Important notes

- The seed submitted for DUS tests in the first year will be regarded as the definitive stock of the variety.
- If DUS and VCU seed is being submitted on the same date to the same place, then one joint submission MUST be made.

Section 3 – Stock relationship diagram

Please provide a diagram below clearly indicating the relationship of the submitted seed with the **parental material** and **previous submissions**

Section 4 – Grasses and Clover

For Perennial Ryegrass intended for fodder production:

Is the seed submitted free of endophyte infection?

Yes No

Seed submitted for ryegrass, *festulolium*, timothy and white clover must be from the Syn 2 or higher generation. Syn 1 seed (ie that collected from the intercrossing of parental mother plants) is not acceptable for National List VCU trials.

Which Syn generation is the submitted seed from?

Declaration

I/We declare that to the best of my/our knowledge

- the statements made in this Seed Submission Form are correct, and
- the seed complies with the legal requirement in relation to the adventitious presence of GM material.
