

Government  
Actuary's  
Department

# Objective, professional actuarial experts

**Delivering  
innovative,  
cost-effective  
solutions**

# Home

# Who we are

We provide actuarial solutions including financial risk analysis, modelling and advice to support the UK public sector.

We apply the actuarial profession's technical skills, consultancy discipline, high standards of professionalism and industry sector knowledge to solve financial challenges faced by the UK public sector.

We are members of the cross-government analysis function, with around 170 professional actuaries and analysts on hand.

# What we offer

- Actuarial advice to government departments, public bodies and local authorities
- Expert modelling and insightful analysis
- Risk management skills to help you make good decisions
- Work delivered to the highest professional standards in:
  - climate risk analysis
  - data insights
  - insurance and risk transfer
  - investment, funding and credit risk
  - modelling and quality assurance
  - pensions
  - social security

# Our mission

To improve the stewardship of public sector finances by supporting effective decision-making and robust financial reporting through actuarial analysis, modelling and advice.

***“The value for money, expertise and service provided by GAD simply can’t be compared by other services. It is in another league.”***

# Providing expertise

**Sharing knowledge** and expertise on issues ranging from commercial insurance to mortality

**Collaborating** with government departments to identify and model risks and long-term implications of, for example, social care and climate change

**Supporting** pension schemes, through consultancy and secondments, with strategic and operational projects or challenges

**Modelling and assessing** the risks around public service pensions, whether it's long-term projections or working to help protect people's pensions

**Using enhanced data science techniques** to process and analyse complex issues and to enhance our advice in areas of future uncertainty

# Our values

**Expert** – we provide high quality, professional advice.

**Collaborative** – we partner effectively with our clients to understand and address their business needs.

**Inclusive** – we value and develop all our people.

**Innovative** – we are forward looking, continually developing and improving to meet evolving client needs.

*“Very impressed by the innovation introduced by GAD colleagues. This is in addition to the great leadership and communication work.”*

# Advising on issues that matter

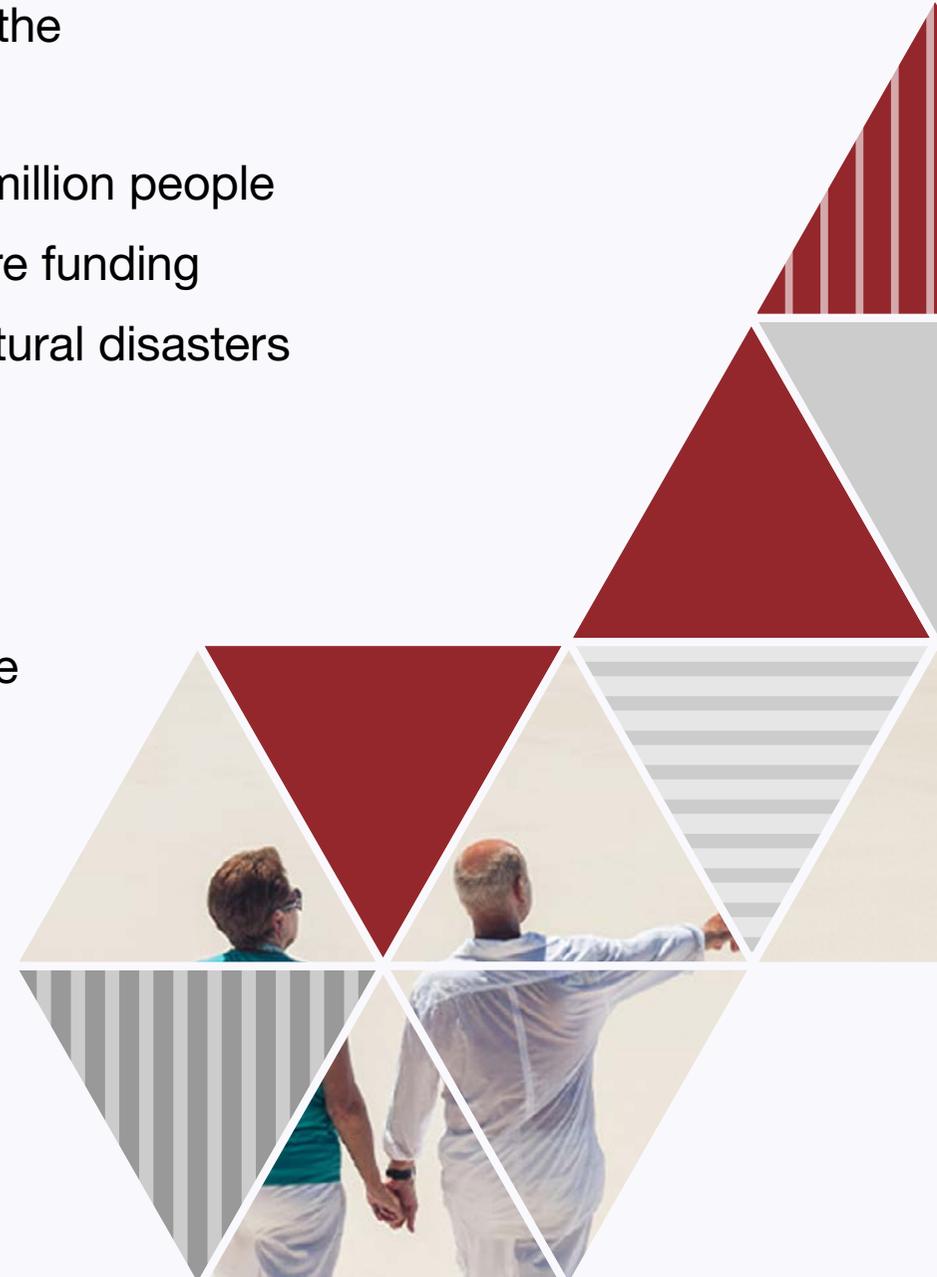

We work on some of the biggest challenges faced by the public sector including:

- UK public service pension schemes, impacting 15 million people
- financial frameworks for injury claims and social care funding
- financing solutions for rare but costly events like natural disasters

## Fit for the future

We focus on 4 key strategic themes in order to achieve our mission and vision for GAD by 2025:

- clients
- people
- inclusion
- processes

# Work with us

- High-quality impartial actuarial analysis and support
- Accredited under the Institute and Faculty of Actuaries' Quality Assurance Scheme
- Technical innovation and flexible working to meet your needs
- Cost-effective
- Usually no need for a procurement exercise
- Proven track record over 100 years

***“We highly value the input from our GAD team. We can be confident that we have given everything due consideration because of the excellent communication.”***

# Using our services

We work flexibly to find solutions for you through:

- consultancy work and projects
- collaborative working through onsite actuaries
- embedded working through secondments
- expert board membership
