

## How to calculate the trust's or estate's tax

Use this guide to work out the trust's or estate's tax and to check any calculation we send to you.

If you ask us to calculate the trust's or estate's tax, the completed paper Trust and Estate Tax Return must reach us by 31 October 2024.

If you complete a paper Trust and Estate Tax Return you must make sure that this reaches us by 31 October 2024. If your paper Trust and Estate Tax Return reaches us after this date, we'll charge you an automatic penalty of £100.

If we receive the paper Trust and Estate Tax Return after 31 October 2024 and you have not worked out the tax, we'll do it for you but we cannot guarantee to tell you what to pay by 31 January 2025.

So if you do not know what tax to pay, make an estimate and pay that by 31 January 2025. Remember, if you do not pay enough, you'll have to pay interest and possibly a late payment penalty.

You can file online even if we've sent you a paper Trust and Estate Tax Return. If you file online, you have until 31 January 2025 to file your tax return. You can use our Self Assessment Online service to file the tax return over the internet using third party commercial software. If you file online, your calculations are done for you and you'll receive an instant on-screen acknowledgement that we've received your tax return. Go to [www.gov.uk/how-to-send-self-assessment-online](https://www.gov.uk/how-to-send-self-assessment-online) for information about filing online.

If we receive your online tax return after 31 January 2025 then you'll be charged an automatic penalty of £100.

Whichever method you use to file your Trust and Estate Tax Return, by 31 January 2025 you must:

- pay the balance of any tax the trust or estate owes for 2023 to 2024
- pay the first payment on account for the 2024 to 2025 tax year, if appropriate

You must pay what you owe by this date to avoid interest and possibly a late payment penalty.

If you need help, then please ask us.

## Layout of the calculation

Here is a summary of the stages you'll see in the working sheet:

- Stage 1** is for all the income and deductions that you've included in your Trust and Estate Tax Return and sorts them into categories which will be taxed later on. All trustees and personal representatives should complete stage 1.
- Stage 2** is for personal representatives only.
- Stage 3** is for trustees who are taxable at the trust rate or the dividend trust rate. Certain types of income and deemed income are chargeable at the trust rate or the dividend trust rate whether or not the trustees are normally taxable at the basic or dividend ordinary rate. These types of income include accrued income charges, income from deeply discounted securities, gilt strips, offshore income gains, income from companies purchasing their own shares and gains on life insurance policies, life annuities and capital redemption policies. If, apart from these types of income, you're taxable at the basic or dividend ordinary rate only, you should complete stage 5. If you're the trustee of an unauthorised unit trust, which is generally taxable at the basic rate only, you should complete stage 4. These stages will charge the income listed above at the correct rates. Stage 3 is to be completed by the trustees who are chargeable at the trust rate or dividend trust rate, on any income other than that listed above.
- Stage 4** is for trustees of an unauthorised unit trust.
- Stage 5** is for other trustees not taxable at the trust rate or the dividend trust rate.
- Stage 6** brings in all the tax you've already deducted from income (so you'll need the Trust and Estate Tax Return and any supplementary pages again) and works out any non-payable tax credits.
- Stage 7** makes adjustments to the tax calculated in earlier sections and adds in Capital Gains Tax. The final box of stage 7, box T7.43 gives the figure for box 17.1 in the Trust and Estate Tax Return.
- Stage 8** works out what you have to pay us by 31 January 2025, or what we have to pay you, and checks if you'll have to make 2024 to 2025 payments on account.
- Stage 9** is for trustees who make discretionary payments to beneficiaries.

**Stage 1** All trustees and personal representatives should complete this stage, filling in the boxes with information from the Trust and Estate Tax Return and the supplementary pages

If any box on this page is negative, substitute zero ('0')

