazards	Land movement (i.e. caused by tremors, landslides, spoil tips, sink holes etc). (Previously HL21)	2	2	Medium
SWLRF060	xxxx	Non-Malicious	Accidents & Systems Failures	Building collapse. (Previously HL22)	1	1	Low
SWLRF071	xxxx	Non-Malicious	Societal	Loss of cover due to industrial action by workers providing a service critical to the preservation of life (such as emergency service workers). (Previously HL42)	4	1	Low

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Likelihood (National)	Impact	Risk Rating
SWLRF072	xxxx	Non-Malicious	Natural Hazards	Outbreak of plant disease. (Previously HL43)	4	1	Low
SWLRF106	R085-DEFRA	Non-Malicious	Natural Hazards	Poor air quality	3	3	High
SWLRF110	R032-HO	Non-Malicious	Serious & Organised Crime	Significant increase in identified cases of child sexual abuse and exploitation	5	3	High
SWLRF111	R033-HO	Non-Malicious	Serious & Organised Crime	Significant increase in the availability and use of Class A drugs (heroin, morphine, crack cocaine and fentanyl) within the UK	4	3	High
SWLRF112	R034-HO	Non-Malicious	Serious & Organised Crime	Corruption at the UK border facilitating illegal firearms importation	3	2	Medium
SWLRF113	R035-HO	Non-Malicious	Serious & Organised Crime	High-profile cyber-crime incident affecting a UK institution or institutions	4	2	Medium
SWLRF114	R036-HO	Non-Malicious	Serious & Organised Crime	Significant increase in the availability and use of illegal firearms and ammunition within the UK	4	2	Medium

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Likelihood (National)	Impact	Risk Rating
SWLRF115	R037-HO	Non-Malicious	Serious & Organised Crime	Increase in modern slavery and human trafficking, originating both domestically and internationally, affecting the UK	3	2	Medium
SWLRF116	R038-HO	Non-Malicious	Serious & Organised Crime	Significant increase in the laundering of criminal proceeds (including the proceeds of grand corruption) into or through the UK and overseas territories, or using UK-based enablers	3	3	High

SWLRF120	NR000-MOJ	Non-Malicious	Societal	Widespread prison rioting	2	2	Medium
SWLRF121	R054-HO	Non-Malicious	Accidents & Systems Failures	Major Fire	2	3	Medium
SWLRF122	R072-CO	Non-Malicious	Accidents & Systems Failures	Collapse of a major contractor integral to the provision of key public services and construction of critical UK infrastructure	4	3	High
SWLRF123	R077-BEIS	Non-Malicious	Accidents & Systems Failures	Failure of the gas supply infrastructure	2	3	Medium

Community Risk Register

2022/23

SWLRF Risk Reference	National Risk Ref	Risk Type	Risk Category	Risk Title	Likelihood (National)	Impact	Risk Rating
SWLRF124	R080-HMT	Non-Malicious	Accidents & Systems Failures	Systemic financial crisis - institutional and market failure	2	3	Medium
SWLRF125	R089-FCO	Non-Malicious	Natural Hazards	Natural catastrophe resulting in mass casualty event	3	2	Medium
SWLRF126	R096-DHSC	Non-Malicious	Human & Animal Disease	The growth and spread of Antimicrobial Resistance (AMR)	3	3	High
SWLRF128	NR000-BEIS	Non-Malicious	Societal	Industrial action by schools	2	2	Medium
SWLRF129	R073-DHSC	Non-Malicious	Accidents & Systems Failures	Major social care provider business collapse	4	3	High
SWLRF130	R101-DFT	Non-Malicious	Accidents & Systems Failures	Widespread industrial action (public transport)	5	2	Medium

Exclusions Table

The table below lists the non-malicious risk assessments which are/have been identified nationally since 2004; but are now:-

- Excluded from the National Risk Register by the Cabinet Office.
 - Excluded by the Risk Group as the risk is unlikely to occur in the SWLRF area
- Or;
- Amalgamated with another risk already on the Community Risk Register.

