Some people who received this message don't often get email from rebecca.owen@mhra.gov.uk. [Learn why this is important](#)

Dear Both

Firstly, let me introduce myself. I have recently taken over the role of head of Musculoskeletal, Trauma and Cosmetic so you will likely see/hear from me fairly frequently!

[REDACTED] has kindly shared your contact details. Health Canada have asked us to seek participants to take part in their best brain exchange meeting on breast implant registries.

We are going to attend and was hoping you would be willing for me to share you details with Health Canada as your expertise is very valuable.

Please let me know your thoughts

Best wishes

Becky Owen

Subject: Breast implant registries

Hi Johan and Jenifer,

Health Canada is participating in the early stages of planning a potential Best Brains Exchange meeting on breast implant registries, where relevant experts are invited to participate in discussions and share knowledge. Given that the UK has already implemented breast implant registries, we are seeking names of potential meeting participants who may be able to contribute to discussions by providing UK experiences. We are interested in hearing how the registries are managed in the UK in terms of privacy, data sharing, etc. and also notifying patients with implants of issues and safety concerns. These potential participants do not necessarily have to be MHRA staff.

If you have any questions, please let us know.

Thanks,

[REDACTED]
