Business & Trade

Trade and Investment Factsheets

Greece

This factsheet provides the latest statistics on trade and investment between the UK and Greece.

Date of release: 22 February 2024; Date of next planned release: 21 March 2024

Total trade in goods and services (exports plus imports) between the UK and Greece was **£12.0 billion** in the four quarters to the end of Q3 2023, an increase of 28.5% or £2.7 billion in current prices from the four quarters to the end of Q3 2022. Of this £12.0 billion:

- Total UK **exports** to Greece amounted to £3.9 billion in the four quarters to the end of Q3 2023 (an increase of 28.5% or £860 million in current prices, compared to the four quarters to the end of Q3 2022);
- Total UK **imports** from Greece amounted to £8.2 billion in the four quarters to the end of Q3 2023 (an increase of 28.6% or £1.8 billion in current prices, compared to the four quarters to the end of Q3 2022).

Greece was the UK's 27th largest trading partner in the four quarters to the end of Q3 2023 accounting for 0.7% of total UK trade.¹

In 2021, the **outward stock of foreign direct investment (FDI)** from the UK in Greece was £1.8 billion accounting for 0.1% of the total UK outward FDI stock.

In 2021, the **inward stock of foreign direct investment (FDI)** in the UK from Greece are not available due to data disclosure.²

¹ Trade data sourced from the latest ONS publication of [UK total trade: all countries seasonally adjusted](#) data.

² Investment data sourced from ONS publication on [Foreign Direct Investment Involving UK Companies](#).

About these statistics

This factsheet presents the latest statistics on trade and investment between the UK and Greece. It summarises a wide range of publicly available data, from data providers such as the Office for National Statistics (ONS) and HM Revenue and Customs (HMRC), as well as international data providers.

This factsheet is part of a wider range produced by the Department for Business and Trade which draws together many data sources into one single compendium document for each individual trade and investment partner. The full set of factsheets for different individual partners can be found on the [Trade and Investment Factsheets website](#) on GOV.UK.

Where data are available, these factsheets contain metrics on:

- [Headline trade statistics between the UK and each trading partner for the latest four quarters.](#)
- [Trade statistics by commodity and service type.](#)
- [Trade between the UK and each trading partner, broken down by UK country and English region.](#)
- [Trade in services between the UK and each trading partner, broken down by mode of supply](#)
- [UK's market share as a total of all imports for each trading partner.](#)
- [Number of VAT-registered businesses trading goods.](#)
- [UK's Foreign Direct Investment \(FDI\) with each investment partner.](#)
- [Summary trade and investment data as reported by each trade and investment partner, as well as economic data and projections.](#)

All statistics are correct at the time of publication, with upcoming release dates available on the [Government update schedule for Official Statistics](#). The Department for Business and Trade strongly recommends users download the latest factsheet to ensure the most up-to-date statistics are used as some statistics are revised on a regular basis.

For the most up to date snapshot of the UK's trade and investment position with all partners, please see the [UK trade in numbers](#) publication or the [trade and investment core statistics book](#). These statistics are based on the same data sources as this factsheet and therefore are comparable. A list of all [Official Statistics](#) publications from the Department for Business and Trade can be found online.

Summary trade and investment statistics for Greece

[UK trade](#) with Greece, in current prices (based on the latest four quarters)³:

Trade	Value in the four quarters to the end of Q3 2023	Change from the four quarters to the end of Q3 2022
Total trade	£12.0 billion	an increase of 28.5% or £2.7 billion
Ranking out of all the UK's trading partners	27th	
Total UK exports	£3.9 billion	an increase of 28.5% or £860 million
Ranking out of all the UK's export partners	33rd	
UK exports in goods (percentage of total UK exports that were goods)	£1.3 billion (34.0%)	an increase of 36.1% or £349 million
UK exports in services (percentage of total UK exports that were services)	£2.6 billion (66.0%)	an increase of 24.9% or £511 million
Total UK imports	£8.2 billion	an increase of 28.6% or £1.8 billion
Ranking out of all the UK's import partners	22nd	
UK imports in goods (percentage of total UK imports that were goods)	£1.7 billion (21.3%)	an increase of 21.0% or £302 million
UK imports in services (percentage of total UK imports that were services)	£6.4 billion (78.7%)	an increase of 30.8% or £1.5 billion

[UK market share](#) in Greece⁴:

UK market share for total trade	Value in 2022	Change from 2021
Total UK market share	3.2%	0.0 percentage points
UK market share for goods only	1.3%	0.1 percentage points
UK market share for services only	9.3%	1.0 percentage points

[UK Foreign Direct Investment \(FDI\)](#) with Greece⁵:

UK FDI	Value in 2021	Change from 2020
Total UK outward FDI	£1.8 billion	an increase of 11.3% or £184 million
Total UK inward FDI	Data not available due to data disclosure	Comparison not available

[Economic statistics](#) and projections using gross domestic product (GDP) for Greece⁶:

Economic statistics	2020	2021	2022	2023
Economic growth, using GDP in real terms, compared to the previous year	-9.0%	8.4%	5.9%	2.5%
GDP per capita in \$USD (in thousands)	17.6	20.1	21.0	23.2

Greece was the 55th largest economy in 2022, in terms of gross domestic product (GDP).

