Personnel may have an extended career engagement recorded prior to completion of their previous engagement or reaching the requirements to serve on an extended career. Personnel who continue to serve on an Extension of Service after completion of their extended career engagement are also included.

In addition, in response to the first and second parts of question five, we have included personnel with the specialisations Royal Marine Medical Assistant and Royal Navy Medical Assistant (Commando) as they perform similar roles and fall under the same promotion board. Personnel with the specialisations Royal Navy Medical Assistant (General Service) and Royal Navy Medical Assistant (Submariner) are excluded.

With regard to the second part of question five, we cannot provide the number of personnel who have been offered an extended career. Therefore, we have provided the number of personnel who transferred onto an extended career contract over the past ten Financial Years.
