Berks.

*Dear* [REDACTED]

It has been decided that all MCS staff who go to work at Christmas Island during a trials period should have blood examinations before they go there.

As the only MCS staff likely to be employed at the Island come into the scientific teams, it would be appreciated if arrangements could be made in future for their blood count to be carried out at AWRE as part of their preparation for overseas service.

*Yours sincerely,*

[REDACTED]
