Authorized Amendment
Summary / Overview of the amendment to explain/ensure that the reader understands: the rationale for the amendment; the major changes; and, importantly, the full context (including desired outcome) of the amendment.
The Regulated Community is reminded to check this amendment against any applicable AAMC, Waivers or Exemptions to ensure their ongoing validity.
<p>Issue 4 of RA 2375 generated many AWEs and some confusion amongst the Regulated Community (RC). This review seeks to improve the comprehension of the regulatory intent without changing the regulatory requirement. A summary of changes is as follows:</p> <ul style="list-style-type: none"> • Inclusion of generic term ATD (to encompass OTD as well as FSTD). • Exclusion of equipment not for the purpose of Aircrew training. • Addition of statement in Rationale that explains the value of qualification and approval. • Addition of AMC/GM text to existing stipulations, to add clarity to known areas of confusion, and recognise that some in service ATD, procured prior to Issue 4, cannot fully comply with the Qualification process, offering guidance in these cases.
