(db) P11D Working Sheet 2b **HM** Revenue Car and car fuel benefit provided under optional remuneration arrangements 2019 to 2020 & Customs

Note to employer

Use this form if the benefits are provided under an optional remuneration arrangement. You do not have to use this form but you may find it a useful way to calculate the cash equivalent for each car made available to a director or an employee for the year 2019 to 2020 (that is 6 April 2019 to 5 April 2020).

A separate form is needed for each car provided to the director or employee during 2019 to 2020.

Read the 'P11D Guide' before you complete this form. It refers to paragraphs in tax guide '480 (2020)'.

We advise you to keep a copy of each completed working sheet as it could help you to deal with enquiries.

Employer details

You do not have to give a copy of the completed working sheet to the director or employee, or HM Revenue and Customs. But you must fill in forms P11D and 'P11D(b) Return of Class 1A National Insurance contributions due' whether or not you use this form to calculate car and car fuel benefits.

The term employee is used to cover both directors and employees throughout the rest of this form.

To avoid completing P11D forms, you can payroll car and car fuel benefit for future tax years online. For more information, go to www.gov.uk/guidance/paying-your-employees-expensesand-benefits-through-your-payroll

Employer details Employer name	Employee details Employee name
	Surname
Employer PAYE reference	First names
	Works number or department National Insurance number
Make and model of car available to employee	
Date the car was first registered	
/ / Was this the only car mad	e available to the employee? Yes No
If 'No' please make sure that working sheets are completed for e	ach car made available to the employee in 2019 to 2020.
If more than one working sheet 2b is completed for this employed	ee, enter the number of sheets here
 might reasonably be expected to be its list price on th published a list price for an equivalent car for a single if the car is a classic car, enter the price that the car m market on 5 April 2020 if the car is a classic car and was unavailable to the em 2019 to 2020 that it was available to the employee - f on the car are included in the sale A classic car is one which: is at least 15 years old on 5 April 2020 has a market value of at least £15,000 has a market value which is higher than the original 	you need to enter the notional price - that is, the price which at date if the car's manufacturer, importer or distributor had retail sale in the UK ight reasonably be expected to fetch if you sold it on the open uployee on 5 April 2020 then use the last day in the tax year or this purpose, assume that all the qualifying accessories available
Price of the car including standard accessories	A E
2 Accessories	
Price of all accessories read the 'P11D Guide' and tax guide	e '480 (2020)' B £
Add together box A and box B to give the interim sum	A + B C £

3 Calculating the appropriate percentage

The appropriate percentage depends on when the car was first registered, the type of fuel used and whether it has an approved CO_2 emissions figure.

Approved CO₂ emissions figure if the car has one

Enter the key letter (A, D or F) for the car's fuel or power type from table 1 below

	TABLE 1
Key letter	Car type
F	Diesel cars which meet Euro 6d standard
D	All other diesel cars
A	All other cars

Next step

3a

For cars registered:

- on or after 1 January 1998 with an approved CO₂ emissions figure, go to section 3a
- on or after 1 January 1998 without an approved CO₂ emissions figure, go to section 3b
- before 1 January 1998, go to section 3c

Cars registered on or after 1 January 1998 with an approved CO₂ emissions figure

Approved CO_2 emissions figure in box D, if this exceeds the 2019 to 2020 relevant threshold of 95g/km it should be rounded down to the next lowest 5g/km, for example 188 to 185

Using table 2 below, use the figure in box E to work out the percentage to enter in box F, use:

- column 1 for all cars in fuel type A and F
- column 2 for all cars in fuel type D

Appropriate percentage

Go to section 4 - do not complete section 3b or 3c

		ТАВ	LE 2		
CO ₂ emissions (g/km)	Column 1 (%)	Column 2 (%)	CO ₂ emissions (g/km)	Column 1 (%)	Column 2 (%)
0 to 50	16	20			
51 to 75*	19	23	130	30	34
76 to 94*	22	26	135	31	35
95	23	27	140	32	36
100	24	28	145	33	37
105	25	29	150	34	37
110	26	30	155	35	37
115	27	31	160	36	37
120	28	32	165**	37	37
125	29	33	or more		

* Unrounded.

** This is the maximum CO₂ value for which a different percentage applies. Use this value if the figure in box E is greater than the maximum. E g/km

D

g/km

F %

3b Cars registered on or after 1 January 1998 without an approved CO₂ emissions figure

Using table 3 below, work out the percentage to enter in box G, use:

- column 1 for all cars in fuel type A and F
- column 2 for all cars in fuel type D

Appropriate percentage

Go to section 4

TABLE 3 Column 1 Column 2 Engine size of car (cc) % % 0 to 1400 23 27 1401 to 2000 34 37 Over 2000 37 37 All rotary engines 37 37

3c All cars registered before 1 January 1998

TABLE	4
Engine size of car (cc)	Percentage
0 to 1400	23
1401 to 2000	34
over 2000	37
all rotary engines	37

Enter the engine size, then work out the percentage to enter in box H

Appropriate percentage

4

The modified cash equivalent

Multiply the interim sum with appropriate percentage to give the modified cash equivalent of the car before any deductions for unavailability have been taken into account

4a Make any deductions for days the car was unavailable

If the car was available to the employee for the whole of the tax year, put the figure in box I into box L. If not, give the dates the car was available

|--|

Total days the car was unavailable read the 'P11D Guide' and tax guide '480 (2020)'

Deduction for unavailability round up to next whole number

Modified cash equivalent of the car for the year

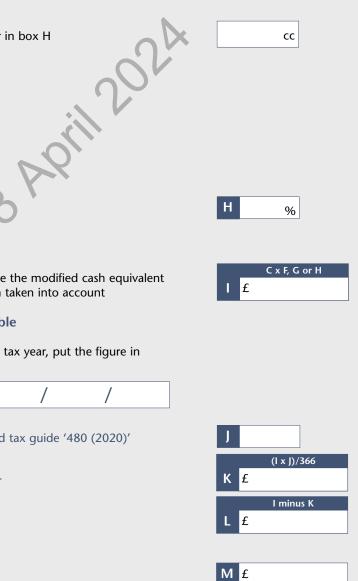

5 Amount foregone

from

Enter the amount foregone for this car, for the year

Compare the amount in box M to box L. If the amount is:

- more, go to section 6
- less or the same, use form 'P11D Working Sheet 2' to work out the cash equivalent of the car in the normal way

Capital contributions

8

If the employee had more than one car available in the year, add together all the figures at box AA on each working sheet, then transfer the total to form 'P11D', at section F box 10.

AA £