Total income	Non-savings and savings income	Dividend, securities and redeemable shares income	Gains on life policies (with tax treated as paid)
Trades, professions, or vocations	(total all instances boxes 1.92) + 1L.91 T1.1 £		
Trade transition profit	total all instances box 1.84C T1.1a £		
Losses brought forward used against transition profit	total all instances box 1.84D T1.1b £		
Transition profit after losses brought forward	T1.1a minus T1.1b T1.1c £		
Partnership	total all instances box 2.22 T1.2 £		
Partnership transition profit	total all instances box 2.14C T1.2a £		
Losses brought forward used against Transition profit	total all instances box 2.14D T1.2b £		
Transition profit after losses brought forward	T1.2a minus T1.2b T1.2c £		
UK property	(total all instances boxes 3.15) + 3.42 T1.3 £		
Foreign income	total boxes 4.1 + 4.2C + 4.4 + 4.5 + 4.6 T1.4 £	from box 4.2 T1.5 £	from box 4.8 T1.6 £
Other income	total boxes 9.1 + 9.4 + 9.5 + 9.6 + 9.9 + 9.19 + 9.24 T1.7 £	total boxes 9.10 + 9.11 + 9.12 + 9.13 + 9.26 T1.8 £	from box 9.16 T1.9 £
	Total boxes 9.14 + (if a gain) box 9.23 T1.10 £		
<b>Total income</b>	Total boxes T1.1 + T1.2 + T1.3 + T1.4 + T1.7 + T1.10 T1.11 £	T1.5 + T1.8 T1.12 £	T1.6 + T1.9 T1.13 £

## Stage 8 All trustees and personal representatives complete this section

**Box T8.2** Enter in box T8.2 the amount of any repayment of 2023 to 2024 tax in box 21.6 in the Trust and Estate Tax Return. Do not include any repayments from trading losses carried back to an earlier year.

**Box T8.3** An adjustment may be required to increase the tax for 2023 to 2024 because you claim:

- farmers' averaging
- averaging of literary or artistic income
- to pay tax on post-cessation receipts by reference to the year the business ceased

Calculate the difference between the actual liability for the earlier year, and the liability that would have arisen for the earlier year if the averaged profit or post-cessation receipt had been included in the Trust and Estate Tax Return for that year. Work out the increase in tax by reference to the tax rate and circumstances for the earlier year. Include any entry in box 1L.79 of the 'Trust and Estate Lloyd's Underwriters' pages. Enter the amount in box T8.3. Copy this figure to box 17.2 in the Trust and Estate Tax Return.

The adjustment relates to 2023 to 2024, even though it's calculated by reference to the circumstances of the earlier year. If you need help, ask us or your tax adviser.

**Box T8.5** An adjustment may be required to decrease the tax for 2023 to 2024, calculated by reference to an earlier year, because you're claiming:

- loss relief calculated by reference to your income of an earlier year or years
- farmers' averaging

Do not include losses for which you have previously claimed relief. Calculate the difference between the actual liability for the earlier year, and the liability that would have arisen for the earlier year if the loss or averaged profits had been included in the Trust and Estate Tax Return for that year. Work out the decrease in tax by reference to the tax rate and circumstances for the earlier year. Enter it in box T8.5. Copy this figure to box 17.4 and tick box 17.3 in the Trust and Estate Tax Return.

The adjustment relates to 2023 to 2024 even though it's calculated by reference to the circumstances of the earlier year. If you need help, ask us or your tax adviser.

## Stage 8 Working out payments due by 31 January 2025

If any box on this page is negative, substitute zero ('0')

If box T8.15 is negative, this is the tax we owe you

This box can be negative

**Stage 9 Calculation of tax pool for 2023 to 2024. This section should be completed by trustees who make discretionary payments to beneficiaries (see question 14 on the Trust and Estate Tax Return)**

When you make discretionary payments that are income in the hands of the beneficiaries, those payments carry a tax credit. The tax credits have to be matched as far as possible with the tax payable by you on the trust income or tax credits attached to the income you've received. If the tax credits attaching to the payments to beneficiaries exceed the total of tax credits and tax payments (the tax pool), you have to pay the difference to us.

Foreign Tax Credit Relief, non-payable tax credits on dividends and notional tax on life policy gains are not available for repayment and cannot be used to frank tax credits allowed to beneficiaries.

The calculation excludes from the tax pool the proportion of such foreign tax and notional tax credits which relates to income which is to be accumulated, or is payable, at the trustees' discretion. Any excess of the tax credits attaching to payments to beneficiaries over your available tax credits and tax payments (the tax pool) is carried back to stage 7 and added to the tax bill for 2023 to 2024. Any excess in the tax pool is carried forward to the tax pool for the tax year 2024 to 2025. Tax paid in a year when the trustees are non-resident does not enter the tax pool.

**If any box on this page is negative, substitute zero ('0')**

Amount of tax pool brought forward
