Please provide your comments on the environmental permit application received from Laci Land Restoration Limited:

The works, which are partly or wholly retrospective, have significantly impacted the landform of the AONB which is one of the key landscape components identified in the High Weald AONB Management Plan. The Environment Agency has a legal duty under section 85 of the Countryside and Rights of Way Act to have regard to the conservation and enhancement of natural beauty in AONBs in carrying out its functions including the granting of permits. The works cause significant harm to the landscape and natural beauty of the AONB and it is recommended that the applicant be required to remove the imported material and reinstate the natural landform of the site.
