Dear Sir

Land to the north of Eldridge Close, Clavering  
Ref: S62A/2023/0025

On the 3<sup>rd</sup> July 2022 I sent an objection letter that appears on Uttlesford District Council's website under the reference UTT/22/1578/OP objecting to the application to build 32 houses on this site. I now strongly reiterate that this also applies to the current application for 28 houses.

As previously stated, this development is not on a brownfield site but high quality agricultural land which has been successfully cultivated every year, for many years. This development will considerably impact on the landscape views of this rural community and fail to enhance or protect the surrounding environment.

**This development MUST BE REFUSED**

Yours faithfully,

Michael St. John Gebbie
