Trade and Investment Factsheets

Kazakhstan

This factsheet provides the latest statistics on trade and investment between the UK and Kazakhstan.

Date of release: 22 February 2024; Date of next planned release: 21 March 2024

Total trade in goods and services (exports plus imports) between the UK and Kazakhstan was **£2.6 billion** in the four quarters to the end of Q3 2023, a decrease of 5.4% or £147 million in current prices from the four quarters to the end of Q3 2022. Of this £2.6 billion:

- Total UK **exports** to Kazakhstan amounted to £1.8 billion in the four quarters to the end of Q3 2023 (an increase of 89.2% or £851 million in current prices, compared to the four quarters to the end of Q3 2022);
- Total UK **imports** from Kazakhstan amounted to £777 million in the four quarters to the end of Q3 2023 (a decrease of 56.2% or £998 million in current prices, compared to the four quarters to the end of Q3 2022).

Kazakhstan was the UK's 61st largest trading partner in the four quarters to the end of Q3 2023 accounting for 0.1% of total UK trade.¹

In 2021, the **outward stock of foreign direct investment (FDI)** from the UK in Kazakhstan was £237 million.

In 2021, the **inward stock of foreign direct investment (FDI)** in the UK from Kazakhstan are not available due to data disclosure.²

¹ Trade data sourced from the latest ONS publication of [UK total trade: all countries seasonally adjusted](#) data.

² Investment data sourced from the ONS [ad-hoc data release](#) if not provided in the latest ONS [main FDI release](#).

About these statistics

This factsheet presents the latest statistics on trade and investment between the UK and Kazakhstan. It summarises a wide range of publicly available data, from data providers such as the Office for National Statistics (ONS) and HM Revenue and Customs (HMRC), as well as international data providers.

This factsheet is part of a wider range produced by the Department for Business and Trade which draws together many data sources into one single compendium document for each individual trade and investment partner. The full set of factsheets for different individual partners can be found on the [Trade and Investment Factsheets website](#) on GOV.UK.

Where data are available, these factsheets contain metrics on:

- [Headline trade statistics between the UK and each trading partner for the latest four quarters.](#)
- [Trade statistics by commodity and service type.](#)
- [Trade between the UK and each trading partner, broken down by UK country and English region.](#)
- [Trade in services between the UK and each trading partner, broken down by mode of supply](#)
- [UK's market share as a total of all imports for each trading partner.](#)
- [Number of VAT-registered businesses trading goods.](#)
- [UK's Foreign Direct Investment \(FDI\) with each investment partner.](#)
- [Summary trade and investment data as reported by each trade and investment partner, as well as economic data and projections.](#)

All statistics are correct at the time of publication, with upcoming release dates available on the [Government update schedule for Official Statistics](#). The Department for Business and Trade strongly recommends users download the latest factsheet to ensure the most up-to-date statistics are used as some statistics are revised on a regular basis.

For the most up to date snapshot of the UK's trade and investment position with all partners, please see the [UK trade in numbers](#) publication or the [trade and investment core statistics book](#). These statistics are based on the same data sources as this factsheet and therefore are comparable. A list of all [Official Statistics](#) publications from the Department for Business and Trade can be found online.

Summary trade and investment statistics for Kazakhstan

[UK trade](#) with Kazakhstan, in current prices (based on the latest four quarters)³:

Trade	Value in the four quarters to the end of Q3 2023	Change from the four quarters to the end of Q3 2022
Total trade	£2.6 billion	a decrease of 5.4% or £147 million
Ranking out of all the UK's trading partners	61st	
Total UK exports	£1.8 billion	an increase of 89.2% or £851 million
Ranking out of all the UK's export partners	52nd	
UK exports in goods (percentage of total UK exports that were goods)	£399 million (22.1%)	an increase of 20.2% or £67 million
UK exports in services (percentage of total UK exports that were services)	£1.4 billion (77.9%)	an increase of 126.0% or £784 million
Total UK imports	£777 million	a decrease of 56.2% or £998 million
Ranking out of all the UK's import partners	77th	
UK imports in goods (percentage of total UK imports that were goods)	£510 million (65.6%)	a decrease of 68.4% or £1.1 billion
UK imports in services (percentage of total UK imports that were services)	£267 million (34.4%)	an increase of 64.8% or £105 million

[UK market share](#) in Kazakhstan⁴:

UK market share for total trade	Value in 2022	Change from 2021
Total UK market share	2.3%	0.2 percentage points
UK market share for goods only	0.8%	0.3 percentage points
UK market share for services only	9.8%	0.2 percentage points

[UK Foreign Direct Investment \(FDI\)](#) with Kazakhstan⁵:

UK FDI	Value in 2021	Change from 2020
Total UK outward FDI	£237 million	Not available due to data disclosure
Total UK inward FDI	Data not available due to data disclosure	Comparison not available

[Economic statistics](#) and projections using gross domestic product (GDP) for Kazakhstan⁶:

Economic statistics	2020	2021	2022	2023
Economic growth, using GDP in real terms, compared to the previous year	-2.6%	4.1%	3.3%	4.8%
GDP per capita in \$USD (in thousands)	9.1	10.1	11.4	13.0

Kazakhstan was the 54th largest economy in 2022, in terms of gross domestic product (GDP).

