Weather and Climate Word Search

Find some words about the climate information of planets in our solar system.

Thanks to small satellites in space, we can learn more about the climate and weather patterns on earth and on other planets.

Can you use any of the words below to help you describe the weather and climate of different planets?

What other words can you think of?

G A F T I H O B E M T E M P E R A T U R E J Z
