Subject: RE: Sweethayes Farm EPR/LB3108LW

Good afternoon Wayne,

A brief update following our meeting on 26th September 2022.

I have discussed your application EPR/LB3108LW/A001 with a Waste Deposit Permitting Technical Specialist who has contacted Sarah Owen at Waterman's to discuss adjustments to your WRP and the progress of your application.

With regards to your request for a Local Enforcement Position, you would be required to submit it to us in first instance. We will then consider it and discuss it with the relevant area's Enforcement Governance Group (EGG).

An LEP proposal must include:

- a written request for the LEP from the operator, explaining why they consider that they need to commit offences, and the planned extent of the offending;
- supporting information about pollution risks and control measures;
- the background to the proposed activity, and whether the operator has other options that would not require an LEP;
- the risks to the environment and human health, and how they will be controlled;
- the duration of the proposed activity;
- whether a permit has been or is being applied for.

The Environment Agency would review the information supplied, along with the compliance and enforcement history of the operator and make a decision.

Regards,

Adrian

Hi Adrian,

Thank you for your time yesterday, Laci Land Restoration Ltd would like to request an LEP and will on confirmation of this action adjust and resubmit the WRP, we feel this is the appropriate order for us to proceed in accordance to measures discussed on site.

We would also kindly request you remove the statement proclaiming the U1 is not valid as this is incorrect the U1 is commonly used up to the capacity of 1000 tonnes under the construction area of the barn and as such is both legal and excepted under planning,

this indeed was discussed on site and confirmed by Mark Bright RDC planning enforcement.

We await your response at your earliest convenience, as these matters directly impact on our decisions moving forward.

Kind

Regards

Wayne

on behalf of Laci Land Restoration Ltd