³ Trade data sourced from Office for National Statistics data on [UK total trade \(seasonally adjusted data\)](#).

⁴ UK market share data calculated using the methodology outlined in the [market share section](#) in the factsheet, based on data from the Office for National Statistics and United Nations Conference on Trade and Development.

⁵ FDI data sourced from the Office for National Statistics [ad-hoc data release for FDI with all partners](#).

⁶ Economic data sourced from the International Monetary Fund [World Economic Outlook](#) databases; Estimates and projections are given in italics; GDP rankings where provided are based on values in current prices (nominal terms) in \$USD, where some partner values are based on estimates which may influence the rankings when revised.

Trade with Kazakhstan, in current prices (ONS)^{7 8 9}

Trade definitions

UK exports - Goods and services that were produced or sourced in the UK, which were sold to Kazakhstan.

UK imports - Goods and services that were sold to the UK, which were produced or sourced by Kazakhstan.

Total or 'bilateral' trade - The value of total trade between the UK and Kazakhstan (exports plus imports).

Trade balance - The difference between exports and imports, calculated by UK exports minus UK imports.

Trade surplus - This occurs when the value of UK exports to Kazakhstan is greater than the value of UK imports from Kazakhstan.

Trade deficit - This occurs when the value of UK exports to Kazakhstan is less than the value of UK imports from Kazakhstan.

Headline trade statistics include trade in non-monetary gold (reported within the unspecified goods category), which can significantly affect trends for some partners. Please see the factsheet [quality and methodology report](#) for more information. These statistics are given on a balance of payments (change of ownership) basis.

Note: The latest data include trade between October 2022 and September 2023. Trade has been affected by the COVID-19 pandemic and the associated lockdown measures globally. Consequently, data quality has been affected and may be subject to larger revisions than normal. All figures are reported in current prices (not adjusted for inflation), unless otherwise stated. We recognise that some of the recent increases in UK trade values will be partly due to price increases.

Total trade in goods and services (exports plus imports) between the UK and Kazakhstan was £2.6 billion in the four quarters to the end of Q3 2023, a decrease of 5.4% or £147 million in current prices from the four quarters to the end of Q3 2022.

In the four quarters to the end of Q3 2023, **total UK exports** to Kazakhstan amounted to £1.8 billion (an increase of 89.2% or £851 million in current prices, compared to the four quarters to the end of Q3 2022).

Of all UK exports to Kazakhstan in the four quarters to the end of Q3 2023, £399 million (22.1%) were **goods** and £1.4 billion (77.9%) were **services**. In the four quarters to the end of Q3 2023, **UK exports of goods** to Kazakhstan increased by 20.2% or £67 million in current prices, compared to the four quarters to the end of Q3 2022 while **UK exports of services** to Kazakhstan increased by 126.0% or £784 million in current prices, compared to the four quarters to the end of Q3 2022.

In the four quarters to the end of Q3 2023, **total UK imports** from Kazakhstan were £777 million (a decrease of 56.2% or £998 million in current prices, compared to the four quarters to the end of Q3 2022).

Of all UK imports from Kazakhstan in the four quarters to the end of Q3 2023, £510 million (65.6%) were **goods** and £267 million (34.4%) were **services**. In the same period, **UK imports of goods** from Kazakhstan decreased by 68.4% or £1.1 billion in current prices, compared to the four quarters to the end of Q3 2022 while **UK imports of services** from Kazakhstan increased by 64.8% or £105 million in current prices, compared to the four quarters to the end of Q3 2022.

