Note 1

Herd basis adjustment to exclude the cost of home-bred additions to the herd. Following the suggestions in this helpsheet, the herd basis reconciliation is included in the 'Any other information' box, box 103.

Note 2

Miscellaneous receipts comprise haulage (£401) and way leaves (£249). Haulage has been included as an item of business income in box 15. The way leaves are included in box 16.

Note 3

The private proportions of rent and rates and water are respectively £475 and £200. These amounts need to be disallowed in arriving at the profit for tax purposes and are included in box 36.

Note 4

There are several figures making up the overall insurance expense. £210 relates to motor vehicles partly used for private purposes. This amount is included in the entry in box 20 (read Note 5 below). There's a choice as far as the balance is concerned. That part relating to the premises and property could be included in the entry in box 21, but it would also be reasonable to enter the full amount of the balance in box 23 on a consistent basis from year to year. The latter approach is adopted here.

Note 5

The equipment and vehicle expenditure comprises the following: tractor/combine repairs, £6,351, tractor/combine diesel, £5,102 and motor car expenses, £4,470. This latter figure, together with the motor insurance costs, is entered in box 20. Of the total motoring costs of £4,680 (£4,470 + £210), 30% are for private use and are disallowed by entering the private proportion, (£1,404) in box 35. The tractor/combine expenditure has been treated as a direct cost of production and included in the entry in box 17, although it would be equally acceptable to separate the repairs expenditure and enter it in box 22.

Note 6

The private proportions of light and heat and phone are respectively £650 and £150. To arrive at the profit for tax purposes, these amounts have to be disallowed and are included in the entries for boxes 36 and 38 respectively.

Note 7

Contracting and plant hire comprises costs of a ditching contractor £1,767 and plant hire, £224. The expenditure all relates to maintenance of the farm and has been entered in box 22. Had the contracting been in respect of contract milkers or contract harvesters, for example, it would have been entered in box 17 as a direct cost of production.

Note 8

Veterinary expenses include £177 for treatment to a privately owned pony. This has been disallowed by including the amount in the entry in box 43. All associated expenses of the pony's upkeep have been met privately or charged to drawings.

Note 9

Bank charges include £701 interest charges which are entered separately in box 25.

Note 10

Details of the valuation at the year end are included in the ‘Any other information’ box, box 103, to help clarify the figure shown in box 85. It is not necessary to get professional valuation but the likely reliability of the valuation will be one of the factors we’ll consider in deciding whether to open an enquiry.
