Dear Sir

Land to the north of Eldridge Close, Clavering  
Ref: S62A/2023/0025

My previous objection letter, dated 30<sup>th</sup> June, that appears on Uttlesford District Council's website, under reference UTT/22/1578/OP, also applies to the current application for twenty-eight houses.

This development would cause considerable harm to the countryside. As previously stated, this is not a brown field site and should remain as high quality agricultural land, which it has been for many decades. The impact on wildlife of this proposed development would be enormous and lost forever.

This development **MUST BE REFUSED**.

Yours faithfully,  
Janet W St. John Gebbie (Mrs)