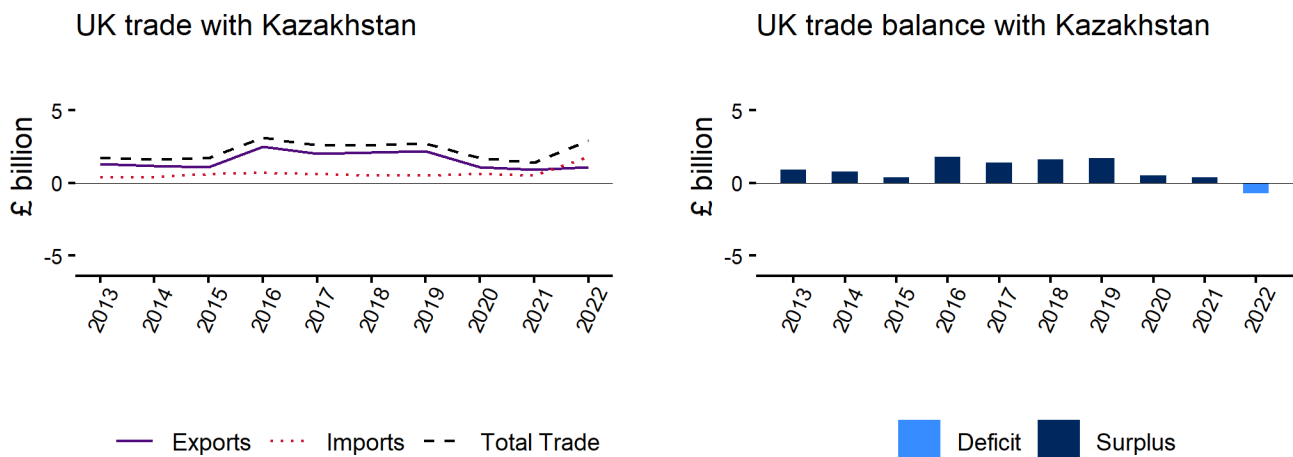

This means the UK reported a **total trade surplus** of £1.0 billion with Kazakhstan, compared to a trade deficit of £821 million in the four quarters to the end of Q3 2022. In the four quarters to the end of Q3 2023, the UK had a **trade in goods deficit** of £111 million with Kazakhstan, compared to a trade in goods deficit of £1.3 billion in the four quarters to the end of Q3 2022. Meanwhile, in the four quarters to the end of Q3 2023 the UK reported a **trade in services surplus** of £1.1 billion with Kazakhstan, compared to a trade in services surplus of £460 million in the four quarters to the end of Q3 2022.

⁷ Office of National Statistics (ONS) data source for total trade: [UK total trade data \(seasonally adjusted\)](#).

⁸ This factsheet contains data as reported by the UK, users are advised to use UK-reported data where possible for consistency between partners. These data are subject to [asymmetries](#) e.g. the value of UK exports to Kazakhstan (reported by the UK) may not match the value of Kazakhstan imports from the UK (reported by Kazakhstan).

⁹ Data are in nominal terms, meaning no adjustment has been made to account for changes in inflation or exchange rate. The totals may not exactly match the sum of their parts due to rounding.

The charts below present a time series for trade between the UK and Kazakhstan for each year between 2013 and 2022:

Source: ONS, UK trade in goods and services, Q3 2023

The data that are presented in the charts above are given in the table below in £ billion:

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022
Value of total trade	1.7	1.6	1.7	3.1	2.6	2.6	2.7	1.7	1.4	2.9
Value of exports	1.3	1.2	1.1	2.5	2.0	2.1	2.2	1.1	0.9	1.1
Value of imports	0.4	0.4	0.6	0.7	0.6	0.5	0.5	0.6	0.5	1.8
Trade balance	+0.9	+0.8	+0.4	+1.8	+1.4	+1.6	+1.7	+0.5	+0.4	-0.7

In the four quarters to the end of Q3 2023, Kazakhstan was the UK's:¹⁰

- **61st largest trading partner** (accounting for 0.1% of total UK trade).
 - 68th largest **goods** trading partner (0.1% of UK goods trade).
 - 51st largest **services** trading partner (0.2% of UK services trade).
- **52nd largest export market** (accounting for 0.2% of total UK exports).
 - 67th largest **goods** export market (0.1% of UK goods exports).
 - 45th largest **services** export market (0.3% of UK services exports).
- **77th largest import market** (accounting for 0.1% of total UK imports).
 - 68th largest **goods** import market (0.1% of UK goods imports).
 - 80th largest **services** import market (0.1% of UK services imports).

More timely data, for trade in goods only¹¹, show that UK exports of goods to Kazakhstan increased by 4.3% the 12 months to December 2023 in current prices, compared to the same period the previous year. UK imports of goods from Kazakhstan decreased by 70.9%, in current prices, over the same period.

Note: As these data are presented for the 12 months ending December 2023, the UK and its trading partners have been affected by lockdown and other measures during the COVID-19 pandemic. Data quality has also been affected and may be subject to larger revisions than usual. Please note, these data are in current prices.

¹⁰ Rankings are based on the ONS dataset which contains data for all individual partners: [UK total trade data \(seasonally adjusted\)](#).

¹¹ ONS data source for trade in the latest 12 months up to December 2023: [UK Trade data \(seasonally adjusted\)](#).

Trade in goods by commodity, in current prices (ONS)^{12 13}

Please note, these data are presented on a non-seasonally adjusted basis and are not directly comparable to seasonally adjusted data, including the headline trade statistics presented before.

The **top 5 goods exported by the UK to Kazakhstan** in the four quarters to the end of Q3 2023 were:

- 1 - Beverages & tobacco (£33.8 million or 9.3% of all UK goods exported to Kazakhstan)
- 72K - Specialised machinery (capital) (£30.9 million or 8.5%)
- 74I - General industrial machinery (intermediate) (£25.5 million or 7.1%)
- 78M - Cars (£24.6 million or 6.8%)
- 87K - Scientific instruments (capital) (£22.3 million or 6.2%)

The **top 5 goods imported by the UK from Kazakhstan** in the four quarters to the end of Q3 2023 were:

- 68 - Non-ferrous metals (£325.5 million or 63.8% of all UK goods imported from Kazakhstan)
- 33O - Crude oil (£94.2 million or 18.5%)
- 52 - Inorganic chemicals (£40.9 million or 8.0%)
- 32 - Coal, coke & briquettes (£13.6 million or 2.7%)
- 71MI - Mechanical power generators (intermediate) (£11.6 million or 2.3%)

