Grenfell Tower site update December 2023

Grenfell Tower site update December 2023

A summary of current activity at the Grenfell Tower site.

- Tower site contractors, DUK, carry out regular maintenance and checks of the props (supports installed in the tower), the hoardings around the site, lighting and security systems and scaffolding.
- Our existing contract with DUK expires in July 2024. We need to re-procure the contract due to government rules and guidance on spending public money. This is a standard process and is part of the government's role in keeping the tower and site safe and secure. We know that this will be of interest to some of the community and there will be opportunities to be involved in the process. For more information, please go to: [The principal contractor for the Grenfell Tower site: update - GOV.UK \(www.gov.uk\)](https://www.gov.uk)
- The tower will be fully illuminated in green on the evening of 14 December to mark six and a half years since the tragedy.
- The site office will be closed over on 25 and 26 December and 1 January, but you can continue to contact the site management team during this time using the contact details at the end of this summary.
- Air quality monitoring continues to be carried out regularly around the tower. [You can see this month's monitoring results on GOV.UK](#)
- Local opportunities including employment, training and practical support, are available from the Grenfell Tower site principal contractor, DUK. You can find out more at www.degroupp-community.uk If you would like to talk to us about social value opportunities, please get in touch using the contact details at the end of this summary.