SWLRF Risk Reference	National Risk Ref <i>(Or Previous National Risk Ref)</i>	Risk Type	Risk Category	Risk Title <i>(If Known)</i>	Reason Excluded	Date Excluded
SWLRF007	H08	Non-Malicious	Major Industrial Accident	Very large toxic chemical release	Action completed by Cabinet Office: Reason unknown; either excluded or amalgamated with another risk.	20/04/2017
SWLRF009	R065-BEIS (Pr-H10)	Non-Malicious	Accidents & Systems Failures	Civil nuclear accident (previously - radioactive substance release from a nuclear reactor)	Action completed by Cabinet Office: Amalgamated with H61 (19/04/2017). Reviewed by Risk Group - no change to status.	22/07/2021
SWLRF023	R099-HO (Pr-H30)	Non-Malicious	Societal	National industrial action by firefighters in England (?) (Previously - Emergency services: loss of emergency fire and	Action completed by Cabinet Office: Reason unknown; either excluded or amalgamated with another risk	22/07/2021

				rescue cover because of industrial action)	(20/4/2017). Reviewed by Risk Group - no change to status.	
SWLRF037	H55	Non-Malicious	Natural Hazard	Severe effusive (gas rich) volcanic eruption overseas	Action completed by Cabinet Office: Reason unknown; either excluded or amalgamated with another risk.	20/04/2017
SWLRF043	HL01	Non-Malicious	Major Industrial Accident	Fire or explosion at a gas terminal or involving a gas pipeline	Action completed by Risk Group: Covered by SWLRF001,002,005,006/H01,02,05,07.	27/07/2017
SWLRF044	HL02	Non-Malicious	Major Industrial Accident	Localised industrial accident involving large toxic release (e.g. from a site storing large quantities of chlorine)	Action completed by Risk Group: Covered by SWLRF004,008/H04,09	27/07/2017
SWLRF045	HL03	Non-Malicious	Major Industrial Accident	Localised industrial accident involving small toxic release	Action completed by Risk Group: Covered by SWLRF004,008/H04,09.	27/07/2017
SWLRF047	HL07	Non-Malicious	Major Industrial Accident	Industrial explosions and major fires	Action completed by Risk Group: Covered by SWLRF001-008/H01-09.	27/07/2017

SWLRF Risk Reference	National Risk Ref <i>(Or Previous National Risk Ref)</i>	Risk Type	Risk Category	Risk Title <i>(If Known)</i>	Reason Excluded	Date Excluded
SWLRF049	HL09	Non-Malicious	Major Transport Accident	Aviation accident	Action completed by Risk Group: Covered by SWLRF015/H16.	27/07/2017
SWLRF053	HL14	Non-Malicious	Major Transport Accident	Local (road) accident involving transport of fuel/explosives	Action completed by Risk Group: Covered by SWLRF042/H60.	27/07/2017
SWLRF054	HL16	Non-Malicious	Natural Hazard	Local coastal / tidal flooding (affecting more than one Region)	Action completed by Risk Group: Covered by SWLRF018&019/H19&21.	27/07/2017
SWLRF055	HL17	Non-Malicious	Natural Hazard	Local coastal / tidal flooding (in one Region)	Action completed by Risk Group: Covered by SWLRF018&019/H19&21.	27/07/2017
SWLRF057	HL19	Non-Malicious	Natural Hazard	Local fluvial flooding	Action completed by Risk Group: Covered by SWLRF018&019/H19&21.	27/07/2017
SWLRF058	HL20	Non-Malicious	Natural Hazard	Localised, extremely hazardous flash flooding	Action completed by Risk Group: Covered by SWLRF018&019/H19&21.	27/07/2017