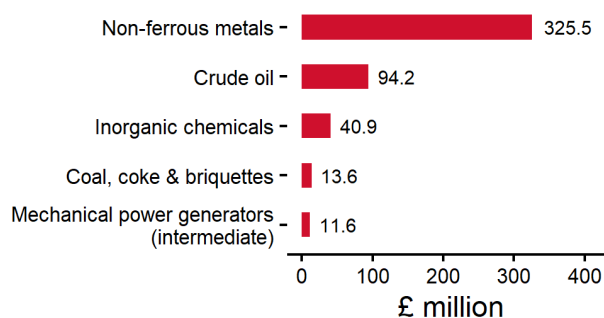

The chart below shows the top 5 products exported by the UK to Kazakhstan and the top 5 products imported by the UK from Kazakhstan, by value, in the four quarters to the end of Q3 2023. All data shown in the chart are provided in the text above.

The top 5 UK goods exports, in the four quarters to the end of Q3 2023, to Kazakhstan

Source: ONS, December 2023

The top 5 UK goods imports, in the four quarters to the end of Q3 2023, from Kazakhstan

Source: ONS, December 2023

¹² Data on trade in goods by commodity are sourced from data by the ONS: [UK trade release \(non-seasonally adjusted\)](#). These statistics for [exports](#) and [imports](#) present the latest data from the December 2023 ONS publication which are given on a monthly basis.

¹³ The commodities are categorised based on [SITC](#) codes using a mixture of level 2 and level 3 codes.

Trade in services by service type, in current prices (ONS)¹⁴

Note: Service type data for the trade in services between the UK and Kazakhstan in the four quarters to the end of Q3 2023 are not available from UK sources.

¹⁴ Trade in services by service type is sourced from data by the ONS: [UK trade in services by partner country \(non-seasonally adjusted\)](#).

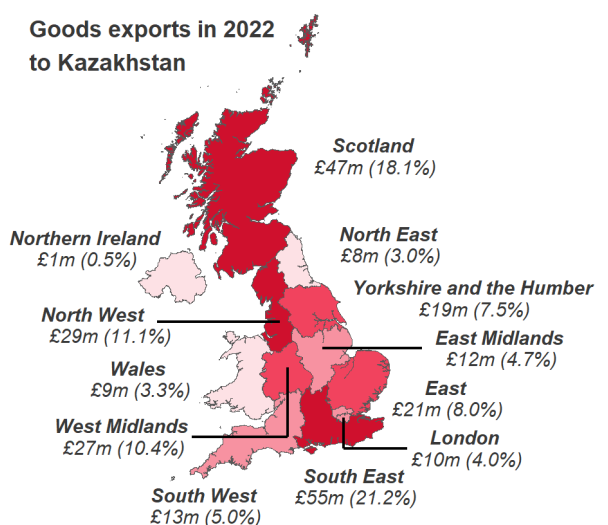

Trade in goods by UK countries and English regions, in current prices (HMRC)^{15 16}

Regional trade definitions

UK regions - The UK is categorised into 12 regions based on the International Territorial level 1 (ITL1). This level includes 9 regions in England, as well as Wales, Scotland and Northern Ireland.

Regional trade data - The data are compiled by merging HM Revenues & Customs (HMRC) trade data with employment data from the Interdepartmental Business Register (IDBR) so a business' trade can be allocated to a UK region based on the proportion of its employees employed in that region. Where a trader is not matched with the IDBR, its trade is matched with ONS postcode data to obtain the UK region in which the Head Office of the VAT-registered business is based.

The maps below show the value of UK goods exports and imports between each UK region and Kazakhstan in 2022. The maps are shaded with the 3 UK regions with the highest amount of trade as the darkest colour, and the 3 UK regions with the lowest amount of trade as the lightest colour.

Source: HMRC, December 2023

Contains Ordnance Survey and National Statistics data © Crown copyright and database right [2017]

Source: HMRC, December 2023

The data that are presented in the maps above for 2022 in £ million are also given in the table below:

UK country or English region	North East	North West	Yorkshire and the Humber	East Midlands	West Midlands	East	London	South East	South West	Wales	Scotland	Northern Ireland
Value of goods exports to Kazakhstan	8	29	19	12	27	21	10	55	13	9	47	1
Percentage of total goods exports to Kazakhstan	3.0%	11.1%	7.5%	4.7%	10.4%	8.0%	4.0%	21.2%	5.0%	3.3%	18.1%	0.5%
Value of goods imports from Kazakhstan	0	0	49	1	7	22	223	446	82	21	101	0
Percentage of total goods imports from Kazakhstan	0.0%	0.0%	5.1%	0.1%	0.7%	2.3%	23.2%	46.5%	8.5%	2.2%	10.5%	0.0%

Note that these figures from HMRC are reported on a physical movement basis and are **not directly comparable** to trade data from ONS which are reported on a change of ownership basis. **Percentages will not total 100%** as data not allocated to a single UK country or English region are not presented.

¹⁵ HMRC data source for regional UK trade data: [HMRC Regional Trade Statistics](#) (data extracted from the spreadsheet download using the HMRC [interactive tables](#)).