³ Trade data sourced from Office for National Statistics data on [UK total trade \(seasonally adjusted data\)](#).

⁴ UK market share data calculated using the methodology outlined in the [market share section](#) in the factsheet, based on data from the Office for National Statistics and United Nations Conference on Trade and Development.

⁵ FDI data sourced from the Office for National Statistics publication [Foreign Direct Investment Involving UK Companies](#).

⁶ Economic data sourced from the International Monetary Fund [World Economic Outlook](#) databases; Estimates and projections are given in italics; GDP rankings where provided are based on values in current prices (nominal terms) in \$USD, where some partner values are based on estimates which may influence the rankings when revised.

Trade with Greece, in current prices (ONS)^{7 8 9}

Trade definitions

UK exports - Goods and services that were produced or sourced in the UK, which were sold to Greece.

UK imports - Goods and services that were sold to the UK, which were produced or sourced by Greece.

Total or 'bilateral' trade - The value of total trade between the UK and Greece (exports plus imports).

Trade balance - The difference between exports and imports, calculated by UK exports minus UK imports.

Trade surplus - This occurs when the value of UK exports to Greece is greater than the value of UK imports from Greece.

Trade deficit - This occurs when the value of UK exports to Greece is less than the value of UK imports from Greece.

Headline trade statistics include trade in non-monetary gold (reported within the unspecified goods category), which can significantly affect trends for some partners. Please see the factsheet [quality and methodology report](#) for more information. These statistics are given on a balance of payments (change of ownership) basis.

Note: The latest data include trade between October 2022 and September 2023. Trade has been affected by the COVID-19 pandemic and the associated lockdown measures globally. Consequently, data quality has been affected and may be subject to larger revisions than normal. All figures are reported in current prices (not adjusted for inflation), unless otherwise stated. We recognise that some of the recent increases in UK trade values will be partly due to price increases.

Total trade in goods and services (exports plus imports) between the UK and Greece was £12.0 billion in the four quarters to the end of Q3 2023, an increase of 28.5% or £2.7 billion in current prices from the four quarters to the end of Q3 2022.

In the four quarters to the end of Q3 2023, **total UK exports** to Greece amounted to £3.9 billion (an increase of 28.5% or £860 million in current prices, compared to the four quarters to the end of Q3 2022).

Of all UK exports to Greece in the four quarters to the end of Q3 2023, £1.3 billion (34.0%) were **goods** and £2.6 billion (66.0%) were **services**. In the four quarters to the end of Q3 2023, **UK exports of goods** to Greece increased by 36.1% or £349 million in current prices, compared to the four quarters to the end of Q3 2022 while **UK exports of services** to Greece increased by 24.9% or £511 million in current prices, compared to the four quarters to the end of Q3 2022.

In the four quarters to the end of Q3 2023, **total UK imports** from Greece were £8.2 billion (an increase of 28.6% or £1.8 billion in current prices, compared to the four quarters to the end of Q3 2022).

Of all UK imports from Greece in the four quarters to the end of Q3 2023, £1.7 billion (21.3%) were **goods** and £6.4 billion (78.7%) were **services**. In the same period, **UK imports of goods** from Greece increased by 21.0% or £302 million in current prices, compared to the four quarters to the end of Q3 2022 while **UK imports of services** from Greece increased by 30.8% or £1.5 billion in current prices, compared to the four quarters to the end of Q3 2022.

This means the UK reported a **total trade deficit** of £4.3 billion with Greece, compared to a trade deficit of £3.3 billion in the four quarters to the end of Q3 2022. In the four quarters to the end of Q3 2023, the UK had a **trade in goods deficit** of £422 million with Greece, compared to a trade in goods deficit of £469 million in the four quarters to the end of Q3 2022. Meanwhile, in the four quarters to the end of Q3 2023 the UK reported a **trade in services deficit** of £3.9 billion with Greece, compared to a trade in services deficit of £2.9 billion in the four quarters to the end of Q3 2022.

⁷ Office of National Statistics (ONS) data source for total trade: [UK total trade data \(seasonally adjusted\)](#).

⁸ This factsheet contains data as reported by the UK, users are advised to use UK-reported data where possible for consistency between partners. These data are subject to [asymmetries](#) e.g. the value of UK exports to Greece (reported by the UK) may not match the value of Greece imports from the UK (reported by Greece).

⁹ Data are in nominal terms, meaning no adjustment has been made to account for changes in inflation or exchange rate. The totals may not exactly match the sum of their parts due to rounding.

