Section 1 – Applications Received

Inspection of licence applications can be requested under the provisions of Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by anybody who holds statutory objector status. Applications may be inspected free of charge at the Office of the Traffic Commissioner in Leeds by any person who carries written authorisation to act in that capacity.

Objections against published applications may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

You may fax a copy of your objection to 0113 2488521 but please note that you must send the original signed document through the post.

Classification of Operator Licences – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Section 3 – Schedule 4 Applications

Schedule 4 to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval at the Traffic Commissioner's discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

New Applications (Section 3.1): where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

Variation Applications (Section 3.2): where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

Section 5 – Public Inquiries

Anyone wishing to observe a physical or virtual public inquiry must request to do so from the relevant Office of the Traffic Commissioner in advance of the hearing. Due to space or technology restrictions we may not be able to accommodate all requests.

Please contact Sharon.Lenton@otc.gov.uk for further information.

There is no obligation on the traffic commissioner to provide a transcript of proceedings. Any decision to release will refer to the reasons for the request and there may be restrictions placed on its use. That request should be made via the relevant Office of The Traffic Commissioner and the applicant must understand that they will be liable for the cost of producing the transcript. This will vary according to demand and size of content.

Appeals against any decision published in this section must be lodged with the Upper Tribunal – Administrative Appeal Chamber (Transport), 5th Floor, Rolls Building, 7 Rolls

Buildings, Fetter Lane, London, EC4A 1NL not later than one month after the date of the letter conveying the Traffic Commissioner's (or Deputy Traffic Commissioner's) decision. Appellants can obtain guidance on lodging appeals, including downloading the appeal form, from the website: www.administrativeappeals.tribunals.gov.uk

S26 - Formal warning

The company has offered the following undertaking, which will be added to the licence (replacing the previous audit undertaking):

a) the company's specified vehicles will be given a laden roller brake test at each preventative maintenance inspection, and the results print-outs kept for at least 15 months.

Under Section 26(8)(c) of the Goods Vehicles (Licensing of Operators) Act 1995, the commissioner varied the curtailment of the licence so that the operator may now operate three vehicles and four trailers (the curtailment hitherto was to two vehicles and four trailers).

Public Inquiry (89210) held at The Court Room (Cambridge), CB2 8BF, Eastern Traffic Area, Eastbrook, Shaftesbury Road, Cambridge, on 26 February 2024 commenced at 14:00 (Previous Publication:(5468))

NEVILLE TILLEY LLP

Partner(s): NEVILLE BADEN TILLEY, STEPHEN MARK TILLEY

31 PORTERS LANE, EASTON ON THE HILL, STAMFORD, PE9 3NF

S26 - Licence curtailed to 3 vehicles and 7 trailers with immediate effect

S27 - the Traffic Commissioner made adverse findings under section 27(1)(a) in that the operator did not have the required financial standing or a Transport Manager. He allowed a Periods of Grace of 6 weeks to meet both those requirements by reference to the current authorisation.

The following undertakings were given and accepted:

Every Preventative Maintenance Inspection must assess the braking performance of the vehicle or trailer. An Electronic Braking Performance Monitoring System may be used to monitor in-service braking performance and provide a braking performance report for the safety inspection. Where EBPMS is not being used a suitable calibrated roller brake test will be used and vehicles and trailers will be in a laden condition. Where unavailable, an approved and calibrated decelerometer can be used to measure overall brake efficiency values for rigid vehicles without trailers only. A temperature check will be conducted at the same time as a decelerometer test to identify if individual brakes are operational. Risk assessments will be retained on file and made available for inspection.

The operator will arrange an independent audit to be carried out by a DVSA- authorised audit provider, the RHA, Logistics UK, or other equivalent independent body, to assess the systems for complying with the operator licence requirements and the effectiveness with which those systems are implemented, with particular regard to the adverse findings above. The audit should cover at least the applicable elements in the Annex to be supplied by the Office of the Traffic Commissioner. A copy of the audit report, together with the operator's detailed proposals for implementing the report's recommendations, must be sent to the Office of the Traffic Commissioner not later than 6 months from the date of this hearing.
