P

In my conversation with [Redacted] he agreed that he would not oppose the request even though he thought it unnecessary from the Australian point of view. I believe therefore that he will agree with the above proposals, but I am in any case copying this letter to him.

In addition to blood counts, film badges would continue to be issued to all entrants to the Range.

I should be glad if you would raise this matter with the Board of Management. If it is agreed we shall include a suitable paragraph in the Maralinga Safety Regulations.

Hope you had a good visit here, and a better trip back than your outgoing journey.

All best wishes,

Yours