The charts below present a time series for trade between the UK and Greece for each year between 2013 and 2022:

Source: ONS, UK trade in goods and services, Q3 2023

The data that are presented in the charts above are given in the table below in £ billion:

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022
Value of total trade	5.7	6.7	5.9	6.6	7.1	8.2	7.9	5.1	6.0	10.2
Value of exports	2.8	3.7	2.6	2.8	3.2	3.8	3.3	2.6	2.4	3.3
Value of imports	2.9	3.0	3.3	3.8	3.9	4.4	4.6	2.4	3.6	6.9
Trade balance	+0.0	+0.7	-0.6	-1.0	-0.7	-0.6	-1.4	+0.2	-1.2	-3.6

In the four quarters to the end of Q3 2023, Greece was the UK's:¹⁰

- **27th largest trading partner** (accounting for 0.7% of total UK trade).
 - 43rd largest **goods** trading partner (0.3% of UK goods trade).
 - Joint 21st largest **services** trading partner (1.2% of UK services trade).
- **33rd largest export market** (accounting for 0.4% of total UK exports).
 - 42nd largest **goods** export market (0.3% of UK goods exports).
 - 34th largest **services** export market (0.5% of UK services exports).
- **22nd largest import market** (accounting for 0.9% of total UK imports).
 - 43rd largest **goods** import market (0.3% of UK goods imports).
 - 11th largest **services** import market (2.1% of UK services imports).

More timely data, for trade in goods only¹¹, show that UK exports of goods to Greece increased by 20.2% the 12 months to December 2023 in current prices, compared to the same period the previous year. UK imports of goods from Greece increased by 6.1%, in current prices, over the same period.

Note: As these data are presented for the 12 months ending December 2023, the UK and its trading partners have been affected by lockdown and other measures during the COVID-19 pandemic. Data quality has also been affected and may be subject to larger revisions than usual. Please note, these data are in current prices.

¹⁰ Rankings are based on the ONS dataset which contains data for all individual partners: [UK total trade data \(seasonally adjusted\)](#).

¹¹ ONS data source for trade in the latest 12 months up to December 2023: [UK Trade data \(seasonally adjusted\)](#). More timely data for trade in goods reports the latest 12 month period, which includes data during 2021 and 2022. Due to a change in data collection methodology for Great Britain imports from the EU, data collected in 2022 are not fully comparable with data collected in 2021. More information on this methodology change can be found in an [article by the ONS](#).

Trade in goods by commodity, in current prices (ONS)^{12 13}

Please note, these data are presented on a non-seasonally adjusted basis and are not directly comparable to seasonally adjusted data, including the headline trade statistics presented before.

The **top 5 goods exported by the UK to Greece** in the four quarters to the end of Q3 2023 were:

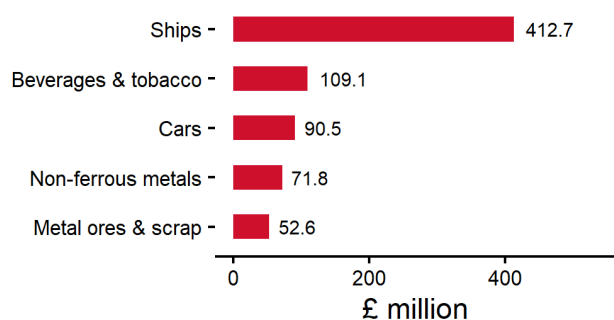

- 793 - Ships (£412.7 million or 31.7% of all UK goods exported to Greece)
- 1 - Beverages & tobacco (£109.1 million or 8.4%)
- 78M - Cars (£90.5 million or 7.0%)
- 68 - Non-ferrous metals (£71.8 million or 5.5%)
- 28 - Metal ores & scrap (£52.6 million or 4.0%)

The **top 5 goods imported by the UK from Greece** in the four quarters to the end of Q3 2023 were:

- 54 - Medicinal & pharmaceutical products (£227.5 million or 13.1% of all UK goods imported from Greece)
- 793 - Ships (£205.0 million or 11.8%)
- 68 - Non-ferrous metals (£165.8 million or 9.5%)
- 05 - Vegetables & fruit (£154.8 million or 8.9%)
- 02 - Dairy products & eggs (£118.3 million or 6.8%)

The chart below shows the top 5 products exported by the UK to Greece and the top 5 products imported by the UK from Greece, by value, in the four quarters to the end of Q3 2023. All data shown in the chart are provided in the text above.

The top 5 UK goods exports, in the four quarters to the end of Q3 2023, to Greece

Source: ONS, December 2023

The top 5 UK goods imports, in the four quarters to the end of Q3 2023, from Greece

Source: ONS, December 2023

¹² Data on trade in goods by commodity are sourced from data by the ONS: [UK trade release \(non-seasonally adjusted\)](#). These statistics for [exports](#) and [imports](#) present the latest data from the December 2023 ONS publication which are given on a monthly basis.

¹³ The commodities are categorised based on [SITC](#) codes using a mixture of level 2 and level 3 codes.

Trade in services by service type, in current prices (ONS)^{14 15 16}

Please note, these data are presented on a non-seasonally adjusted basis and are not directly comparable to seasonally adjusted data, including the headline trade statistics presented before.