¹⁶ Totals presented here will differ from overall HMRC trade figures due to the exclusion of trade in non-monetary gold and non-response estimates and the exclusion of data not allocated to a UK country or region. Figures for 2022 are provisional and subject to change.

Trade in services by mode of supply, in current prices (ONS)^{17 18}

Trade in Services by Mode of Supply definitions

Modes of Supply define the way services trade is conducted. The World Trade Organisation's [General Agreement on Services](#) categorises methods for trade in services into four different modes of supply, which depend upon on the territorial presence of the supplier and the consumer at the time of transaction.

Mode 1 - Remote trade (a supplier in one country sells a service to a customer in another, without the movement of people).

Mode 2 - Consumption abroad (the person receiving the service travels to the supplier's country).

Mode 3 - Commerical presence (e.g. a company subsidiary) - this mode is not counted as part of UK services trade on a balance of payments basis and is not reported in this release. This means that total figures are only the total of Modes 1, 2 and 4.

Mode 4 - Presence of natural persons (a supplier sends its personnel to the customer's country to provide service).

UK services exports to Kazakhstan by mode of supply in 2021:

- Data on services exports to Kazakhstan by mode of supply are not available from this source.

UK services imports from Kazakhstan by mode of supply in 2021:

- Data on services imports from Kazakhstan by mode of supply are not available from this source.

¹⁷ ONS data source for UK Trade in Services by Mode of Supply: [ONS Imports and exports of services by country, by modes of supply, UK](#)

¹⁸ Data included in this ONS release are experimental estimates.

UK Market Share (ONS and UNCTAD)^{19 20}

Market Share definitions

UK market share – Imports from the UK as a percentage of all the goods and services imported by Kazakhstan. Market share is provided for total imports from the UK, as well as for goods and services separately.

Market share methodology – These UK market share statistics are derived by the Department for Business and Trade, using publicly available data from the Office of National Statistics (ONS) and the United Nations Conference on Trade and Development (UNCTAD). These new statistics allows users to estimate the importance of UK trade on imports to each trading partner. Market share is calculated as the value of imports from the UK using data from [ONS](#), divided by the value of total imports using data from [UNCTAD](#). Data from UNCTAD are converted from US dollars into pounds sterling by using the annual average spot exchange rate²¹.

The UK's market share for Kazakhstan in 2022 was as follows:

- **The total UK market share in Kazakhstan was 2.3% in 2022 for goods and services.** This is a decrease of 0.2 percentage points from 2021.
- The UK market share in Kazakhstan was 0.8% in 2022 for **goods only**. This is a decrease of 0.3 percentage points from 2021.
- The UK market share in Kazakhstan was 9.8% in 2022 for **services only**. This is an increase of 0.2 percentage points from 2021.

Number of VAT-registered businesses trading goods (HMRC)^{22 23 24}

Business counts definition (Regional Trade in Goods Statistics)

Business counts report UK VAT-registered business exporting and importing goods. Data is collected primarily from customs declarations (using the Intrastat survey and VAT returns for Northern Ireland businesses trading with the EU).

Counts exclude businesses trading below the statistical value thresholds for customs declarations and exclude trade in non-monetary gold.

Businesses trading with Kazakhstan in 2022:

- In 2022, around 1,700 UK VAT-registered businesses exported goods to Kazakhstan.
- In 2022, around 100 UK VAT-registered businesses imported goods from Kazakhstan.

Businesses trading with the world in 2022:

- In 2022, around 127,000 UK VAT-registered businesses exported goods to the world.
- In 2022, around 253,600 UK VAT-registered businesses imported goods from the world.

¹⁹ ONS data source for market share: [UK total trade data \(seasonally adjusted\)](#).

²⁰ UNCTAD data source for market share: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#). Some UNCTAD data may be based on estimates.

²¹ Annual average spot exchange rates for \$USD to £GBP are sourced from the [Bank of England](#).

²² HMRC data source for Regional Trade Statistics business counts data: [UK trade in goods statistics](#).

²³ Data for UK businesses engaged in trade of services with Kazakhstan are not available. A single business may trade with multiple trading partners abroad, so care should be taken when adding figures for multiple trading partners.

²⁴ HMRC does not receive partner country information for customs declarations with commodity line values that fall under the statistical value threshold of £873 (in value) and 1,000kg (in net mass). Therefore, these counts of exporting/importing businesses only capture those businesses with exports/imports (respectively) above the statistical value threshold. The number of businesses has been rounded to the nearest 100.

Trade in Value Added (OECD)^{25 26}

Trade in Value Added definitions

Trade in Value Added (TiVA) - TiVA is a statistical approach to examine supply chains, which is not possible with conventional ('gross') trade statistics. This is because TiVA treats international trade flows as flows of value added rather than gross flows of final goods and services.

Domestic and foreign value added - In TiVA, gross exports are decomposed into domestic and foreign value added. Domestic value added measures the value added generated by the domestic economy in the production of its exports (e.g. the value added by UK car manufacturers and their UK supply chains in car exports). Foreign value added measures the value added contribution that foreign suppliers make to these exports (e.g. the import of foreign car parts).

