Second Channel Demersal Non-Quota Species Fisheries Management Plan Working Group: Action we've taken from feedback

You said...

You wanted breakout rooms to be used in working group (WG) meetings to make it easier for everyone to have their say

You wanted the FMP team to draft elements of the FMP and bring it to the WG to be reviewed

You wanted fishermen to be more involved in evidence gathering for the Channel NQS FMP as they have expert, on the ground knowledge of specific species

You wanted us to have something substantial to take to stakeholders during our next round of engagement on the south coast

We did...

We utilised breakout rooms within the October working group meeting to have smaller group discussions

We are drafting the proposed vision and objectives for the NQS FMP. We will bring these to the working group for development, revision and agreement.

We have invited fishermen to sit on the Evidence Advisory Group based on working group recommendations

The FMP team are drafting key elements of the FMP which we will then test and develop with stakeholders in our next round of engagement

Please email FMP@marinemanagement.org.uk to give us your feedback or to get updates on the Channel demersal NQS FMP

...ambitious for our seas and coasts