The **top 5 service types exported from the UK to Greece** in the four quarters to the end of Q3 2023 were:

- Transportation (£892 million or 35.0% of all UK services exported to Greece)
- Travel (£440 million or 17.2%)
- Telecommunications, computer and information services (£260 million or 10.2%)
- Insurance and Pension (£249 million or 9.8%)
- Other Business Services (£214 million or 8.4%)

The **top 5 service types imported to the UK from Greece** in the four quarters to the end of Q3 2023 were:

- Travel (£5.0 billion or 78.7% of all UK services imported from Greece)
- Transportation (£722 million or 11.4%)
- Government (£160 million or 2.5%)
- Other Business Services (£154 million or 2.4%)
- Insurance and Pension (£137 million or 2.2%)

The chart below shows the top 5 service types exported from the UK to Greece and the top 5 service types imported to the UK from Greece, by value, in the four quarters to the end of Q3 2023. All data shown in the chart are provided in the text above.

¹⁴ Trade in services by service type is sourced from data by the ONS: [UK trade in services by partner country \(non-seasonally adjusted\)](#).

¹⁵ Data are classified on the [EBOPS 2010](#) basis. 'Other business services' include: Research and development, professional and management consulting services, technical services and trade related services. A full description of all service types can be found on the [UN Statistics Division website](#).

¹⁶ Service type data may be unavailable for some quarters, due to the suppression of figures for the confidentiality of individual traders. Data currently displayed here refers to the annual data for 2021 rather than the sum of the latest four quarters.

Trade in goods by UK countries and English regions, in current prices (HMRC)^{17 18}

Regional trade definitions

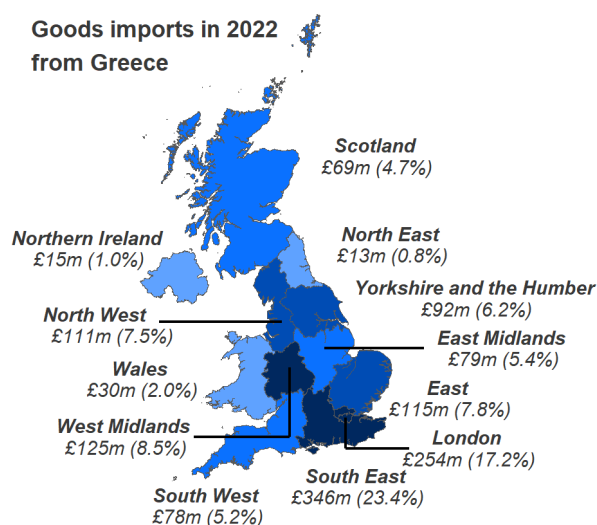

UK regions - The UK is categorised into 12 regions based on the International Territorial level 1 (ITL1). This level includes 9 regions in England, as well as Wales, Scotland and Northern Ireland.

Regional trade data - The data are compiled by merging HM Revenues & Customs (HMRC) trade data with employment data from the Interdepartmental Business Register (IDBR) so a business' trade can be allocated to a UK region based on the proportion of its employees employed in that region. Where a trader is not matched with the IDBR, its trade is matched with ONS postcode data to obtain the UK region in which the Head Office of the VAT-registered business is based.

The maps below show the value of UK goods exports and imports between each UK region and Greece in 2022. The maps are shaded with the 3 UK regions with the highest amount of trade as the darkest colour, and the 3 UK regions with the lowest amount of trade as the lightest colour.

Contains Ordnance Survey and National Statistics data © Crown copyright and database right [2017]
Source: HMRC, December 2023

Contains Ordnance Survey and National Statistics data © Crown copyright and database right [2017]
Source: HMRC, December 2023

The data that are presented in the maps above for 2022 in £ million are also given in the table below:

UK country or English region	North East	North West	Yorkshire and the Humber	East Midlands	West Midlands	East	London	South East	South West	Wales	Scotland	Northern Ireland
Value of goods exports to Greece	53	83	73	61	81	98	62	99	42	58	127	14
Percentage of total goods exports to Greece	5.9%	9.3%	8.1%	6.8%	9.1%	10.9%	6.9%	11.0%	4.7%	6.5%	14.2%	1.6%
Value of goods imports from Greece	13	111	92	79	125	115	254	346	78	30	69	15
Percentage of total goods imports from Greece	0.8%	7.5%	6.2%	5.4%	8.5%	7.8%	17.2%	23.4%	5.2%	2.0%	4.7%	1.0%

Note that these figures from HMRC are reported on a physical movement basis and are **not directly comparable** to trade data from ONS which are reported on a change of ownership basis. **Percentages will not total 100%** as data not allocated to a single UK country or English region are not presented.

¹⁷ HMRC data source for regional UK trade data: [HMRC Regional Trade Statistics](#) (data extracted from the spreadsheet download using the HMRC [interactive tables](#)).

¹⁸ Totals presented here will differ from overall HMRC trade figures due to the exclusion of trade in non-monetary gold and non-response estimates and the exclusion of data not allocated to a UK country or region. Figures for 2022 are provisional and subject to change.

Trade in services by mode of supply, in current prices (ONS)^{19 20}

Trade in Services by Mode of Supply definitions

Modes of Supply define the way services trade is conducted. The World Trade Organisation's [General Agreement on Services](#) categorises methods for trade in services into four different modes of supply, which depend upon on the territorial presence of the supplier and the consumer at the time of transaction.