TiVA statistics - Although TiVA offers advantages over traditional ways of measuring trade, these statistics are not fully developed. These results are estimates which should be considered complementary to conventional trade statistics and not be over-interpreted. In addition, the geographical detail is limited for developing countries. More information on TiVA can be found in a recent [research report](#) by the Department for Business and Trade and Cambridge Econometrics.

UK forward linkages for exports - Measures the reliance of foreign exporters on UK value added (inputs).

UK backward linkages for exports - Measures the reliance of UK exporters on foreign value added (inputs).

Employment supported by exports - This provides an estimate of the number of employees in exporting industries, and their domestic supply chains that are supported by exporting activity.

UK forward linkages for exports:

- **In 2020, 0.5% of the total value added in gross exports from Kazakhstan originated in the UK.**
- In 2020, 14.6% of the value added content in gross exports from Kazakhstan reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from Kazakhstan were Russia (4.3%), China (2.0%), and South Korea (1.2%).

UK backward linkages for exports:

- **In 2020, less than 0.1% of the total value added in gross exports from the UK originated in Kazakhstan.**
- In 2020, 14.3% of the value added content in gross exports from the UK reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from the UK were United States (2.4%), Germany (1.5%), and China (1.2%).

Employment supported by exports:²⁷

- Exporting activity in Kazakhstan supported 1.4 million persons in 2020 (16.1% of total Kazakhstan employment). Exports to the UK supported around 5,600 jobs in Kazakhstan in 2020.
- Exporting activity in the UK supported 6.7 million persons in 2020 (20.6% of total UK employment). Exports to Kazakhstan supported around 17,600 jobs in the UK in 2020.

²⁵ The estimates in this factsheet are based on Trade in Value Added statistics published by the Organisation for Economic Co-operation and Development (OECD): a) [Trade in Value Added database \(origin of value added in gross exports\), January 2024](#); and b) [Trade in Employment \(TiM\) database: Principal indicators, January 2024](#), indicators EXGR_DEM and EMPN_EXGRDEM.

²⁶ The data shown in this factsheet is from 2020.

²⁷ These estimates measure employees directly and indirectly supported by exports i.e. workers employed in exporting businesses and in other domestic businesses supplying inputs to the exporting businesses. The estimates should be interpreted as employment *supported* by exports, rather than employment *created* by exports, as the jobs may have previously existed to serve the domestic market. Employees may also be supported by exports from a multiple number of trading partners. As with the core TiVA data, these estimates are based on a number of assumptions and modelling, so should be interpreted with caution.

Foreign Direct Investment with Kazakhstan (ONS)^{28 29 30}

Foreign direct investment definitions

Foreign direct investment (FDI) - Investment made by a firm or individual in one economy ('direct investor') to acquire a 'lasting interest' in an enterprise operating in another economy. The lasting interest is deemed to exist if the direct investor acquires at least 10% of equity, or equivalently 10% of the voting rights, of the company.

FDI stock - The accumulated value of all previous investments at the end of a reference period. Figures are net, that is the value of investment minus disinvestment. **UK outward FDI stock** provides the total value of FDI by UK investors in economies abroad (investment of a UK parent company in Kazakhstan), while **UK inward FDI stock** provides the total value of FDI by non-UK investors in the UK (investment of a Kazakhstan parent company in the UK).

Data disclosure - It can happen that FDI is coming from only a few investors. In that case, figures are suppressed by the ONS to avoid disclosure of information relating to individual enterprises.

Note: *The FDI data for 2020 have been affected by changes in sampling methodology. Improvements have been made to the population which has been sampled and the way that businesses are sampled from the population, capturing a wider range of businesses. This means data from 2020 and onward are more representative of UK FDI with overseas partners and are comparable.*

More information about the methodology changes can be found on the [ONS website](#).

UK outward FDI stock:

- In 2021, the **stock of FDI from the UK in Kazakhstan** was £237 million. A comparison with the previous year is not available due to data disclosure. In 2021, Kazakhstan accounted for less than 0.1% of the total UK outward FDI stock.
- In 2021, the total UK FDI abroad was £1.8 trillion. In 2021, the **top destination for UK FDI** was United States, accounting for 26.1% of the total UK outward FDI stock, followed by Netherlands (8.8%) and Luxembourg (7.2%).

UK inward FDI stock:

- In 2021, the **stock of FDI from Kazakhstan in the UK** are not available due to data disclosure.
- In 2021, the total FDI in the UK in was £2.0 trillion. In 2021, the **top investor in the UK** was United States, accounting for 33.7% of the total UK inward FDI stock, followed by Netherlands (10.9%) and Jersey (9.6%).

²⁸ Data for both inward and outward FDI between the UK and Kazakhstan are not available in the main ONS release ([Foreign Direct Investment involving UK companies](#)). Therefore, an [ONS FDI ad-hoc data release](#) is used to provide the latest FDI data for Kazakhstan where it is unavailable in the main ONS release.

²⁹ Data are presented on a directional basis which means they are not directly comparable to the asset/liability report prepared by ONS as part of the Balance of Payments statistical release. Figures are on net basis (investments minus disinvestments) and are given in nominal terms. Negative FDI values occur when disinvestments are greater than investments. Data are on an immediate destination/source basis and not an ultimate destination/source, which is likely to overstate financial centres such as the Netherlands and Luxembourg.

