**Subject:** Laci Land Restoration - EPR/LB3108LW/A001 - Not Duly Made

Dear Steve,

Further to our recent correspondence with Steve regarding the application on the 9<sup>th</sup> November 2022 and 16 December 2022 (see attached) we have not received a revised waste recovery plan from you which takes into account waste already tipped to site without an environmental permit. As per our published guidance on GOV.UK ([Waste recovery plans and deposit for recovery permits - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/waste-recovery-plans-and-deposit-for-recovery-permits)) if you need to change your waste recovery plan, you must send the revised plan and pay the waste recovery plan charge in table 1.19.1 before we can assess whether the revised operation is a recovery activity. As a result we are required to inform you that your application is considered not duly made and we therefore ask you submit a revised waste recovery plan within ten working days. Failure to respond to this request will likely see your application refused and the application fee retained. If you wish to discuss this request further, please get in touch with me.

Regards,

**Anthony Watts**

Permitting Technical Specialist (Waste Deposit)
