Hi Andy,

We have given this application and the request to reopen the determination detailed consideration and don't consider it appropriate to reassess the application at this stage. The partial refusal for the asbestos activity therefore still stands.

It however has been established that this application should be designated as a site of High Public Interest (HPI). I don't believe there is anything further we need from the operator. We are considering the communications plan. I understand it's just a matter of advertising the decision on Citizen Space.

I'm on leave until the 5th of September and will have more details to follow. In the mean time could you let me know if the applicant is happy with the rest of the permit document.

Kind regards

Katie Dunmore

Thanks Katie

I believe FCC discussed this with Claire Roberts & Julian Ingram in a meeting last week

Hi Andy,

I've just returned from leave. I'll be in touch once we've had chance to consider this.

Kind regards

Hi Katie,

Following on from response below FCC held the meeting to discuss your draft permit, in particular your refusal to permit asbestos treatment as proposed.

I have been requested to ask whether the EA would be prepared to review this decision in the event that the applicant was remove the 3-way screening of asbestos contaminated waste as part of the process and restrict treatment to handpicking only which would be undertaken within a building.

Regards

Andy

Subject: FCC Daneshill

Hi Andy,

I've just picked up your voicemail, I was on leave the end of last week. I'll be away again next week and so please provide a response on the permit draft the following week beginning the 18th.

You mentioned FCC wanting to speak to a tech specialist. This wouldn't be appropriate prior to issue of the decision as the decision has been made and is not for further discussion at this time.

Kind regards