³⁰ This factsheet contains data as reported by the UK and are subject to asymmetries e.g. UK outward FDI to Kazakhstan (reported by the UK) may not match Kazakhstan inward FDI from the UK (reported by Kazakhstan). For consistency when comparing between partners, users are advised to use UK-reported data as far as possible.

Economic statistics (as reported by Kazakhstan)

Trade and investment data for Kazakhstan (UNCTAD)^{31 32 33}

The following data are reported by Kazakhstan and are for reference only. Whenever possible use data from UK sources for trade and investment. All data below are presented in \$USD in billions.

Year	2015	2016	2017	2018	2019	2020	2021	2022
TRADE								
Nominal exports	47.6	43.1	55.9	66.3	67.2	49.3	71.6	93.9
Nominal imports	44.9	36.4	41.1	47.1	52.4	46.1	49.1	58.9
Nominal trade balance	2.7	6.7	14.8	19.3	14.8	3.2	22.5	35.0
INVESTMENT								
Inward FDI stock	133.3	143.1	146.8	150.6	152.6	151.9	152.8	154.2
Outward FDI stock	26.8	23.4	20.5	16.9	15.7	13.9	15.6	22.1

³¹ United Nations Conference on Trade and Development (UNCTAD) data sources for trade: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#); and for investment: [Foreign direct investment: Inward and outward flows and stock, annual](#).

³² Estimates are given in italics. Historic data pre-2015 can be found on the [UNCTAD website](#).

³³ All trade data are on a Balance of Payments basis. The FDI data are on a directional and net (investment minus disinvestment) basis. These figures are given in current prices and are rounded to the nearest \$0.1 billion, with missing data represented by dashes.

Economic data and projections for Kazakhstan (IMF)^{34 35}

The following table presents economic statistics for Kazakhstan. Projections include assumptions of the effects of COVID-19 and may be subject to change in the future. Estimated data, as well as projections up to 2028, are presented in italics and are subject to revision.

Year	2020	2021	2022	2023	2024	2025	2026	2027	2028
TRADE GROWTH									
Change in exports (%)	-9.6	-3.8	1.7	11.8	5.2	6.8	1.0	3.6	3.1
Change in imports (%)	-27.4	-11.0	12.5	13.3	3.0	3.9	3.5	1.4	1.3
CURRENT ACCOUNT									
Current account balance (% of GDP)	-6.4	-1.3	3.5	-1.5	-0.7	-0.6	-2.3	-2.7	-2.9
GDP									
Change in real GDP (%)	-2.6	4.1	3.3	4.8	3.1	5.7	1.8	3.1	3.0
GDP per capita (1,000 \$USD)	9.1	10.1	11.4	13.0	14.4	15.1	15.6	16.2	16.8
GDP PPP (Int'l \$billion)	501.8	545.8	603.3	654.1	696.9	743.4	771.8	810.3	849.9
INFLATION									
Inflation, year average (CPI %)	6.8	8.0	15.0	15.0	9.0	6.7	5.8	5.1	5.0
UNEMPLOYMENT									
Unemployment rate (% of total labour force)	4.9	4.9	4.9	4.8	4.8	4.8	4.8	4.8	4.8
POPULATION									
Population (million)	18.9	19.5	19.8	20.0	20.2	20.4	20.6	20.8	21.1
INVESTMENT-SAVINGS									
Total investment (% of GDP)	28.8	26.5	24.1	24.5	23.6	23.6	24.6	24.4	24.5
Gross national savings (% of GDP)	22.4	25.2	27.6	23.0	23.0	23.1	22.2	21.8	21.6
BUDGET DEFICIT-DEBT									
General government net lending/borrowing (% of GDP)	-7.0	-5.0	0.1	-0.9	-1.1	-0.9	-1.3	-1.5	-1.8
General government gross debt (% of GDP)	26.4	25.1	23.5	23.4	23.6	25.7	28.1	30.1	32.2

Kazakhstan was the 54th largest economy in 2022, in terms of gross domestic product (GDP). The UK was the 6th largest economy in 2022.³⁶

³⁴ International Monetary Fund (IMF) provide economic commentary in their [World Economic Outlook reports](#). The latest data presented here can be found in the [World Economic Database, October 2023](#). Changes in real GDP (%) includes latest estimates from the [January 2024](#) World Economic Outlook report for those economies where data were provided.

³⁵ Projections and estimates are given in italics. More information for each metric and each partner, as well as historic data pre-2020, can be found on the [IMF website](#).

³⁶ GDP ranking based on values in current prices (nominal terms) in \$USD. Some GDP values for partners are based on estimates which may influence the rankings when revised.

Top goods traded with the world by Kazakhstan, in current prices (UN Comtrade)^{37 38}

Data presented here show the top commodities traded with the world, not solely the UK, by Kazakhstan. These data are based on a different commodity classification system to the ONS commodity data used earlier in this factsheet, and the two sections should therefore not be directly compared.

