Subject: S62A/2023/0028 Hartford end

[REDACTED]

I would like to oppose the application for various reasons. I moved to Hartford nearly 20 years ago to improve the quality of my life. Growing up in East London, I dreamt of living in a beautiful place. In 2005, I found that beautiful place.. Hartford end. Wildlife roams our almost wild surroundings, large herds of deer etc. Unfortunately as the years have passed that beauty has slowly already been eroded, one being lots more traffic due to other large housing developments locally. Hartford end is place of natural beauty & historic importance from the brewery site. It would be devastating for our quant, amazing hamlet to become a small town almost overnight. Finally, major traffic calming would be required at the proposed entrance if planning were given due to the dangerous location from speeding traffic. Please think carefully about the proposed application because this place (Hartford end) is really special as it is.

Regards

P Vanner