Mode 1 - Remote trade (a supplier in one country sells a service to a customer in another, without the movement of people).

Mode 2 - Consumption abroad (the person receiving the service travels to the supplier's country).

Mode 3 - Commerical presence (e.g. a company subsidiary) - this mode is not counted as part of UK services trade on a balance of payments basis and is not reported in this release. This means that total figures are only the total of Modes 1, 2 and 4.

Mode 4 - Presence of natural persons (a supplier sends its personnel to the customer's country to provide service).

UK services exports to Greece by mode of supply in 2021:

- £936 million of services exports to Greece were delivered by Mode 1 (60.7%).
- £479 million of services exports were delivered by Mode 2 (31.1%).
- £126 million of services exports were delivered by Mode 4 (8.2%).

UK services imports from Greece by mode of supply in 2021:

- £679 million of services imports from Greece were delivered by Mode 1 (28.1%).
- £1.7 billion of services imports were delivered by Mode 2 (68.8%).
- £73 million of services imports were delivered by Mode 4 (3%).

Proportion of total trade flows of services with Greece by Modes 1, 2, & 4 in 2021 (%)

Source: ONS, 2021

¹⁹ ONS data source for UK Trade in Services by Mode of Supply: [ONS Imports and exports of services by country, by modes of supply, UK](#)

²⁰ Data included in this ONS release are experimental estimates.

UK Market Share (ONS and UNCTAD)^{21 22}

Market Share definitions

UK market share – Imports from the UK as a percentage of all the goods and services imported by Greece. Market share is provided for total imports from the UK, as well as for goods and services separately.

Market share methodology – These UK market share statistics are derived by the Department for Business and Trade, using publicly available data from the Office of National Statistics (ONS) and the United Nations Conference on Trade and Development (UNCTAD). These new statistics allows users to estimate the importance of UK trade on imports to each trading partner. Market share is calculated as the value of imports from the UK using data from [ONS](#), divided by the value of total imports using data from [UNCTAD](#). Data from UNCTAD are converted from US dollars into pounds sterling by using the annual average spot exchange rate²³.

The UK's market share for Greece in 2022 was as follows:

- **The total UK market share in Greece was 3.2% in 2022 for goods and services.** This is unchanged from 2021.
- The UK market share in Greece was 1.3% in 2022 for **goods only**. This is a decrease of 0.1 percentage points from 2021.
- The UK market share in Greece was 9.3% in 2022 for **services only**. This is an increase of 1.0 percentage points from 2021.

Number of VAT-registered businesses trading goods (HMRC)^{24 25 26}

Business counts definition (Regional Trade in Goods Statistics)

Business counts report UK VAT-registered business exporting and importing goods. Data is collected primarily from customs declarations (using the Intrastat survey and VAT returns for Northern Ireland businesses trading with the EU).

Counts exclude businesses trading below the statistical value thresholds for customs declarations and exclude trade in non-monetary gold.

Businesses trading with Greece in 2022:

- In 2022, around 6,800 UK VAT-registered businesses exported goods to Greece.
- In 2022, around 3,400 UK VAT-registered businesses imported goods from Greece.

Businesses trading with the world in 2022:

- In 2022, around 127,000 UK VAT-registered businesses exported goods to the world.
- In 2022, around 253,600 UK VAT-registered businesses imported goods from the world.

²¹ ONS data source for market share: [UK total trade data \(seasonally adjusted\)](#).

²² UNCTAD data source for market share: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#). Some UNCTAD data may be based on estimates.

²³ Annual average spot exchange rates for \$USD to £GBP are sourced from the [Bank of England](#).

²⁴ HMRC data source for Regional Trade Statistics business counts data: [UK trade in goods statistics](#).

²⁵ Data for UK businesses engaged in trade of services with Greece are not available. A single business may trade with multiple trading partners abroad, so care should be taken when adding figures for multiple trading partners.

²⁶ HMRC does not receive partner country information for customs declarations with commodity line values that fall under the statistical value threshold of £873 (in value) and 1,000kg (in net mass). Therefore, these counts of exporting/importing businesses only capture those businesses with exports/imports (respectively) above the statistical value threshold. The number of businesses has been rounded to the nearest 100.

Trade in Value Added (OECD)^{27 28}

Trade in Value Added definitions

Trade in Value Added (TiVA) - TiVA is a statistical approach to examine supply chains, which is not possible with conventional ('gross') trade statistics. This is because TiVA treats international trade flows as flows of value added rather than gross flows of final goods and services.

Domestic and foreign value added - In TiVA, gross exports are decomposed into domestic and foreign value added. Domestic value added measures the value added generated by the domestic economy in the production of its exports (e.g. the value added by UK car manufacturers and their UK supply chains in car exports). Foreign value added measures the value added contribution that foreign suppliers make to these exports (e.g. the import of foreign car parts).

