

List of Vehicle Owners Clubs

The information contained in this booklet was correct at the time of going to print.
The most up to date version is available on www.gov.uk/vehicle-registration/old-vehicles

V765 scheme

How to register your vehicle under its original registration number:

- a. Applications must be submitted on form V765 and signed by the keeper of the vehicle agreeing to the terms and conditions of the V765 scheme. A V55/5 should also be filled in and a recent photograph of the vehicle confirming it as a complete entity must be included. A FEE IS NOT APPLICABLE as the vehicle is being re-registered and is not applying for first registration.
- b. The application must have a V765 form signed, stamped and approved by the relevant vehicle owners/enthusiasts club (for their make/type), shown on the 'List of Vehicle Owners Clubs' (V765/1). The club may charge a fee to process the application.
- c. Evidence MUST be presented with the application to link the registration number to the vehicle. Acceptable forms of evidence include:-
 - The original old style logbook (RF60/VE60).
 - Archive/Library records displaying the registration number and the chassis number authorised by the archivist clearly defining where the material was taken from.
 - Other pre 1983 documentary evidence linking the chassis and the registration number to the vehicle.

If successful, this registration number will be allocated on a non-transferable basis.

How to tax the vehicle

If your application is successful, on receipt of your V5C you should apply to tax at the Post Office® in the usual way.

The vehicle must not be used or kept on the road until you tax the vehicle.

Age related registration numbers

If the original number was transferred off or lost some time ago, or no documentary evidence can be provided to link the chassis and the registration number to the vehicle, it may be possible to issue your vehicle with an age related registration number.

You will need to provide proof of the year of manufacture. The chassis/frame number can often be used to establish this. If the manufacturer is no longer in existence, you must apply to the relevant club for your type/make of vehicle for a dating certificate.

If a non-suffix or prefix number is allocated, this will be on a non-transferable basis.

Q registration numbers

If no dating or other evidence is available to support an application, or if your vehicle has been restored or rebuilt using a majority of used parts from different vehicles, it is likely that your vehicle will be allocated a registration number from the 'Q' series.

Rejected applications

You can appeal against DVLA's decision if there are circumstances that we did not take into account when you applied or you can provide new evidence. Any appeal should be made in a timely manner.

You should send your appeal to:

K & R Team
DVLA
Swansea
SA99 1ZZ

Buying a vehicle?

The tax is no longer transferable so you must tax it before you use it.
