Section 1 – Applications Received

Inspection of licence applications can be requested under the provisions of Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by anybody who holds statutory objector status. Applications may be inspected free of charge at the Office of the Traffic Commissioner in Leeds by any person who carries written authorisation to act in that capacity.

Objections against published applications may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

You may fax a copy of your objection to 0113 2488521 but please note that you must send the original signed document through the post.

Classification of Operator Licences – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Section 3 – Schedule 4 Applications

Schedule 4 to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval at the Traffic Commissioner’s discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

New Applications (Section 3.1): where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

Variation Applications (Section 3.2): where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

Section 5 – Public Inquiries

Anyone wishing to observe a physical or virtual public inquiry must request to do so from the relevant Office of the Traffic Commissioner in advance of the hearing. Due to space or technology restrictions we may not be able to accommodate all requests.

Please contact keith.holliday@otc.gov.uk for further information.

There is no obligation on the traffic commissioner to provide a transcript of proceedings. Any decision to release will refer to the reasons for the request and there may be restrictions placed on its use. That request should be made via the relevant Office of The Traffic Commissioner and the applicant must understand that they will be liable for the cost of producing the transcript. This will vary according to demand and size of content.

Appeals against any decision published in this section must be lodged with the Upper Tribunal – Administrative Appeal Chamber (Transport), 5th Floor, Rolls Building, 7 Rolls Buildings, Fetter Lane, London, EC4A 1NL not later than one month after the date of the letter conveying the Traffic Commissioner’s (or Deputy Traffic Commissioner’s) decision. Appellants can obtain guidance on lodging appeals, including downloading the appeal form, from the website: www.administrativeappeals.tribunals.gov.uk

2 THAMES CLOSE, PENNETT, BRIERLEY HILL, DY5 4QZ

S26 - Licence curtailed to 5 vehicles with effect from 00:001 hours on 11/03/2024.

There are wide ranging and numerous failings that led to undue risk to road safety over a protracted period. The operator has ineffective management control and insufficient or, in some cases, no systems and procedures in place to prevent operator licence compliance failings.

The operator failed to promptly act on the advice of the DVSA and that the Operator failed to fully understand and make himself aware of his obligations as an operator. The Traffic Commissioner considered that compliance has not been a priority for this operator. However, the Traffic Commissioner did draw back from finding this operator has lost its repute as she did not consider this was a deliberate decision.

The Operator's repute is only just intact and marked as severely tarnished.

In respect of financial standing, a voluntary curtailment to 7 vehicles was accepted, which means that finance were satisfied.

Voluntary Undertakings for the following were offered and accepted, including laden roller brake testing to be carried out at every PMI and an independent audit to be completed by 07/09/2024 and forwarded to the Traffic Commissioner with 14 days of being completed.

The case falls within the 'serious' bracket when considering Annex 4 of Statutory Document No.10 and it was carefully considered what to do as the operator's Licence was on a knife edge.

The Traffic Commissioner curtail this licence down from 7 vehicles to 5 vehicles for a period of 28 days with effect from 00:01 hours on 11/0/2024 and informed the Operator there will be absolutely no more chances. The Traffic Commissioner direct that this decision is placed before any Traffic Commissioner presiding over any future hearing in respect of this licence or connected to Mr Hampshire.

TM Public Inquiry (Case ID: 461230, Public Inquiry ID: 101465) for MITCHELL LESTER to be held at The Public Inquiry Room (Birmingham), B15 1PL, 38 George Road, Edgbaston, Birmingham,

on 27 February 2024 commencing at 13:30 (Previous Publication:(3086))

Transport manager Mitchell Lester no longer satisfies the requirements of section 13A(3) of the Act to be of good repute in accordance with Schedule 3 to the Act. Pursuant to paragraphs 16(2) and 17(1A) of Schedule 3 to the Act, Mitchell Lester is disqualified with effect from 23:45 hours on 29 March 2024 for the period of one year from acting as a transport manager on an operator’s licence.

TM Public Inquiry (Case ID: 461077, Public Inquiry ID: 101392) for IAN FLAVELL to be held at The PI Room (Birmingham), B15 1PL, 38 George Road, Edgbaston, Birmingham,

on 7 March 2024 commencing at 10:00 (Previous Publication:(3085))

Article 6 of Regulation (EC) No 1071/2009

In respect of Mr Flavell as Transport Manager, I have no option but to deal with his case in absence. I am satisfied that he was aware that I may do so. I have read several letters from him, which purport to blame the maintenance contractor and challenge the DVSA findings. In the absence of his explanation, and having heard from this operator, whilst I accept that the maintenance contractor required further management, it was Mr Flavell’s responsibility as Transport Manager to do so.

I note the recent findings of VE Jones in his MIVR that “it may be deemed that the TM demonstrates no effective and continuous management control of the transport operation.”

I find that Mr Flavell failed to effectively and continually manage this transport operation and whilst all of the failings are not his responsibility alone, he failed in his duty as Transport Manager.

Mr Flavell has lost his repute as Transport Manager and is unable to rely on his certificate of professional competence indefinitely, as I am unable to set a rehabilitation measure having no evidence from him.