SWLRF Risk Reference	National Risk Ref <i>(Or Previous National Risk Ref)</i>	Risk Type	Risk Category	Risk Title <i>(If Known)</i>	Reason Excluded	Date Excluded
SWLRF061	HL23	Non-Malicious	Major Industrial Accident	Bridge closure or collapse	Action completed by Risk Group: Covered by SWLRF060/HL22.	27/07/2017
SWLRF062	HL24	Non-Malicious	Natural Hazard	Localised legionella / meningitis outbreak	Action completed by Risk Group: Covered by SWLRF020&21/H23&24.	27/07/2017
SWLRF063	HL25	Non-Malicious	Major Industrial Accident	Localised fire or explosion at a gas terminal as well as LPG, LNG, and other gas onshore feedstock pipeline and flammable gas storage sites	Action completed by Risk Group: Covered by SWLRF001&003/H01&03.	27/07/2017
SWLRF064	HL26	Non-Malicious	Major Industrial Accident	Localised fire or explosion at an onshore ethylene gas pipeline	Action completed by Risk Group: Covered by SWLRF001&002/H01&02.	27/07/2017
SWLRF065	HL27	Non-Malicious	Major Industrial Accident	Localised fire or explosion at an oil refinery	Action completed by Risk Group: Covered by SWLRF003/H03.	27/07/2017
SWLRF066	HL28	Non-Malicious	Major Industrial Accident	Localised fire or explosion at a fuel distribution site or tank storage of flammable and / or toxic liquids	Action completed by Risk Group: Covered by SWLRF004/H04.	27/07/2017

SWLRF Risk Reference	National Risk Ref <i>(Or Previous National Risk Ref)</i>	Risk Type	Risk Category	Risk Title <i>(If Known)</i>	Reason Excluded	Date Excluded
SWLRF067	HL30	Non-Malicious	Major Industrial Accident	Localised explosion at a natural gas pipeline.	Action completed by Risk Group: Covered by SWLRF005&006/H05&07.	27/07/2017
SWLRF068	HL33	Non-Malicious	Grass Fires	Forest or moorland fire	Action completed by Risk Group: Covered by SWLRF040/H58.	27/07/2017
SWLRF069	HL34	Non-Malicious	Major Transport Accident	Fire, flooding, stranding or collision involving a passenger vessel in or close to UK waters leading to the ship's evacuation or partial evacuation at sea.	Action completed by Risk Group: Covered by SWLRF048/HL08.	18/08/2017
SWLRF070	HL37	Non-Malicious	Major Transport Accident	Release of significant quantities of hazardous chemicals/materials as a result of major shipping accident	Action completed by Risk Group: Covered by SWLRF014/H15.	18/08/2017
SWLRF073	H22	Non-Malicious	Flooding	Surface Water Flooding	Action completed by Risk Group: Covered by SWLRF019/H21.	27/07/2017
xxxx	NR000-BEIS	Non-Malicious	Societal	Industrial action by postal workers	Action completed by Risk Group: Noted that there would be little that SWLRF could do to	22/07/2021

Risk Rating Matrix

The matrix below supports the assessment of risk:-

Impact	Catastrophic (5)					
	Significant (4)					
	Moderate (3)					
	Minor (2)					
	Limited (1)					
		Low (1)	Medium Low (2)	Medium (3)	Medium High (4)	High (5)
		Likelihood				

