## Statutory basis of return

The individual-level collection of data on the children's social work workforce is a statutory requirement on local authorities in England, through Section 83 of the Children Act 1989.

This return is mandatory and replaces the aggregated local authority-level return made prior to 2017.

## Data protection and data sharing

The UK General Data Protection Regulation (UK GDPR) and the Data Protection Act 2018 (DPA 2018) mandate certain safeguards regarding the use of personal data by organisations, including DfE and local authorities. Both give rights to those (known as data subjects) about whom data is processed, such as children, parents and staff. These rights include (amongst other information that DfE is obliged to provide) the right to know:

- the types of data being held
- why it is being held
- to whom it may be communicated

As data processors and controllers in their own right, it is important that local authorities process all data (not just that collected for the purposes of the census) in accordance with the full requirements of the UK GDPR. Further information on the UK GDPR can be found in the Information Commissioner's Office (ICO) overview of the [UK General Data Protection Regulation \(UK GDPR\)](#).

## Legal duties under the UK General Data Protection Regulation and the Data Protection Act 2018: privacy notices

Being transparent and providing accessible information to individuals about how schools and local authorities will process their personal data is a key element of UK GDPR and the DPA 2018. The most common way to provide such information is through a privacy notice. See the Information Commissioner's Office (ICO) website for [further guidance on privacy notices](#).

DfE provides suggested wording for [privacy notices](#) that local authorities may wish to use. However, where the suggested wording is used, you must review and amend the wording to reflect local business needs and circumstances. This is especially important, as local authorities will process data that is not solely for use within census data collections.

It is recommended that the privacy notice:

- is included as part of an induction pack for staff
- features on the staff notice board or intranet

Privacy notices do not need to be issued on an annual basis, where:

- new staff are made aware of the notices
- the notices have not been amended
- they are readily available in electronic or paper format

However it is important that any changes made to the way the local authority processes personal data are highlighted to data subjects.

## Legal duties under the UK General Data Protection Regulation and the Data Protection Act 2018: data security

Local authorities have a legal duty under the UK General Data Protection Regulation (UK GDPR) and the Data Protection Act 2018 to ensure that any personal data they process is handled and stored securely. Further information on data security is available from the [Information Commissioner's Office](#).

Where personal data is not properly safeguarded, it could compromise the safety of individuals and damage a local authority's reputation. Your responsibility as a data controller extends to those who have access to your data beyond your organisation where they are working on your behalf – for example, where external IT suppliers can remotely access your information.

It is vital that all staff with access to personal data understand the importance of:

- protecting personal data

- being familiar with your security policy
- putting security procedures into practice

As such, local authorities should provide appropriate initial and refresher training for their staff.

# 1. Introduction

## 1.1 Background

This is the eleventh annual statutory census collection of data on the children's social work workforce. The census collects information from local authorities in England on the social workers and agency workers they employ within their children's services department. This year's census collects data for the period 1 October 2023 to 30 September 2024. Data can be submitted to the Department for Education (DfE) from **1 October 2024 to 29 November 2024**.

The count date for this year's collection is 30 September 2024. If this date falls on a non-working day, please record the position as at the last working day of September.

## 1.2 Changes to the 2023 to 2024 children's social work workforce census

There are no additional data items included in this collection.

The gender current (N00537) data item has been replaced by the new sex (N00783) data item. Validation rules have been updated to reflect this change.

New validation rules have been added for the 2023 to 2024 collection. Refer to the notes of the accompanying validation rules for more information.

## 1.3 Definition of a child and family social worker

For the purposes of this collection, a child and family social worker is defined as:

*"A social worker who is registered with Social Work England (SWE), formerly the Health and Care Professions Council (HCPC), working in a local authority in a children's services department or, if working in an authority where the services are joined up, a social worker that works primarily on children and families work."*

Include all child and family social workers regardless of their position in the organisation, excluding the Director of Children's Services.

