Blood Counts - Maralinga

Ref your 6012/1/133 of 4 Feb 58.

Your predicament in regard to Security and the methods to be adopted in having new arrivals to the Range blood counted beforehand is understood.

However, blood counting is a highly specialized matter and cannot be handled at the Range. Those at present on site are being forwarded from time to time to Adelaide in order that the Boards direction may be carried out.

In view of this, it is necessary that some other method be adopted than that suggested in your letter.

Colonel
Range Commander

13/2/58