Risk Rating Table

The table below defines the risk ratings:-

Rating	Colour	Explanation
Low		These risks are both unlikely to occur and not significant in their impact. They should be managed using normal or generic planning arrangements and require minimal monitoring and control unless subsequent risk assessments show a substantial change, prompting a move to another risk category.
Medium		These risks are less significant, but may cause upset and inconvenience in the short term. These risks should be monitored to ensure that they are being appropriately managed and consideration given to their being managed under generic emergency planning arrangements.
High		These risks are classed as significant. They may have a high or low likelihood of occurrence, but their potential consequences are sufficiently serious to warrant appropriate consideration after those risks classed as 'very high'. Consideration should be given to the development of strategies to reduce or eliminate the risks, but also that mitigation in the form of at least (multi-agency) generic planning, exercising and training should be put in place and monitored on a regular frequency.
Very High		These are classed as primary or critical risks requiring immediate attention. They may have a high or low likelihood of occurrence, but their potential consequences are such that they must be treated as a high priority. This may mean that strategies should be developed to reduce or eliminate the risks, but also that mitigation in the form of (multi-agency) planning, exercising and training for these hazards should be put in place and the risk monitored on a regular frequency. Consideration should be given to planning being specific to the risk rather than generic.

NB. Based on the model risk matrix published in Annex 4F of 'Emergency Preparedness' (HM Government, 2005)

Definition

For the purposes of Part 1 of the Civil Contingencies Act 2004 (c.36), 'emergency' is defined by s.1(1) of the Act and means:

- a) an event or situation which threatens serious damage to human welfare in a place in the United Kingdom;
- b) an event or situation which threatens serious damage to the environment of a place in the United Kingdom, or
- c) war, or terrorism, which threatens serious damage to the security of the United Kingdom.

It must also meet either of the following criteria:

- I. the risk is of a sufficient scale and nature that it is likely to seriously obstruct a Category 1 responder in the performance of its functions;
and/or
- II. the risk requires the Category 1 responder to exercise its functions and undertake a special mobilisation (s.2(2) of the Civil Contingencies Act 2004).

For the purposes of **a)** an event or situation threatens damage to human welfare only if it involves, causes or may cause:

- Loss of human life.
- Human illness or injury.
- Homelessness.
- Damage to property.
- Disruption of a supply of money, food, water, energy or fuel.
- Disruption for a system of communications.
- Disruption of facilities for transport.
- Disruption of services relating to health.

For the purposes of **b)** an event or situation threatens damage to the environment only if it involves, causes or may cause:

- Contamination of land, water or air with biological, chemical or radioactive matter.
- Degradation or destruction of plant or animal life.
- The event or situation mentioned may or may not originate in the UK.

The duty applies in relation to an emergency if:

- a) The emergency would be likely to seriously obstruct the Category 1 responder in the performance of its functions.
- b) It is likely that the Category 1 responder:
 - I. Would consider it necessary or desirable to take action to prevent the emergency, to reduce, control or mitigate its effects or otherwise in connection with it.
 - II. Would be unable to take that action without changing the deployment or resources or acquiring additional resources

Category 1 Responders

Civil Contingencies Act 2004 (Schedule 1 Reference)	Organisation
Local Authorities	
Welsh Unitary Authorities	Bridgend County Borough Council Cardiff City Council City & County of Swansea Merthyr Tydfil County Borough Council Neath-Port Talbot County Borough Council Rhondda Cynon Taf County Borough Council Vale of Glamorgan Council
Emergency Services	
1) A chief officer of police within the meaning of section 101(1) of the Police Act 1996 (c. 16).	South Wales Police
2) The Chief Constable of the British Transport Police Force.	British Transport Police (Wales and Western Area)
3) A fire and rescue authority within the meaning of section 1 of the Fire and Rescue Services Act 2004 (c. 21).	Mid and West Wales Fire and Rescue Service South Wales Fire and Rescue Service
Health	
A National Health Service trust established under section 5 of the National Health Service and Community Care Act 1990 (c. 19) if, and in so far as, it has the function of providing:-	
1) ambulance services	Welsh Ambulance Service NHS Trust
2) hospital accommodation and services in relation to accidents and emergencies	Swansea Bay University Health Board Cardiff and Vale University Health Board Cwm Taf Morgannwg Health Board
3) services in relation to public health in Wales.	Public Health Wales
An NHS foundation trust (within the meaning of section 1 of the Health and Social Care (Community Health and Standards) Act 2003 (c. 43)) if, and in so far as, it has the function of providing hospital accommodation and services in relation to accidents and emergencies.	None

