

Table 1: Number of Yellow Card reports received for the MMR vaccine per year with the breakdown of the number of reports with a serious adverse reaction. *2023 includes only reports received up to and including 30/01/2023.

Year	Total number of reports received	Number of serious reports
1987	^	^
1988	264	84
1989	1064	318
1990	484	153
1991	261	120
1992	200	117
1993	125	71
1994	130	76
1995	133	65
1996	140	71
1997	204	114
1998	169	90
1999	108	57
2000	174	95
2001	95	68
2002	91	44
2003	103	61
2004	105	59
2005	203	129
2006	153	95
2007	100	66
2008	123	80
2009	145	97
2010	125	86
2011	145	119
2012	123	91
2013	241	182
2014	180	137
2015	203	137
2016	228	167
2017	411	339
2018	398	260
2019	431	284
2020	299	177
2021	241	139
2022	242	108
2023*	21	9

Please note that the number of serious reports also includes cases with a fatal outcome. Where results include less than 5 reports, we are unable to provide further details to ensure patient and reporter confidentiality.

Table 2: Number of Yellow Card reports received for the MMR vaccine per year broken down into patient age ranges. *2023 includes only reports received up to and including 30/01/2023.

Year	Age (years)			
	0-9	10-19	19+	Unknown
1987	^	^	^	^
1988	194	^	^	^
1989	837	7	5	^
1990	423	^	^	^
1991	229	^	^	^
1992	185	^	^	^
1993	124	^	^	^
1994	121	6	^	^
1995	123	6	^	^
1996	136	^	^	^
1997	196	^	^	^
1998	158	6	^	^
1999	105	^	^	^
2000	162	^	^	^
2001	84	5	5	^
2002	81	^	^	^
2003	96	^	^	^
2004	82	13	^	6
2005	124	60	12	13
2006	111	26	10	10
2007	62	^	^	18
2008	79	10	^	27
2009	88	11	5	35
2010	88	6	^	24
2011	81	8	^	41
2012	69	8	5	33
2013	160	22	17	44
2014	111	9	^	46
2015	153	16	^	24
2016	170	14	7	32
2017	207	10	7	27
2018	351	11	5	24
2019	373	11	6	34
2020	259	^	^	29
2021	214	^	^	18
2022	176	5	^	18
2023*	13	^	^	^

Where results include less than 5 reports, we are unable to provide further details to ensure patient and reporter confidentiality.
