Dear Major Casework Team,

Town and Country Planning (Section 62A Applications) (Procedure and Consequential Amendments) Order 2013 (as amended)

S62A/2023/0026 - Outline application for the erection of up to 40 dwellings with all matters reserved except for access.

Land South Of (West Of Robin Hood Road), Rush Lane, Elsenham

Thank you for your email of the 21 December requesting a response on the below headings.

Revised National Planning Policy Framework (NPPF)

The revised NPPF came into force on 19 December 2023.

Although the relevant paragraphs of the NPPF stated within the Council's Committee Report and consultation response letter have now been altered, it is considered that these revisions do not change the assessment of the case.

Housing Delivery Test (HDT)

In October 2023, UDC published an updated 5-Year Housing Land Supply Statement which identified that, between 1st April 2023 and the 31st March 2028, the number of homes which could be considered 'deliverable' amounted to 3,695. The Objectively Assessed Need (OAN) over the same period, including a mandatory 5% buffer, was 3,591. This meant the Council could demonstrate a surplus of 104 homes, which translated to a housing land supply of 5.14 years.

On 19 December 2023, the government released the latest Housing Delivery Test (HDT). The latest version of the National Planning Policy Framework (NPPF) (published on the same date) introduced policy changes to how the 5YHLS test is applied for Local Authorities that have published a draft Local Plan.

These changes mean the mandatory 5% buffer applied to the 5YHLS must now be replaced with a 20% buffer. This has ramifications for the Council's 5YHLS position as detailed below:

	Supply (as of 01/04/23)	OAN	Buffer	Total Need	Surplus/ Deficit	Years Supply
October 2023	3,695	3,420	171 (5%)	3,591	104	5.14
January 2024	3,695	3,420	684 (20%)	4,104	- 409	4.50

The Council therefore cannot demonstrate a 5YHLS that includes a 20% buffer and the presumption in favour of sustainable development held within Paragraph 11(d) of the NPPF is automatically engaged when determining planning applications for residential development within the district. Paragraph 13.3.4 of the Council's Committee Report should therefore be amended to reflect this.

Yours sincerely

Dean Hermitage MA, Mgeog, MRTPI
Director of Planning
