Section 1 – Applications Received

Inspection of licence applications can be requested under the provisions of Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by anybody who holds statutory objector status. Applications may be inspected free of charge at the Office of the Traffic Commissioner in Leeds by any person who carries written authorisation to act in that capacity.

Objections against published applications may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

You may fax a copy of your objection to 0113 2488521 but please note that you must send the original signed document through the post.

Classification of Operator Licences – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Section 3 – Schedule 4 Applications

Schedule 4 to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval at the Traffic Commissioner’s discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

New Applications (Section 3.1): where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

Variation Applications (Section 3.2): where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

Section 5 – Public Inquiries

Anyone wishing to observe a physical or virtual public inquiry must request to do so from the relevant Office of the Traffic Commissioner in advance of the hearing. Due to space or technology restrictions we may not be able to accommodate all requests.

Please contact keith.holliday@otc.gov.uk for further information.

There is no obligation on the traffic commissioner to provide a transcript of proceedings. Any decision to release will refer to the reasons for the request and there may be restrictions placed on its use. That request should be made via the relevant Office of The Traffic Commissioner and the applicant must understand that they will be liable for the cost of producing the transcript. This will vary according to demand and size of content.

Appeals against any decision published in this section must be lodged with the Upper Tribunal – Administrative Appeal Chamber (Transport), 5th Floor, Rolls Building, 7 Rolls Buildings, Fetter Lane, London, EC4A 1NL not later than one month after the date of the letter conveying the Traffic Commissioner’s (or Deputy Traffic Commissioner’s) decision. Appellants can obtain guidance on lodging appeals, including downloading the appeal form, from the website: www.administrativeappeals.tribunals.gov.uk

Abstract from decision

This case was far too serious for me to consider a curtailment of the operator's licence. The proportionate regulatory action was to suspend this licence for 28 consecutive days from and including 12 February 2024 to and including 10 March 2024. That order was made under sections 26(1)(f) and (h) of the Act. I also made an order under section 26(6) of the Act during the period of suspension and fully explained what that meant; that whilst the licence is suspended none of the operator's vehicles can be used on any other operator's licence. Any breach of my order empowers the DVSA to impound any vehicle so operated.

The fitness of this operator is now hanging by the thinnest of threads. I asked Vehicle Examiner Matthews to undertake an unannounced MIVR on a date in the future of his choosing. I also asked him to check to make sure my order of suspension was not breached. Finally, given the long standing and serious failings on the watch of Stacy Smith, I asked Vehicle Examiner Matthews to formally check the compliance of each of the operator licenses that she is recorded upon as the transport manager including those where she is only recorded as the responsible person.

It goes without saying that the operator's variation application to increase vehicular authorisation from 4 vehicles to 8 vehicles is refused because it is quite clear to me that this operator cannot operate, as at today, the current vehicular authorisation to a compliant standard never mind an increased number of vehicles.

Public Inquiry (88172) held at The Public Inquiry Room (Birmingham), B15 1PL, 38 George Road, Edgbaston, Birmingham, on 1 February 2024 commenced at 10:00 (Previous Publication:(3081))
Previous hearing on 23 August 2023 was adjourned.

"After carefully considering all of the evidence, in which I noted the operator and transport manager had accepted the adverse findings of the DVSA, I determined that the proportionate and fair regulatory outcome was to curtail this operator's licence from 11 vehicles to 9 vehicles with immediate effect under sections 26(1)(c)(iii), (f) and (h) of the Act. This order is for 14 days and will end at 2359 hours on 14 February 2024. After that time the licence will automatically revert back to authorising 11 vehicles. No adverse finding in relation to the operator's good reputation was made.

This decision will have no day-to-day impact on the transport operation because it merely removed the margin that was available. It does, however, reflect that this is the second public inquiry this operator has attended where an adverse determination has been made and it is aimed at being a clear mark on this operator's file going forward into the future.

The transport manager, Mr Casey Brindley, was issued with a formal warning as a transport manager. No adverse finding in relation to his good reputation in that capacity was made.
