

UNLOCKING SPACE
FOR INVESTMENT

Are you ready to take your Space Sector business to new heights?

The UK Space Agency is launching an exclusive, **fully-funded** programme for space sector businesses, preparing you for series A+ institutional investment.

The UK Space Sector is thriving, attracting a growing number and diversity of investors seeking high-growth opportunities.

However, we know that raising private capital is not always easy in the sector. The technology is often not well understood creating challenges in articulating value propositions, new markets are rapidly emerging causing difficulty in market sizing and there are misconceptions of investment opportunities sometimes skewed by science fiction. These challenges are in addition to identifying the right type of investors to engage with.

This programme will help you; craft the right **materials** to get you pitch ready, give you **access** to the investors ready to invest in the space sector, develop the **skills** of how to position your business to an investor, setting you up to secure future investment.

Business Pathway

The UK Space Agency is Unlocking Space for Investment by offering tailored content and hands-on training for Space Sector businesses looking to raise Series A+ funding. The 6-week programme will include:

4x three hour virtual masterclasses

providing space-centric materials on topics such as being investor ready, finance and due diligence, market sizing and pitch deck development.

2x three hour in-person workshops

offering insight into effectively leading your business through the investment process from sales to investor negotiations

1:1 coaching surgeries

giving you exclusive access to a broad range of subject matter experts from corporate finance to space sector commercial strategy to answer questions related to your business.

Investor round table

giving you the opportunity to refine your pitch and gain valuable feedback from investors in the parallel USI: Investor Pathway and investment subject matter experts. .

Immersive pitch day

giving you the opportunity to present your business to a group of institutional investors who are ready to invest in the space sector

Starting Dec 2023

We will be running two pilots which will last for six weeks each. The first cohort will commence on 11th December 2023 and the second on 5th February 2024.

To make the most of this opportunity and help shape the future of investment support for businesses in the space sector, apply in just 10 minutes by scanning the QR code below.

If you are an investor and this has sparked your interest please check out the Investor Pathway programme that is running in parallel:
