# MIN 698 (M) Workboat Code Edition 3 – Standards and Guidelines for Best Practice

Notice to all designers, builders, owners, operators, employers, crews, masters of small workboats, pilot boats, remotely operated unmanned vessels, and Certifying Authorities.

This notice should be read with The Workboat Code Edition 3.

This MIN expires 31 December 2024.

---

## Summary

This Marine Information Notice is intended to supplement The Workboat Code Edition 3 by providing a summary of standards referenced therein and guidelines considered as best practice for small workboats and pilot boats certified under this edition of the Code.

This M Notice is not exhaustive and shall be viewed as guidance only.

## 1. Introduction

1.1 In 2023, the Maritime and Coastguard Agency published “The Safety of Small Workboats and Pilot Boats – A Code of Practice Edition 3”.

1.2 The Workboat Code Edition 3 came into force on 13 December 2023, and it replaces:

- a. The Safety of Small Workboats and Pilot Boats – A Code of Practice Edition 1 (the “Brown Code”);

- b. MGN 280 Small Vessels in Commercial Use for Sport or Pleasure, Workboats and Pilot Boats – Alternative Construction Standards, in so far as far as it applies to small workboats and pilot boats; and,
- c. The Workboat Code Edition 2, as amended.

## 2. Summary

2.1 The following is a summary of current standards and guidelines applicable to vessels certified under the Workboat Code Edition 3. All standards and guidelines listed are at the point of publication of this M Notice the most up to date version. Where a standard or guideline is no longer in date but is still referenced within the Code, it is the responsibility of the vessel owner/operator to use the latest edition.

2.2 Equivalent standards may be considered on a case-by-case basis subject to the approval of the Administration.

2.3 Numbering refers to applicable section reference(s) within the Code.
