Dear Inga,

Thank you also for making yourself available at short notice to discuss the items with us this week.

The draft FSN and responses (per the MHRA follow-up letter) to other items due today are in review with our technical subject matter experts in our head-quarters in the US. This is to ensure that all information provided is precise and aligned to the feedback the MHRA have kindly provided. Our team will be sending this information across to you at the latest COB US time.

If at all acceptable to you, would you have any availability Monday 30th January for a call where we could provide any clarifications that you have on the material that will be sent to you today and also brief you on additional items that have been identified?

Thanks again.