Include for all areas of child and family social work, those who are:

- Maternity/Paternity leave
- Other paid absence, for example compassionate leave or annual leave
- Paid absence for public duties, for example jury duty
- Seconded into your organisation
- Sick leave

- Training
- Unauthorised absence
- Unpaid authorised absence, for example sabbatical leave

Include child and family social workers working in all aspects of child and family social work. This includes the following job roles:

- Senior Manager (for example, Area Director)
- Middle Manager (for example, Service Manager or Principal Social Worker)
- First Line Manager (for example Team Manager)
- Senior Practitioner (working in a local authority in a children's services department as a team leader, supervising social worker or senior social worker)
- Case Holder (any other social worker that manages cases; the definition of case can be found below)
- All other qualified and registered social workers, including those without cases (for example Independent Reviewing Officer (IRO), Chairs of Child Protection Conferences, Youth Custody worker, Family Support) and those not currently practicing (for example, those in learning and development or quality assurance roles).

Agency workers should be included and only the fields that relate to agency workers should be completed; these are specified in section 1.8.

Include social workers in Regional Adoption Agencies (RAA) and Youth Offender Services workers. Where the RAA is hosted by a local authority and staff have been transferred, including on secondment, the social workers working within the RAA should be included by the host local authority.

We recognise that the introduction of RAA will have different implications for the count of social workers and total caseload reported per local authority involved in an RAA, depending on how the RAA has been established.

### **1.3.1 Definition of an Agency Social Worker**

Any social worker not directly paid by the local authority. This may be social workers who are paid by an agency rather than the local authority or who are self-employed.

You should include all Agency Social Workers however procured. This should include any Agency Social Workers procured through Contracted Providers, off-contract procurement and those procured as part of a Project Team or other method.

## 1.4 Definition of a case

For the purposes of this collection, a case is defined as:

Any person allocated to a named social worker, where the work involves child and family social work.

This may include:

- an individual child allocated to a social worker (for example, a family of three siblings would be three individual cases) including those in early help, on a child protection plan, children in need, fostering and adoption cases and care leavers.
- a carer or carers (where they are classified as a single unit) allocated to a social worker for the purposes of fostering or adoption.

Do not include:

- cases where the IRO or Child Protection chair has a supervisory role – these will already be counted as a case held by the social worker holding the case.
- care leavers not allocated to a registered social worker.

Include all cases held by your local authority, including those allocated to agency workers. Only count the case against the allocated lead social worker as at 30 September 2024. We recognise that there will be some local variation in how cases are allocated.

## 1.5 Returning data

Please send your completed return to the Department for Education via the COLLECT system. The COLLECT system will be open to submit data from 1 October 2024 to 29 November 2024.

The COLLECT (collections online for learning, education, children and teachers) portal is used by schools, local authorities and the DfE for processing data collection returns. As well as being a secure portal for data transfer, the COLLECT system offers a number of other benefits, including: real time data collection monitoring and progress reporting; the facility for local authorities to view exactly the same information as the DfE; and there is no requirement to upload new software.

Information on how to use COLLECT is published in the COLLECT [guides](#) for local authorities.

For this collection, data can be entered directly into the COLLECT system on a case by case basis or via a data upload in XML format. For local authorities that do not have the option to save their data as an XML file, there is the option to use an XML generator. This enables local authority users to enter data into an Excel template and generate an XML file to load into the COLLECT system.

The XML generator and guidance document will be made available on [Slack](#). If you are not registered for Slack, the XML generator and guidance document can be requested via a [data collections service request form](#).

Once your data is loaded into COLLECT you will be able to view it and make any necessary updates and amendments within the system.

You are **strongly encouraged to review the COLLECT summary report** for your local authority before submitting your return, as this contains information on the headline statistics that DfE will publish for your local authority. We may be unable to amend any errors in these statistics that are not picked up by our automated or manual validation checks prior to publication.