Top goods exported to the world by Kazakhstan in 2022:

Rank	HS Commodity	\$USD billion	% of total goods exported
1	27 - Mineral fuels or oils, products of their distillation	51.8	61.4%
2	72 - Iron and steel	5.6	6.6%
3	26 - Ores, slag and ash	4.2	5.0%
4	74 - Copper and articles thereof	3.8	4.5%
5	28 - Inorganic chemicals	3.6	4.2%
6	10 - Cereals	2.2	2.6%
7	85 - Electrical machinery and equipment	1.6	1.9%
8	84 - Machinery and mechanical appliances	1.3	1.5%
9	25 - Salt; sulfur; earths and stone	1.2	1.4%
10	79 - Zinc and articles thereof	0.8	1.0%
	All goods exported	84.4	100.0%

Top goods imported from the world by Kazakhstan in 2022:

Rank	HS Commodity	\$USD billion	% of total goods imported
1	84 - Machinery and mechanical appliances	7.9	15.8%
2	87 - Vehicles other than railway or tramway stock	4.8	9.7%
3	85 - Electrical machinery and equipment	4.8	9.6%
4	73 - Articles of iron or steel	2.2	4.4%
5	39 - Plastics and articles thereof	2.1	4.2%
6	30 - Pharmaceutical products	1.9	3.7%
7	72 - Iron and steel	1.8	3.6%
8	27 - Mineral fuels or oils, products of their distillation	1.7	3.3%
9	26 - Ores, slag and ash	1.5	2.9%
10	90 - Optical, photographic, cinematographic and medical equipment	1.2	2.5%
	All goods imported	50.0	100.0%

³⁷ United Nations (UN) Comtrade data are sourced from the online [UN Comtrade Database](#). The data reported above are for 2022, but as the data upload to UN Comtrade is continuous, more timely data may be available from the source.

³⁸ Data are classified using the [Harmonized System](#) and are given on a physical movement basis, with UK data comparable to HMRC data sources rather than the headline trade figures presented here from ONS.

Top services traded with the world by Kazakhstan, in current prices (ITC Trade Map)^{39 40 41}

Data presented here shows the top service types traded to the world, not solely the UK, by Kazakhstan.

Top services exported to the world by Kazakhstan in 2022:

Rank	EBOPS Service Type	\$USD billion	% of total services exported
1	Transport	4.7	59.0%
2	Travel	1.5	18.8%
3	Other business services	0.6	7.2%
4	Telecommunications, computer, and information services	0.5	5.9%
5	Government goods and services n.i.e.	0.2	2.9%
	All services exported	7.9	100.0%

Top services imported from the world by Kazakhstan in 2022:

Rank	EBOPS Service Type	\$USD billion	% of total services imported
1	Transport	2.7	28.7%
2	Travel	2.4	25.8%
3	Other business services	2.2	23.4%
4	Telecommunications, computer, and information services	0.6	6.3%
5	Maintenance and repair services n.i.e.	0.3	3.3%
	All services imported	9.4	100.0%

³⁹ International Trade Centre (ITC) Trade Map data are sourced from the online [ITC Trade Map tool](#). The data above are for 2022, but as the data upload to ITC is continuous, more timely data may be available from the source.

⁴⁰ Data are classified on the [EBOPS 2010](#) basis. 'Other business services' include: Research and development, professional and management consulting services, technical services and trade related services. A full description of all service types can be found on the [UN Statistics Division website](#).

⁴¹ Estimates are shown in italics, where for some partners only estimates are available - These data have been included for information and should be treated with caution.

Background Notes

This document is one of a wider set of factsheets between the UK and its individual trade and investment partners which can be found on the [Trade and Investment Factsheets website](#). All of these factsheets are published as [Official Statistics](#) as defined by the [UK Statistics Authority](#), and are compliant with the [Code of Practice for Statistics](#) where they meet user needs as well as promoting trustworthiness, quality and public value in Government statistics. The publication of these factsheets as Official Statistics was agreed by the Chief Statistician at the Department for Business and Trade, who monitors these factsheets to ensure they continue to adhere to the [Code of Practice for Statistics](#). These factsheets have not been formally assessed by the [Office of Statistics Regulation](#) and are therefore not designated as [National Statistics](#).

As a requisite of publishing as Official Statistics, a [quality and methodology report](#) has been produced which outlines the quality of these factsheets, as well as providing more information on the methodology of the data sources presented here. This report contains hyperlinks to information on the strengths and weaknesses for each data source. Statistics contained in the factsheets from UK data providers all come from Official Statistics publications, with some sources also being from National Statistics publications.

Future updates of these factsheets can be found on the [Government update schedule for Official Statistics](#). These scheduled updates are in line with significant updates from UK data providers when they release new data. Unscheduled releases of the factsheets may also be necessary to accommodate data updates where little or no advanced notice are given, such as in the case of international data updates. Please see the data update schedule and revisions policy in the [quality and methodology report](#) for more information. Please note that there may be occasions where more recent data than is provided here can be found directly from the data providers.

The Department for Business and Trade welcome any feedback or comments on these factsheets, please send these to statistics@businessandtrade.gov.uk.
