March 2024

Grenfell Tower site update March 2024

A summary of current activity at the Grenfell Tower site.

- The tower wrapping needs to be replaced each year to be effective. This year, we are also replacing the banners at the top due to wear and tear. They will look the same as the previous ones. The work is due to start mid-March and will take about 10 weeks. For more information, please go to:
[Keeping you updated about the Grenfell Tower wrapping - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/news/keeping-you-updated-about-the-grenfell-tower-wrapping)
- Tower site contractors, DUK, carry out regular maintenance and checks of the props (the metal supports installed in the tower), the hoardings around the site, and the lighting, security systems and scaffolding.
- Our existing contract with DUK expires in July 2024. We need to re-procure the contract due to government rules and guidance on spending public money. This is a standard process and is part of the government's role in keeping the tower and site safe and secure. We know that this will be of interest to some of the community. For more information, please go to:
[The principal contractor for the Grenfell Tower site: update - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/news/the-principal-contractor-for-the-grenfell-tower-site-update)
- Local opportunities including employment, training and practical support, are available from DUK. You can find out more at www.degroupp-community.uk If you would like to talk to us about social value opportunities, please get in touch using the contact details at the end of this summary.
- Air quality monitoring continues to be carried out regularly around the tower. You can see the latest monitoring results at:

The government welcomes the report published in November 2023 by the independent Grenfell Tower Memorial Commission, 'Remembering Grenfell: recommendations and next steps to a memorial'. You can read the report at www.grenfelltowermemorial.co.uk/report