Along with using the XML generator, you have the option to enter your data directly into the COLLECT system. Within the collection there is a header section which is automatically populated when using the XML generator; however, should you decide to enter data directly you will need to complete these details manually. The details that should be entered are listed below:

Field	Value
Collection:	CSWW
Year:	2024
Reference Date:	2024-09-30
Source level:	L
LEA:	Enter your own LA 3-digit code here
Software Code:	CSWW template v1.0
Date Time:	Enter the date and time that you are entering data in the format CCYY-MM-DD hh:mm:ss

All other fields can remain empty.

## 1.6 Validation checks

Validation checks are applied to your data once it has been loaded into COLLECT. These checks will identify missing and invalid data, and other anomalies. New validation rules have been added for the 2023 to 2024 collection. The validation checks are published in the accompanying validation rules document for this collection.

Validation checks are classified as either errors or queries. A query can be distinguished from an error by the validation rule number. Queries have a 'Q' suffix (for example, '10Q'), and the wording of the associated message begins "Please check...".

DfE classifies validation rules as errors where a correction is required. However, for queries, although we would expect a correction to be made in most cases, there may be circumstances under which the data is correct and the query can remain. The COLLECT system permits users to annotate their return with an explanation of any errors or queries that may remain at submission. This must be undertaken to assist with data cleaning.

## 1.7 Adding notes to the collection

Local authorities must provide a record of any issues they have identified in their data return and provide explanations for errors and queries in the return-level notes section.

## 1.8 Statutory Status of Data Items

Although the individual-level return as a whole is mandatory, some fields within the return are voluntary.

The table below indicates which data items are mandatory and therefore have to be returned for the following three categories:

- Child and family social workers at 30 September 2024;
- Leavers during the year ending 30 September 2024; and
- Agency social workers at 30 September 2024.

Note: data items marked as "mandatory" must be returned, all other data items are either voluntary or not applicable.

## 1.9 General notes

### 1.9.1 Social worker identifier

The child and family social worker's Social Work England (SWE) registration number. SWE is the registering body for social workers in England.

### 1.9.2 Caseload calculation

Reported caseloads are the average number of cases held when compared to the total number of social workers holding cases. The caseload is calculated as the total number of cases held by full-time equivalent (FTE) social workers in post at the 30 September (including agency workers) divided by the number of FTE social workers at 30 September (including agency workers) that hold one or more case.

### 1.9.3 How to record counts of zero

Where a data item (for example, cases or working days lost) has a count of zero, record the count as "0" rather than leaving it blank.

#### **1.9.4 Starters who leave within the year**

For employees that started within the year (on or after 1 October 2023), but left before the end of the year (30 September 2024), ensure that their FTE is recorded as “0” at both points.

#### **1.9.5 Leavers who return within the year**

If members of your staff left within the year but later re-joined your staff, they should be entered as two separate records; one treating their original post as a leaver and another treating their new post as a starter.

#### **1.9.6 Staff leaving on 30 September 2024**

If you have members of staff who are due to end their post on 30 September 2024, record them as you would any other leavers, but include the number of cases they have on that date unless their cases have already been redistributed amongst other staff.

#### **1.9.7 Staff who hold two or more roles**

For staff who work part-time in two or more different roles, enter each role as an individual record (using a separate row for each role) and ensure the combined FTE of their roles is not greater than 1.

#### **1.9.8 Casual staff and those on zero hours contracts**

Members of staff who are employed on a casual basis or zero hours contract on 30 September 2024 should be counted in the same way as other employed social workers. We are aware of the difficulties in recording these staff accurately. We will continue to monitor the data and if required update the collection.

## 2. Aggregated Data Items

The data items in this section relate to a snapshot at 30 September 2024 and are an aggregate count of the number of vacancies and agency workers covering vacancies. Within COLLECT they are located under the 'LA level vacancies' section.

Data item	Notes on data item
Number of vacancies (including those covered by agency workers)	<p>Provide information on all vacancies (permanent or temporary) within your organisational structure as FTEs, including vacancies that are <b>not</b> being actively filled at census date.</p> <p>Record the number of child and family social worker vacancies in your local authority, including those covered by agency workers.</p>
Number of agency workers covering vacancies – FTE	Record the FTE number of agency workers in your local authority's children social care working as a social worker and covering a vacancy.
Number of agency workers covering vacancies – Headcount	Record the headcount number of agency workers in your local authority's children social care working as a social worker and covering a vacancy.