TiVA statistics - Although TiVA offers advantages over traditional ways of measuring trade, these statistics are not fully developed. These results are estimates which should be considered complementary to conventional trade statistics and not be over-interpreted. In addition, the geographical detail is limited for developing countries. More information on TiVA can be found in a recent [research report](#) by the Department for Business and Trade and Cambridge Econometrics.

UK forward linkages for exports - Measures the reliance of foreign exporters on UK value added (inputs).

UK backward linkages for exports - Measures the reliance of UK exporters on foreign value added (inputs).

Employment supported by exports - This provides an estimate of the number of employees in exporting industries, and their domestic supply chains that are supported by exporting activity.

UK forward linkages for exports:

- **In 2020, 2.0% of the total value added in gross exports from Greece originated in the UK.**
- In 2020, 36.3% of the value added content in gross exports from Greece reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from Greece were Russia (5.3%), Kazakhstan (2.8%), and Germany (2.3%).

UK backward linkages for exports:

- **In 2020, less than 0.1% of the total value added in gross exports from the UK originated in Greece.**
- In 2020, 14.3% of the value added content in gross exports from the UK reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from the UK were United States (2.4%), Germany (1.5%), and China (1.2%).

Employment supported by exports:²⁹

- Exporting activity in Greece supported around 873,600 persons in 2020 (18.7% of total Greece employment). Exports to the UK supported around 44,900 jobs in Greece in 2020.
- Exporting activity in the UK supported 6.7 million persons in 2020 (20.6% of total UK employment). Exports to Greece supported around 30,800 jobs in the UK in 2020.

²⁷ The estimates in this factsheet are based on Trade in Value Added statistics published by the Organisation for Economic Co-operation and Development (OECD): a) [Trade in Value Added database \(origin of value added in gross exports\), January 2024](#); and b) [Trade in Employment \(TiM\) database: Principal indicators, January 2024](#), indicators EXGR_DEM and EMPN_EXGRDEM.

²⁸ The data shown in this factsheet is from 2020.

²⁹ These estimates measure employees directly and indirectly supported by exports i.e. workers employed in exporting businesses and in other domestic businesses supplying inputs to the exporting businesses. The estimates should be interpreted as employment *supported* by exports, rather than employment *created* by exports, as the jobs may have previously existed to serve the domestic market. Employees may also be supported by exports from a multiple number of trading partners. As with the core TiVA data, these estimates are based on a number of assumptions and modelling, so should be interpreted with caution.

Foreign Direct Investment with Greece (ONS)^{30 31 32}

Foreign direct investment definitions

Foreign direct investment (FDI) - Investment made by a firm or individual in one economy ('direct investor') to acquire a 'lasting interest' in an enterprise operating in another economy. The lasting interest is deemed to exist if the direct investor acquires at least 10% of equity, or equivalently 10% of the voting rights, of the company.

FDI stock - The accumulated value of all previous investments at the end of a reference period. Figures are net, that is the value of investment minus disinvestment. **UK outward FDI stock** provides the total value of FDI by UK investors in economies abroad (investment of a UK parent company in Greece), while **UK inward FDI stock** provides the total value of FDI by non-UK investors in the UK (investment of a Greece parent company in the UK).

Data disclosure - It can happen that FDI is coming from only a few investors. In that case, figures are suppressed by the ONS to avoid disclosure of information relating to individual enterprises.

Note: *The FDI data for 2020 have been affected by changes in sampling methodology. Improvements have been made to the population which has been sampled and the way that businesses are sampled from the population, capturing a wider range of businesses. This means data from 2020 and onward are more representative of UK FDI with overseas partners and are comparable.*

More information about the methodology changes can be found on the [ONS website](#).

UK outward FDI stock:

- In 2021, the **stock of FDI from the UK in Greece** was £1.8 billion, 11.3% or £184 million higher than in 2020. In 2021, Greece accounted for 0.1% of the total UK outward FDI stock.
- In 2021, the total UK FDI abroad was £1.8 trillion. In 2021, the **top destination for UK FDI** was United States, accounting for 26.1% of the total UK outward FDI stock, followed by Netherlands (8.8%) and Luxembourg (7.2%).

UK inward FDI stock:

- In 2021, the **stock of FDI from Greece in the UK** are not available due to data disclosure.
- In 2021, the total FDI in the UK in was £2.0 trillion. In 2021, the **top investor in the UK** was United States, accounting for 33.7% of the total UK inward FDI stock, followed by Netherlands (10.9%) and Jersey (9.6%).

³⁰ ONS data source for FDI statistics: [Foreign Direct Investment involving UK companies](#).

³¹ Data are presented on a directional basis which means they are not directly comparable to the asset/liability report prepared by ONS as part of the Balance of Payments statistical release. Figures are on net basis (investments minus disinvestments) and are given in nominal terms. Negative FDI values occur when disinvestments are greater than investments. Data are on an immediate destination/source basis and not an ultimate destination/source, which is likely to overstate financial centres such as the Netherlands and Luxembourg.

³² This factsheet contains data as reported by the UK and are subject to asymmetries e.g. UK outward FDI to Greece (reported by the UK) may not match Greece inward FDI from the UK (reported by Greece). For consistency when comparing between partners, users are advised to use UK-reported data as far as possible.