<p><i>A person who provides services in connection with railways in Great Britain-</i></p> <ol style="list-style-type: none"> 1) <i>without holding a licence under section 8 of that Act, but</i> 2) <i>in reliance on Council Directive 95/18/EC on the licensing of railway undertakings.</i> 	<p>None</p>

Civil Contingencies Act 2004 (Schedule 1 Reference)	Organisation
<i>An airport operator, within the meaning of section 82(1) of the Airports Act 1986 (c. 31), in Great Britain.</i>	Cardiff International Airport
<i>A harbour authority, within the meaning of section 46(1) of the Aviation and Maritime Security Act 1990 (c. 31), in Great Britain.</i>	Associated British Ports
<i>The Secretary of State, in so far as his functions relate to matters for which he is responsible by virtue of section 1 of the Highways Act 1980 (c. 66) (highway authorities).</i>	The Highways Agency
Health & Safety	
<i>Health and Safety Executive</i>	Health and Safety Executive

Contact Details

The Community Risk Register is supported by individual risk assessments prepared in accordance with the principles set out in “*Emergency Preparedness*”⁶.

The risk assessments were completed and accountable to the agency with lead responsibility, but are co-ordinated by the SWLRF Risk Group on behalf of the SWLRF.

The organisation with lead responsibility for the relevant hazard is indicated on the Community Risk Register.

Please refer any enquiries relating to the individual risk assessments to the relevant lead agency at the address provided below:

Aim of Group

To undertake the risk assessment process and prepare a Community Risk Register for the South Wales Local Resilience Forum in accordance with the definition of ‘emergency’ under the remit of Civil Contingencies Act (CCA) 2004.

Chair: Angela Stephenson, Cardiff & Vale University Health Board.

Roles and Responsibilities

- To consider, assess and agree the potential impact of hazards in South Wales.
- To agree the organisations with lead responsibility for making assessments of likelihood and impact for identified hazards in South Wales.
- To undertake risk assessments in line with current guidance under the remit of the CCA 2004.
- To prepare a Community Risk Register for South Wales.
- To update, monitor and maintain the Community Risk Register as deemed necessary.

Members of Core Group

Organisation
South Wales Police
Wales Extremism & Counter Terrorism Unit
British Transport Police
South Wales Fire & Rescue Service
Mid & West Wales Fire & Rescue Service
Welsh Ambulance Services NHS Trust
Public Health Wales
Cardiff & Vale University Health Board Swansea Bay University Health Board (Representing University Health Boards)
Welsh Blood Services
Neath Port Talbot Council (Representing Local Authorities)
Vale of Glamorgan Council (South Wales Local Resilience Forum Coordination)
Natural Resources Wales
Swansea Bay Port Authority
South Wales Trunk Road Agency

Ad Hoc Membership

LRF partner agencies, where their expertise are required.

NB. *To ensure transparency, there is an open invitation to any member of the LRF to attend and observe proceedings.*

Communication

The proceedings and documentation of the Group will be shared with LRF, its sub-group, and individual Category 1 and 2 responders via Resilience Direct.

Venue

Locations will be determined as necessary, and virtual meetings utilised where appropriate.

Frequency of meetings

Meetings will occur on a quarterly basis as a minimum, and the dates will be set at the start of each year in accordance with LRF processes and taking into account other diary commitments and should be in line with the work programme.

NB. *The frequency may increase in response to the work programme.*

Agenda and Minutes

Details of meetings will be circulated to all members inviting agenda items. All agenda items must be submitted 07 days prior to the relevant meeting and must be accompanied by supporting papers.

Minutes of meetings are to be circulated as a priority within 14 days, to enable all actions to be pursued.

Decision Making and Powers

By consensus, the Group, unless given specific decision-making powers by the South Wales Executive Group for a particular issue(s), will refer all findings to the LRF for formal ratification.