### 3. Social Worker Data Items

Include this information for:

- all child and family social workers in your local authority at 30 September 2024;
- all agency workers in your local authority who were in post at 30 September 2024;
- child and family social workers who have left their role during the year ending 30 September 2024.

Frontline graduate	<p>Record whether or not the social worker is a Frontline graduate</p> <p>A Frontline graduate refers to a graduate of the government fast-track 'Frontline' programme which began in 2014. If the social worker did not qualify through the 'Frontline' programme they are not a Frontline graduate.</p> <p>Enter:</p> <p>1 for Yes</p> <p>0 for No</p>

## 4. Voluntary data items

Please include this information for:

- all child and family social workers in your local authority at 30 September 2024;
- all agency workers in your local authority who were in post at 30 September 2024;
- child and family social workers who have left their role during the year ending 30 September 2024.

Data item	Notes on data item
Qualifying Institution <b>VOLUNTARY DATA ITEM</b>	Record the institution where the child and family social worker received their qualification.
Absent on 30 September 2024 <b>VOLUNTARY DATA ITEM</b>	Record whether the social worker was absent from work on 30 September 2024.  If this date falls on a weekend or non-working day, record whether the social worker was absent on the last working day of September.  1 for Yes  0 for No
Reason for Absence on 30 September 2024 <b>VOLUNTARY DATA ITEM</b>	For those cases where absent from work on 30 September 2024 was marked as “Yes” please select the reason from the following list:  MAT for Maternity/Paternity leave OTH for Other paid authorised absence, for example compassionate leave, annual leave PUB for Paid absence for public duties. For example, jury duty SIC for Sick leave TRN for Training. For example, assessment accreditation UNA for Unauthorised absence UNP for Unpaid authorised absence

<p>Child and family knowledge and skills statement status</p> <p>VOLUNTARY DATA ITEM</p>	<p>Record the role the social worker has within the organisation as one of the following four categories:</p> <p>1 for assessed and supported year in employment (AYSE)</p> <p>2 for frontline practitioner</p> <p>3 for practice supervisor</p> <p>4 for practice leader</p> <p>Local authorities should make a judgement about the status of individual social workers using the knowledge and skills statements as a guide. In particular:</p> <p>Practice supervisors are qualified social workers whose primary function is to supervise the practice and decision-making of child and family practitioners, and to develop the skills of individuals and teams within child and family social work services.</p> <p>Practice leaders are qualified social workers with the day-to-day operational responsibility across the whole local system for child and family social work practice, and for child and family practitioners and practice supervisors. Most usually, this is referred to as the Assistant Director of Children's Social Care or Director of Family Services.</p> <p><a href="#">Knowledge and skills statements for child and family social work</a> are available.</p>
<p>Agency worker length of current post/assignment (weeks)</p> <p>VOLUNTARY DATA ITEM</p>	<p>If the child and family social worker is an agency worker, record the length in the current post/assignment in weeks.</p> <p>This should be the length of the whole planned contract not the number of weeks between the start of the contract and the data collection date.</p>

## Annex B - Rationale

### B1. Collection

The Children's Social Work Workforce data collection aims to provide employment data on Social Work England (SWE) registered social workers who are working within local authorities in England. The collection and publication of this data means that local authorities can benchmark their workforce against their geographical and statistical neighbours, and government is able to make informed decisions on the management of the public-sector children's social work workforce.

This collection moved to an individual level return in 2017; prior to that aggregated data was collected from each local authority. The extra information obtained from the individual-level return provides valuable insights into the children's social work workforce. For example, it helps us to identify patterns in social worker migration between areas or sectors; provides insights into the careers of social workers; gives local authorities information on barriers to staff retention; and assists in estimations of the costs of absence and agency support. The data is currently published as [official statistics](#) by the DfE, but as data quality continues to improve we will aim to publish them as [national statistics](#).