The chart below shows FDI between the UK and Greece between 2012 and 2021:

Source: ONS, 2021 FDI main release. Data are on a directional basis, data suppression can cause breaks in the trends.

The data that are presented in the charts above are given in the table below in £ million:

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
UK outward FDI stock	1301.0	1612.0	1442.0	544.0	272.0	321.0	251.0	1097.0	1630.0	1814.0
UK inward FDI stock	325.0	511.0	179.0	710.0	251.0	-124.0	-	-	-853.0	-

Economic statistics (as reported by Greece)

Trade and investment data for Greece (UNCTAD)^{33 34 35}

The following data are reported by Greece and are for reference only. Whenever possible use data from UK sources for trade and investment. All data below are presented in \$USD in billions.

Year	2015	2016	2017	2018	2019	2020	2021	2022
TRADE								
Nominal exports	62.6	60.2	69.6	82.1	81.3	59.0	88.0	106.5
Nominal imports	63.8	62.0	71.6	85.8	83.2	71.8	104.4	127.0
Nominal trade balance	-1.2	-1.8	-2.0	-3.7	-1.9	-12.8	-16.4	-20.6
INVESTMENT								
Inward FDI stock	24.1	24.6	33.4	35.7	45.2	39.1	42.1	49.2
Outward FDI stock	24.4	18.0	20.1	19.5	19.2	13.7	14.0	15.9

³³ United Nations Conference on Trade and Development (UNCTAD) data sources for trade: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#); and for investment: [Foreign direct investment: Inward and outward flows and stock, annual](#).

³⁴ Estimates are given in italics. Historic data pre-2015 can be found on the [UNCTAD website](#).

³⁵ All trade data are on a Balance of Payments basis. The FDI data are on a directional and net (investment minus disinvestment) basis. These figures are given in current prices and are rounded to the nearest \$0.1 billion, with missing data represented by dashes.

Economic data and projections for Greece (IMF)^{36 37}

The following table presents economic statistics for Greece. Projections include assumptions of the effects of COVID-19 and may be subject to change in the future. Estimated data, as well as projections up to 2028, are presented in italics and are subject to revision.

Year	2020	2021	2022	2023	2024	2025	2026	2027	2028
TRADE GROWTH									
Change in exports (%)	-22.9	23.1	9.2	3.3	2.6	3.0	2.9	2.9	2.7
Change in imports (%)	-1.9	11.4	3.0	1.0	2.2	2.0	2.0	1.6	1.4
CURRENT ACCOUNT									
Current account balance (% of GDP)	-7.3	-7.1	-10.1	-6.9	-6.0	-4.9	-4.4	-3.7	-3.2
GDP									
Change in real GDP (%)	-9.0	8.4	5.9	2.5	2.0	1.4	1.4	1.2	1.1
GDP per capita (1,000 \$USD)	17.6	20.1	21.0	23.2	24.5	25.5	26.4	27.2	27.9
GDP PPP (Int'l \$billion)	305.7	346.3	392.5	417.0	434.8	449.9	465.1	479.3	493.7
INFLATION									
Inflation, year average (CPI %)	-1.3	0.6	9.3	4.1	2.8	2.2	2.0	1.9	1.9
UNEMPLOYMENT									
Unemployment rate (% of total labour force)	16.3	14.8	12.4	10.8	9.3	8.0	7.2	6.4	5.7
POPULATION									
Population (million)	10.7	10.7	10.5	10.5	10.5	10.4	10.4	10.4	10.4
INVESTMENT-SAVINGS									
Total investment (% of GDP)	15.0	18.1	21.4	20.8	21.7	22.3	22.7	22.8	22.8
Gross national savings (% of GDP)	7.6	11.1	11.3	13.9	15.8	17.4	18.4	19.1	19.6
BUDGET DEFICIT-DEBT									
General government net lending/borrowing (% of GDP)	-10.5	-7.7	-2.3	-1.6	-0.8	-0.9	-0.9	-1.1	-1.2
General government gross debt (% of GDP)	212.4	200.7	178.1	168.0	160.2	155.7	151.4	148.2	145.3

Greece was the 55th largest economy in 2022, in terms of gross domestic product (GDP). The UK was the 6th largest economy in 2022.³⁸

³⁶ International Monetary Fund (IMF) provide economic commentary in their [World Economic Outlook reports](#). The latest data presented here can be found in the [World Economic Database, October 2023](#).

³⁷ Projections and estimates are given in italics. More information for each metric and each partner, as well as historic data pre-2020, can be found on the [IMF website](#).

³⁸ GDP ranking based on values in current prices (nominal terms) in \$USD. Some GDP values for partners are based on estimates which may influence the rankings when revised.

Top goods traded with the world by Greece, in current prices (UN Comtrade)^{39 40}

Data presented here show the top commodities traded with the world, not solely the UK, by Greece. These data are based on a different commodity classification system to the ONS commodity data used earlier in this factsheet, and the two sections should therefore not be directly compared.

