Subject: Land to the West of Mill Lane, Hatfield Heath, CM22 reference S62A/2024/0032

Good morning.

I wish to register my most strong objection to the application for the destruction of P.O.W. Camp 116 and subsequent building over green belt land at the location. This has been rejected numerous times including by the inspectorate themselves on one occasion.

It is vitally important that this matter be considered in a public hearing so that all views can be considered not just those of a developer wishing to bulldoze history and destroy green belt land.

I would wish to attend such a hearing.

Yours faithfully.

Mike Usher.