To help meet this aim, DfE requires local authorities to provide the data listed in the below table.

### B2. Data Items

Data item	Rationale for Data Item
Number of vacancies (including those covered by agency workers)	Allows the calculation of the rate of vacancies in the workforce and in each organisational structure.
Number of agency workers covering vacancies (FTE and Headcount)	Allows the calculation of the proportion of vacancies currently covered by agency workers.
LA	Allows DfE to break down social worker data by the local authority they work for.

Data item	Rationale for Data Item
Social Work England (SWE) registration number	As a unique identifier for a social worker this will allow DfE to validate information supplied and will, for example, help identify patterns in social worker migration between local authorities, and the local authority and non-local authority sector.
Agency worker	Allows for the calculation of the rate of positions held by agency workers, and the ability to track year on year changes in the proportions of agency workers.
FTE as at 30 September 2024	Provides a comparable yearly snapshot of working patterns and distributions of social workers.
Date of birth	Allows the demographic breakdown of the social work workforce by age and is useful for equality and diversity monitoring.
Sex	Allows the demographic breakdown of the social work workforce by sex and is useful for equality and diversity monitoring.
Ethnic origin	Allows the demographic breakdown of the social work workforce by ethnic origin and is useful for equality and diversity monitoring.
Qualifying Institution VOLUNTARY DATA ITEM	Allows DfE to observe how commonly different educational institutions produce social workers that go on to work as a local authority social worker.
Qualification level	Allows DfE to monitor how many social workers working for local authorities in England have undertaken further qualification levels after their initial social work qualifications.
Step Up graduate	Allows DfE to monitor the success of the fast track 'Step Up to Social Work' programme in training social workers who then go on to work for local authorities.
Role within the organisation	Allows the breakdown of local authority children's social work workforce structures by role.
Starting date	Allows for accurate monitoring of length of service, period recruited and turnover monitoring.
Origin when started	Provides data on where new starters were before they joined a local authority. Can be used to determine the proportion of social workers new to the profession to social workers having worked in other authorities, or as agency social workers.
Leaving date	Allows for accurate monitoring of length of service and allows workforce turnover monitoring.

Data item	Rationale for Data Item
Destination of leaver	Provides data on where leavers intend to go after leaving a local authority. Can be used to determine the proportions of social workers leaving the profession, leaving for other authorities, or agencies. May also provide insights into barriers to staff retention.
Reason for leaving	Allows for breakdown of leavers by resignation, redundancy, retirement, disciplinary action. May also provide insights into barriers to staff retention.
FTE as at 30 September 2023	This provides a social worker's FTE in the previous year, allowing the capture of changing working patterns amongst the workforce.
Number of cases held as at 30 September 2024	Provides the number of cases each social worker holds, and is useful for benchmarking average caseloads, and contrasting caseload data by FTE.
Number of days of work missed due to sickness absence	Allows DfE to accurately calculate total and average sickness absence.
Agency worker length of current post/assignment (weeks) VOLUNTARY DATA ITEM	Allows for the calculation of average length of agency contracts and is useful in calculating costing data.
Frontline graduate	Allows DfE to monitor the success of the fast track 'Frontline' programme in training social workers who then go on to work for local authorities.
Absent on 30 September VOLUNTARY DATA ITEM	Provides a snapshot of social worker absence data, allowing a calculation of what influence absence has on caseload.
Reason for absence VOLUNTARY DATA ITEM	Provides reasons for absence to allow breakdowns of absence by type.

Data item	Rationale for Data Item
<p>Child and family knowledge and skills statement status</p> <p><b>VOLUNTARY DATA ITEM</b></p>	<p>The DfE has produced knowledge and skills statements at three statuses: child and family practitioners, practice supervisors and practice leaders. These statuses will be used to underpin continuous professional development and the National Assessment and Accreditation System. Understanding the numbers of child and family social workers at each of these levels will help both the DfE and local authorities plan effectively.</p>