Top goods exported to the world by Greece in 2023:

Rank	HS Commodity	\$USD billion	% of total goods exported
1	27 - Mineral fuels or oils, products of their distillation	17.8	32.4%
2	30 - Pharmaceutical products	3.0	5.5%
3	76 - Aluminum and articles thereof	2.7	4.9%
4	85 - Electrical machinery and equipment	2.4	4.3%
5	84 - Machinery and mechanical appliances	2.4	4.3%
6	20 - Preparations of veg, fruit or nuts	1.7	3.0%
7	39 - Plastics and articles thereof	1.6	3.0%
8	15 - Animal or vegetable fats and oils	1.6	2.9%
9	08 - Edible fruit and nuts	1.5	2.8%
10	04 - Dairy produce; birds' eggs	1.5	2.6%
	All goods exported	55.1	100.0%

Top goods imported from the world by Greece in 2023:

Rank	HS Commodity	\$USD billion	% of total goods imported
1	27 - Mineral fuels or oils, products of their distillation	24.6	27.8%
2	84 - Machinery and mechanical appliances	6.0	6.8%
3	85 - Electrical machinery and equipment	5.9	6.7%
4	87 - Vehicles other than railway or tramway stock	4.8	5.4%
5	30 - Pharmaceutical products	4.4	4.9%
6	99 - Commodities not specified according to kind	3.0	3.4%
7	39 - Plastics and articles thereof	2.8	3.2%
8	29 - Organic chemicals	2.4	2.7%
9	72 - Iron and steel	1.8	2.1%
10	02 - Meat and edible meat	1.7	1.9%
	All goods imported	88.6	100.0%

³⁹ United Nations (UN) Comtrade data are sourced from the online [UN Comtrade Database](#). The data reported above are for 2023, but as the data upload to UN Comtrade is continuous, more timely data may be available from the source.

⁴⁰ Data are classified using the [Harmonized System](#) and are given on a physical movement basis, with UK data comparable to HMRC data sources rather than the headline trade figures presented here from ONS.

Top services traded with the world by Greece, in current prices (ITC Trade Map)^{41 42 43}

Data presented here shows the top service types traded to the world, not solely the UK, by Greece.

Top services exported to the world by Greece in 2022:

Rank	EBOPS Service Type	\$USD billion	% of total services exported
1	Transport	24.7	49.2%
2	Travel	18.6	37.1%
3	Other business services	2.9	5.8%
4	Telecommunications, computer, and information services	1.3	2.6%
5	Financial services	0.7	1.3%
	All services exported	50.1	100.0%

Top services imported from the world by Greece in 2022:

Rank	EBOPS Service Type	\$USD billion	% of total services imported
1	Transport	20.6	69.6%
2	Travel	2.0	6.8%
3	Other business services	2.0	6.8%
4	Insurance and pension services	1.9	6.3%
5	Telecommunications, computer, and information services	1.0	3.3%
	All services imported	29.6	100.0%

⁴¹ International Trade Centre (ITC) Trade Map data are sourced from the online [ITC Trade Map tool](#). The data above are for 2022, but as the data upload to ITC is continuous, more timely data may be available from the source.

⁴² Data are classified on the [EBOPS 2010](#) basis. 'Other business services' include: Research and development, professional and management consulting services, technical services and trade related services. A full description of all service types can be found on the [UN Statistics Division website](#).

⁴³ Estimates are shown in italics, where for some partners only estimates are available - These data have been included for information and should be treated with caution.

Background Notes

This document is one of a wider set of factsheets between the UK and its individual trade and investment partners which can be found on the [Trade and Investment Factsheets website](#). All of these factsheets are published as [Official Statistics](#) as defined by the [UK Statistics Authority](#), and are compliant with the [Code of Practice for Statistics](#) where they meet user needs as well as promoting trustworthiness, quality and public value in Government statistics. The publication of these factsheets as Official Statistics was agreed by the Chief Statistician at the Department for Business and Trade, who monitors these factsheets to ensure they continue to adhere to the [Code of Practice for Statistics](#). These factsheets have not been formally assessed by the [Office of Statistics Regulation](#) and are therefore not designated as [National Statistics](#).

As a requisite of publishing as Official Statistics, a [quality and methodology report](#) has been produced which outlines the quality of these factsheets, as well as providing more information on the methodology of the data sources presented here. This report contains hyperlinks to information on the strengths and weaknesses for each data source. Statistics contained in the factsheets from UK data providers all come from Official Statistics publications, with some sources also being from National Statistics publications.

Future updates of these factsheets can be found on the [Government update schedule for Official Statistics](#). These scheduled updates are in line with significant updates from UK data providers when they release new data. Unscheduled releases of the factsheets may also be necessary to accommodate data updates where little or no advanced notice are given, such as in the case of international data updates. Please see the data update schedule and revisions policy in the [quality and methodology report](#) for more information. Please note that there may be occasions where more recent data than is provided here can be found directly from the data providers.

The Department for Business and Trade welcome any feedback or comments on these factsheets, please send these to statistics@businessandtrade.gov.uk.
